320.2032 Legislative findings.

Sec. 2. The legislature finds:

(a) That forestry operations are valuable to the state's economy, provide jobs to its citizens, can be an effective wildlife management tool, are essential to the manufacture of forestry products that are used and enjoyed by the people of the state, and benefit the general welfare of the people of the state.

(c) That, as a result of random encroachment, conflicts have arisen between traditional forestry land uses and urban and residential land uses.

(d) That conflicts between forestry and urban land uses threaten to permanently convert forestland to other uses, whereby the forestland resources are permanently lost to the economy and the human and physical environments of the state.

Generally accepted forestry management practices shall be reviewed annually by the commission and revised as considered necessary.

(2) Forestry operations voluntarily using sustainable forestry practices as approved by the commission shall not be found to be a public or private nuisance if the forestry operations existed before a change in the land use or occupancy of land within 1 mile of the boundaries of the forestland, and if before that change in land use or occupancy, the forestry operations would not have been a nuisance.

(12) Except as otherwise provided in this subsection, the total payment to any city, village, or township under this act and section 10 of article IX of the state constitution of 1963 shall not increase by more than 8% over the amount of the payment under this act and section 10 of article IX of the state constitution of 1963 in the immediately preceding state fiscal year. From the amount not distributed because of the limitation imposed by this subsection, the department shall distribute an amount to certain cities, villages, and townships such that the percentage increase in the total payment under this act and section 10 of article IX of the state constitution of 1963 from the immediately preceding state fiscal year to each of those cities, villages, and townships is equal to, but does not exceed, the percentage increase from the immediately preceding state fiscal year of any city, village, or township that does not receive a distribution under this subsection. This subsection does not apply for state fiscal years after the 2000 federal decennial census becomes official to a city, village, or township with a 10% or more increase in population from the official 1990 federal decennial census to the official 2000 federal decennial census.

(13) The percentage allocations to distributions under subsections (8) to (10) pursuant to subsection (11) shall be calculated as if, in any state fiscal year, the amount appropriated under this section for distribution to cities, villages, and townships is 74.94% of 21.3% of the sales tax at a rate of 4%. If the amount appropriated under this section to cities, villages, and townships is less than 74.94% of 21.3% of the sales tax at a rate of 4%, any reduction made necessary by this appropriation in distributions to cities, villages, and townships shall first be applied to the distribution under subsections (8) to (10) and any remaining amount shall be applied to the other distributions under this section.

(14) A township that provides for or makes available fire, police on a 24-hour basis either through contracting for or directly employing personnel, water to 50% or more of its residents, and sewer services to 50% or more of its residents and has a population of 10,000 or more or a township that has a population of 20,000 or more shall use the unit type population weight factor under subsection (9)(a) for a city with the same population as the township.

(15) For a state fiscal year in which the sales tax collections decrease from the sales tax collections for the immediately preceding state fiscal year, the department shall reduce the amount to be distributed to a city with a population of 750,000 or more under subsection (6) by an amount determined by subtracting the amount the city is eligible for under section 10 of article IX of the state constitution of 1963 for the state fiscal year from $333,900,000.00 and multiplying that result by the same percentage as the percentage decrease in sales tax collections for that state fiscal year as compared to sales tax collections for the immediately preceding state fiscal year. This subsection does not apply to the 2002-2003 state fiscal year.

(16) Notwithstanding any other provision of this section for the 1998-1999 state fiscal year, the total combined amount received by each city, village, and township under this section and section 10 of article IX of the state constitution of 1963 shall not be less than the combined amount received under this section, section 12a, and section 10 of article IX of the state constitution of 1963 in the 1997-1998 state fiscal year. The increase, if any, for each city, village, and township from the 1997-1998 state fiscal year, other than a city that receives a distribution under subsection (6), shall be reduced by a uniform percentage to the extent necessary to fund distributions under this subsection.

(17) The payments under subsections (3), (4), and (5) shall be made during each October, December, February, April, June, and August. Payments under subsections (3), (4), and (5) shall be based on collections from the sales tax at the rate of 4% in the 2-month period ending the prior August 31, October 31, December 31, February 28, April 30, and June 30, and for the 1996-1997 and 1997-1998 state fiscal years only, the payments shall be reduced by 1/6 of the total distribution for the state fiscal year under section 12a.

(18) Payments under this section shall be made from revenues collected during the state fiscal year in which the payments are made.

(19) Distributions provided for by this act are subject to an annual appropriation by the legislature.

This act is ordered to take immediate effect.

AN ACT to amend 1961 PA 236, entitled "An act to revise and consolidate the statutes relating to the organization and jurisdiction of the courts of this state; the powers and duties of such courts, and of the judges and other officers thereof; the forms and attributes of civil claims and actions; the time within which civil actions and proceedings may be brought in said courts; pleading, evidence, practice and procedure in civil and criminal actions and proceedings in said courts; to provide remedies and penalties for the violation of certain provisions of this act; to repeal all acts and parts of acts inconsistent with or contravening any of the provisions of this act; and to repeal acts and parts of acts," by amending section 8122 (MCL 600.8122), as amended by 1988 PA 135, and by adding section 9938a.

The People of the State of Michigan enact:

600.8122 Thirty-seventh district to forty-second district.

Sec. 8122. (1) The thirty-seventh district consists of the cities of Warren and Center Line, is a district of the third class, and has 4 judges.

(2) The thirty-eighth district consists of the city of Eastpointe, is a district of the third class, and has 1 judge.

(3) The thirty-ninth district consists of the cities of Roseville and Fraser, is a district of the third class, and has 3 judges.

(4) The fortieth district consists of the city of Saint Clair Shores, is a district of the third class, and has 2 judges.

(5) The forty-first-a district consists of the cities of Utica and Sterling Heights and the townships of Shelby and Macomb in the county of Macomb, is a district of the third class, and has 4 judges.

(6) The forty-first-b district consists of the city of Mt. Clemens and the townships of Clinton and Harrison in the county of Macomb, is a district of the third class, and has 3 judges.

(7) The forty-second district consists of the cities of Memphis, Richmond, and New Baltimore and the townships of Bruce, Washington, Armada, Ray, Richmond, Lenox, and Chesterfield in the county of Macomb, is a district of the second class, and is divided into the following election divisions:

(a) The first division consists of the cities of Memphis and Richmond and the townships of Bruce, Washington, Armada, Ray, and Richmond and has 1 judge.

(b) The second division consists of the city of New Baltimore and the townships of Lenox and Chesterfield and has 1 judge.

600.9938a Thirty-eighth district; function and establishment of district court.

Sec. 9938a. (1) Effective January 1, 2004, the district court shall commence to function in the thirty-eighth district and, as of that date, the municipal court within that district is abolished. The terms of the incumbent municipal judges in Eastpointe shall expire at 12 midnight on December 31, 2003. The judgeship in the thirty-eighth district of the district court, as authorized under section 8122(2), shall be filled in a special election held in November 2003, in conjunction with the November 2003 Eastpointe municipal election, in the manner provided by law. For purposes of the November 2003 special election only, the term of the candidate for district judge in the thirty-eighth district who receives the highest number of votes shall be 5 years.

(2) All causes of action transferred to the thirty-eighth district court pursuant to section 9924(1) shall be as valid and subsisting as they were in the municipal court from which they were transferred. All orders and judgments entered before January 1, 2004 in the municipal court abolished pursuant to subsection (1) are appealable in like manner and to the same courts as applicable before that date.

(3) Subsections (1) and (2) do not apply, and any district judgeship proposed for the thirty-eighth district is not authorized or filled by election, unless the city of Eastpointe, by resolution adopted by its governing body, approves the establishment of the district court in the thirty-eighth district and the district judgeship proposed for the thirty-eighth district and unless the clerk of the city of Eastpointe files a copy of the resolution with the secretary of state not earlier than the effective date of this section and not later than 4 p.m. April 12, 2003. Upon receiving a copy of the resolution, the secretary of state shall

immediately notify the state court administrator with respect to the establishment of the district court in the thirty-eighth district and the district judgeship authorized for the thirty-eighth district.

(4) By enacting this section, the legislature is not mandating that the district court function in the thirty-eighth district and is not mandating any judgeship in the district. If the city of Eastpointe, acting through its governing body, approves the establishment of the district court in the thirty-eighth district and any district judgeship proposed by law for that district, that approval constitutes an exercise of that city's option to provide a new activity or service or to increase the level of activity or service offered in the city beyond that required by existing law, as the elements of that option are defined by 1979 PA 101, MCL 21.231 to 21.244, and a voluntary acceptance by the city of all expenses and capital improvements which may result from the establishment of the district court in the thirty-eighth district and any judgeship. However, the exercise of the option does not affect the state's obligation to pay a portion of any district judge's salary as provided by law, or to appropriate and disburse funds to the city or incorporated village for the necessary costs of state requirements established by a state law that becomes effective on or after December 23, 1978.

This act is ordered to take immediate effect.

The People of the State of Michigan enact:

333.20145 Construction permit; certificate of need as condition of issuance; rules; information required for project not requiring certificate of need; review and approval of architectural plans and narrative; rules; waiver; fee; "capital expenditure" defined.

Sec. 20145. (1) Before contracting for and initiating a construction project involving new construction, additions, modernizations, or conversions of a health facility or agency with a capital expenditure of $1,000,000.00 or more, a person shall obtain a construction permit from the department. The department shall not issue the permit under this subsection unless the applicant holds a valid certificate of need if a certificate of need is required for the project pursuant to part 222.

(2) To protect the public health, safety, and welfare, the department may promulgate rules to require construction permits for projects other than those described in subsection (1) and the submission of plans for other construction projects to expand or change service areas and services provided.

(3) If a construction project requires a construction permit under subsection (1) or (2), but does not require a certificate of need under part 222, the department shall require the applicant to submit information considered necessary by the department to assure that the capital expenditure for the project is not a covered capital expenditure as defined in section 22203(9).

(4) If a construction project requires a construction permit under subsection (1), but does not require a certificate of need under part 222, the department shall require the applicant to submit information on a 1-page sheet, along with the application for a construction permit, consisting of all of the following:

(6) The review and approval of architectural plans and narrative shall require that the proposed construction project is designed and constructed in accord with applicable statutory and other regulatory requirements. In performing a construction permit review for a health facility or agency under this section, the department shall, at a minimum, apply the standards contained in the document entitled "Minimum Design Standards for Health Care Facilities in Michigan" published by the department and dated March 1998. The standards are incorporated by reference for purposes of this subsection. (7) The department shall promulgate rules to further prescribe the scope of construction projects and other alterations subject to review under this section.

(8) The department may waive the applicability of this section to a construction project or alteration if the waiver will not affect the public health, safety, and welfare.

(9) Upon request by the person initiating a construction project, the department may review and issue a construction permit to a construction project that is not subject to subsection (1) or (2) if the department determines that the review will promote the public health, safety, and welfare.

(10) The department shall assess a fee for each review conducted under this section. The fee is .5% of the first $1,000,000.00 of capital expenditure and .85% of any amount over $1,000,000.00 of capital expenditure, up to a maximum of $30,000.00.

(11) As used in this section, "capital expenditure" means that term as defined in section 22203(2), except that it does not include the cost of equipment that is not fixed equipment.

333.21523 Strictness of rules and standards.

(HB 5971)

AN ACT to amend 1978 PA 368, entitled "An act to protect and promote the public health; to codify, revise, consolidate, classify, and add to the laws relating to public health; to provide for the prevention and control of diseases and disabilities; to provide for the classification, administration, regulation, financing, and maintenance of personal, environmental, and other health services and activities; to create or continue, and prescribe the powers and duties of, departments, boards, commissions, councils, committees, task forces, and other agencies; to prescribe the powers and duties of governmental entities and officials; to regulate occupations, facilities, and agencies affecting the public health; to regulate health maintenance organizations and certain third party administrators and insurers; to provide for the imposition of a regulatory fee; to promote the efficient and economical delivery of health care services, to provide for the appropriate utilization of health care facilities and services, and to provide for the closure of hospitals or consolidation of hospitals or services; to provide for the collection and use of data and information; to provide for the transfer of property; to provide certain immunity from liability; to regulate and prohibit the sale and offering for sale of drug paraphernalia under certain circumstances; to provide for the implementation of federal law; to provide for penalties and remedies; to provide for sanctions for violations of this act and local ordinances; to provide for an appropriation and supplements; to repeal certain acts and parts of acts; to repeal certain parts of this act; and to repeal certain parts of this act on specific dates," by amending sections 16299, 17014, and 17015 (MCL 333.16299, 333.17014, and 333.17015), section 17014 as added by 1993 PA 133 and section 17015 as amended by 2000 PA 345.

The People of the State of Michigan enact:

333.16299 Violation as misdemeanor; penalties; exception.

Sec. 16299. (1) Except as otherwise provided in subsection (2), a person who violates or aids or abets another in a violation of this article, other than those matters described in sections 16294 and 16296, is guilty of a misdemeanor punishable as follows:

(a) For the first offense, by imprisonment for not more than 90 days, or a fine of not more than $100.00, or both.

(b) For the second or subsequent offense, by imprisonment for not less than 90 days nor more than 6 months, or a fine of not less than $200.00 nor more than $500.00, or both.

(2) Subsection (1) does not apply to a violation of section 17015 or 17515.

333.17014 Legislative findings.

Sec. 17014. The legislature recognizes that under federal constitutional law, a state is permitted to enact persuasive measures that favor childbirth over abortion, even if those measures do not further a health interest. Sections 17015 and 17515 are nevertheless designed to provide objective, truthful information, and are not intended to be persuasive. The legislature finds that the enactment of sections 17015 and 17515 is essential for all of the following reasons:

(a) The knowledgeable exercise of a woman's decision to have an abortion depends on the extent to which the woman receives sufficient information to make an informed choice regarding abortion.

(b) The decision to obtain an abortion is an important and often stressful one, and it is in the state's interest that the decision be made with full knowledge of its nature and consequences.

(c) Enactment of sections 17015 and 17515 is necessary to ensure that, before an abortion, a woman is provided information regarding her available alternatives, and to ensure that a woman gives her voluntary and informed consent to an abortion.

(d) The receipt of accurate information about abortion and its alternatives is essential to the physical and psychological well-being of a woman considering an abortion.

(e) Because many abortions in this state are performed in clinics devoted solely to providing abortions, women who seek abortions at these clinics normally do not have a prior patient-physician relationship with the physician performing the abortion nor do these women continue a patient-physician relationship with the physician after the abortion. In many instances, the woman's only actual contact with the physician performing the abortion occurs simultaneously with the abortion procedure, with little opportunity to receive counsel concerning her decision. Consequently, certain safeguards are necessary to protect a woman's opportunity to select the option best suited to her particular situation.

(f) This state has an interest in protecting women and, subject to United States constitutional limitations and supreme court decisions, this state has an interest in protecting the fetus.

(g) Providing a woman with factual, medical, and biological information about the fetus she is carrying is essential to safeguard the state's interests described in subdivision (f). The dissemination of the information set forth in sections 17015 and 17515 is necessary due to the irreversible nature of the act of abortion and the often stressful circumstances under which the abortion decision is made.

(h) Because abortion services are marketed like many other commercial enterprises, and nearly all abortion providers advertise some free services, including pregnancy tests and counseling, the legislature finds that consumer protection should be extended to women contemplating an abortion decision by delaying any financial transactions until after a 24-hour waiting period. Furthermore, since the legislature and abortion providers have determined that a woman's right to give informed consent to an abortion can be protected by means other than the patient having to travel to the abortion facility during the 24-hour waiting period, the legislature finds that abortion providers do not have a legitimate claim of necessity in obtaining payments during the 24-hour waiting period.

(i) The safeguards that will best protect a woman seeking advice concerning abortion include the following:

(*i*) Private, individual counseling, including dissemination of certain information, as the woman's individual circumstances dictate, that affect her decision of whether to choose an abortion.

(*ii*) A 24-hour waiting period between a woman's receipt of that information provided to assist her in making an informed decision, and the actual performance of an abortion, if she elects to undergo an abortion. A 24-hour waiting period affords a woman, in light of the information provided by the physician or a qualified person assisting the physician, an opportunity to reflect on her decision and to seek counsel of family and friends in making her decision.

(j) The safeguards identified in subdivision (i) advance a woman's interests in the exercise of her discretion to choose or not to choose an abortion, and are justified by the objectives and interests of this state to protect the health of a pregnant woman and, subject to United States constitutional limitations and supreme court decisions, to protect the fetus.

333.17015 Informed consent; definitions; duties of physician or assistant; location; disclosure of information; website maintained and operated by department; medical emergency necessitating abortion; duties of department; physician's duty to inform patient; validity of consent or certification form; right to abortion not created; prohibition; portion of act found invalid; duties of local health department; confidentiality.

Sec. 17015. (1) Subject to subsection (10), a physician shall not perform an abortion otherwise permitted by law without the patient's informed written consent, given freely and without coercion.

(2) For purposes of this section:

(a) "Abortion" means the intentional use of an instrument, drug, or other substance or device to terminate a woman's pregnancy for a purpose other than to increase the probability of a live birth, to preserve the life or health of the child after live birth, or to remove a dead fetus. Abortion does not include the use or prescription of a drug or device intended as a contraceptive.

(b) "Fetus" means an individual organism of the species homo sapiens in utero.

(c) "Local health department representative" means a person employed by, or under contract to provide services on behalf of, a local health department who meets 1 or more of the licensing requirements listed in subdivision (f).

(d) "Medical emergency" means that condition which, on the basis of the physician's good faith clinical judgment, so complicates the medical condition of a pregnant woman as

to necessitate the immediate abortion of her pregnancy to avert her death or for which a delay will create serious risk of substantial and irreversible impairment of a major bodily function.

(e) "Medical service" means the provision of a treatment, procedure, medication, examination, diagnostic test, assessment, or counseling, including, but not limited to, a pregnancy test, ultrasound, pelvic examination, or an abortion.

(f) "Qualified person assisting the physician" means another physician or a physician's assistant licensed under this part or part 175, a fully licensed or limited licensed psychologist licensed under part 182, a professional counselor licensed under part 181, a registered professional nurse or a licensed practical nurse licensed under part 172, or a social worker registered under part 185.

(g) "Probable gestational age of the fetus" means the gestational age of the fetus at the time an abortion is planned to be performed.

(h) "Provide the patient with a physical copy" means confirming that the patient accessed the internet website described in subsection (5) and received a printed valid confirmation form from the website and including that form in the patient's medical record or giving a patient a copy of a required document by 1 or more of the following means:

(*i*) In person.

(*ii*) By registered mail, return receipt requested.

(*iii*) By parcel delivery service that requires the recipient to provide a signature in order to receive delivery of a parcel.

(*iv*) By facsimile transmission.

(3) Subject to subsection (10), a physician or a qualified person assisting the physician shall do all of the following not less than 24 hours before that physician performs an abortion upon a patient who is a pregnant woman:

(a) Confirm that, according to the best medical judgment of a physician, the patient is pregnant, and determine the probable gestational age of the fetus.

(b) Orally describe, in language designed to be understood by the patient, taking into account her age, level of maturity, and intellectual capability, each of the following:

(*i*) The probable gestational age of the fetus she is carrying.

(*ii*) Information about what to do and whom to contact should medical complications arise from the abortion.

(*iii*) Information about how to obtain pregnancy prevention information through the department of community health.

(c) Provide the patient with a physical copy of the written summary described in subsection (11)(b) that corresponds to the procedure the patient will undergo and is provided by the department of community health. If the procedure has not been recognized by the department, but is otherwise allowed under Michigan law, and the department has not provided a written summary for that procedure, the physician shall develop and provide a written summary that describes the procedure, any known risks or complications of the procedure, and risks associated with live birth and meets the requirements of subsection (11)(b)(*iii*) through (*vii*).

(d) Provide the patient with a physical copy of a medically accurate depiction, illustration, or photograph and description of a fetus supplied by the department of community health pursuant to subsection (11)(a) at the gestational age nearest the probable gestational age of the patient's fetus.

(e) Provide the patient with a physical copy of the prenatal care and parenting information pamphlet distributed by the department of community health under section 9161.

(4) The requirements of subsection (3) may be fulfilled by the physician or a qualified person assisting the physician at a location other than the health facility where the abortion is to be performed. The requirement of subsection (3)(a) that a patient's pregnancy be confirmed may be fulfilled by a local health department under subsection (18). The requirements of subsection (3) cannot be fulfilled by the patient accessing an internet website other than the internet website described in subsection (5) that is maintained through the department.

(5) The requirements of subsection (3)(c) through (e) may be fulfilled by a patient accessing the internet website maintained and operated through the department and receiving a printed, valid confirmation form from the website that the patient has reviewed the information required in subsection (3)(c) through (e) at least 24 hours before an abortion being performed on the patient. The website shall not require any information be supplied by the patient. The department shall not track, compile, or otherwise keep a record of information that would identify a patient who accesses this website. The patient shall supply the valid confirmation form to the physician or qualified person assisting the physician to be included in the patient's medical record to comply with this subsection.

(6) Subject to subsection (10), before obtaining the patient's signature on the acknowledgment and consent form, a physician personally and in the presence of the patient shall do all of the following:

(a) Provide the patient with the physician's name and inform the patient of her right to withhold or withdraw her consent to the abortion at any time before performance of the abortion.

(b) Orally describe, in language designed to be understood by the patient, taking into account her age, level of maturity, and intellectual capability, each of the following:

(*i*) The specific risk, if any, to the patient of the complications that have been associated with the procedure the patient will undergo, based on the patient's particular medical condition and history as determined by the physician.

(*ii*) The specific risk of complications, if any, to the patient if she chooses to continue the pregnancy based on the patient's particular medical condition and history as determined by a physician.

(7) To protect a patient's privacy, the information set forth in subsection (3) and subsection (6) shall not be disclosed to the patient in the presence of another patient.

(8) Before performing an abortion on a patient who is a pregnant woman, a physician or a qualified person assisting the physician shall do all of the following:

(a) Obtain the patient's signature on the acknowledgment and consent form described in subsection (11)(c) confirming that she has received the information required under subsection (3).

(b) Provide the patient with a physical copy of the signed acknowledgment and consent form described in subsection (11)(c).

(c) Retain a copy of the signed acknowledgment and consent form described in subsection (11)(c) and, if applicable, a copy of the pregnancy certification form completed under subsection (18)(b), in the patient's medical record.

(9) This subsection does not prohibit notifying the patient that payment for medical services will be required or that collection of payment in full for all medical services provided or planned may be demanded after the 24-hour period described in this sub-

section has expired. A physician or an agent of the physician shall not collect payment, in whole or in part, for a medical service provided to or planned for a patient before the expiration of 24 hours from the time the patient has done either or both of the following, except in the case of a physician or an agent of a physician receiving capitated payments or under a salary arrangement for providing those medical services:

(a) Inquired about obtaining an abortion after her pregnancy is confirmed and she has received from that physician or a qualified person assisting the physician the information required under subsection (3)(c) and (d).

(b) Scheduled an abortion to be performed by that physician.

(10) If the attending physician, utilizing his or her experience, judgment, and professional competence, determines that a medical emergency exists and necessitates performance of an abortion before the requirements of subsections (1), (3), and (6) can be met, the physician is exempt from the requirements of subsections (1), (3), and (6), may perform the abortion, and shall maintain a written record identifying with specificity the medical factors upon which the determination of the medical emergency is based.

(11) The department of community health shall do each of the following:

(a) Produce medically accurate depictions, illustrations, or photographs of the development of a human fetus that indicate by scale the actual size of the fetus at 2-week intervals from the fourth week through the twenty-eighth week of gestation. Each depiction, illustration, or photograph shall be accompanied by a printed description, in nontechnical English, Arabic, and Spanish, of the probable anatomical and physiological characteristics of the fetus at that particular state of gestational development.

(b) Subject to subdivision (g), develop, draft, and print, in nontechnical English, Arabic, and Spanish, written standardized summaries, based upon the various medical procedures used to abort pregnancies, that do each of the following:

(*i*) Describe, individually and on separate documents, those medical procedures used to perform abortions in this state that are recognized by the department.

(*ii*) Identify the physical complications that have been associated with each procedure described in subparagraph (*i*) and with live birth, as determined by the department. In identifying these complications, the department shall consider the annual statistical report required under section 2835(6), and shall consider studies concerning complications that have been published in a peer review medical journal, with particular attention paid to the design of the study, and shall consult with the federal centers for disease control, the American college of obstetricians and gynecologists, the Michigan state medical society, or any other source that the department determines appropriate for the purpose.

(*iii*) State that as the result of an abortion, some women may experience depression, feelings of guilt, sleep disturbance, loss of interest in work or sex, or anger, and that if these symptoms occur and are intense or persistent, professional help is recommended.

(*iv*) State that not all of the complications listed in subparagraph (*ii*) may pertain to that particular patient and refer the patient to her physician for more personalized information.

(*v*) Identify services available through public agencies to assist the patient during her pregnancy and after the birth of her child, should she choose to give birth and maintain custody of her child.

(*vi*) Identify services available through public agencies to assist the patient in placing her child in an adoptive or foster home, should she choose to give birth but not maintain custody of her child.

(*vii*) Identify services available through public agencies to assist the patient and provide counseling should she experience subsequent adverse psychological effects from the abortion.

(c) Develop, draft, and print, in nontechnical English, Arabic, and Spanish, an acknowledgment and consent form that includes only the following language above a signature line for the patient:

"I, _____, hereby authorize Dr. _____ ("the physician") and any assistant designated by the physician to perform upon me the following operation(s) or procedure(s):

_____

(Name of operation(s) or procedure(s))

_____

I understand that I am approximately _____ weeks pregnant. I consent to an abortion procedure to terminate my pregnancy. I understand that I have the right to withdraw my consent to the abortion procedure at any time prior to performance of that procedure. I acknowledge that at least 24 hours before the scheduled abortion I have received a physical copy of each of the following:

(a) A medically accurate depiction, illustration, or photograph of a fetus at the probable gestational age of the fetus I am carrying.

(b) A written description of the medical procedure that will be used to perform the abortion.

(c) A prenatal care and parenting information pamphlet. If any of the above listed documents were transmitted by facsimile, I certify that the documents were clear and legible. I acknowledge that the physician who will perform the abortion has orally described all of the following to me:

(*i*) The specific risk to me, if any, of the complications that have been associated with the procedure I am scheduled to undergo.

(*ii*) The specific risk to me, if any, of the complications if I choose to continue the pregnancy.

I acknowledge that I have received all of the following information:

(d) Information about what to do and whom to contact in the event that complications arise from the abortion.

(e) Information pertaining to available pregnancy related services.

I have been given an opportunity to ask questions about the operation(s) or procedure(s). I certify that I have not been required to make any payments for an abortion or any medical service before the expiration of 24 hours after I received the written materials listed in paragraphs (a), (b), and (c) above, or 24 hours after the time and date listed on the confirmation form if paragraphs (a), (b), and (c) were viewed from the state of Michigan internet website.".

(d) Make available to physicians through the Michigan board of medicine and the Michigan board of osteopathic medicine and surgery, and any person upon request the copies of medically accurate depictions, illustrations, or photographs described in subdivision (a), the standardized written summaries described in subdivision (b), the acknowledgment and consent form described in subdivision (c), the prenatal care and parenting information pamphlet described in section 9161, and the pregnancy certification form described in subdivision (f).

(e) The department shall not develop written summaries for abortion procedures under subdivision (b) that utilize medication that has not been approved by the United States food and drug administration for use in performing an abortion.

(f) Develop, draft, and print a certification form to be signed by a local health department representative at the time and place a patient has a pregnancy confirmed, as requested by the patient, verifying the date and time the pregnancy is confirmed.

(g) Develop and maintain an internet website that allows a patient considering an abortion to review the information required in subsection (3)(c) through (e). After the patient reviews the required information, the department shall assure that a confirmation form can be printed by the patient from the internet website that will verify the time and date the information was reviewed. A confirmation form printed under this subdivision becomes invalid 14 days after the date and time printed on the confirmation form.

(12) A physician's duty to inform the patient under this section does not require disclosure of information beyond what a reasonably well-qualified physician licensed under this article would possess.

(13) A written consent form meeting the requirements set forth in this section and signed by the patient is presumed valid. The presumption created by this subsection may be rebutted by evidence that establishes, by a preponderance of the evidence, that consent was obtained through fraud, negligence, deception, misrepresentation, coercion, or duress.

(14) A completed certification form described in subsection (11)(f) that is signed by a local health department representative is presumed valid. The presumption created by this subsection may be rebutted by evidence that establishes, by a preponderance of the evidence, that the physician who relied upon the certification had actual knowledge that the certificate contained a false or misleading statement or signature.

(15) This section does not create a right to abortion.

(16) Notwithstanding any other provision of this section, a person shall not perform an abortion that is prohibited by law.

(17) If any portion of this act or the application of this act to any person or circumstances is found invalid by a court, that invalidity does not affect the remaining portions or applications of the act that can be given effect without the invalid portion or application, if those remaining portions are not determined by the court to be inoperable.

(18) Upon a patient's request, each local health department shall:

(a) Provide a pregnancy test for that patient to confirm the pregnancy as required under subsection (3)(a) and determine the probable gestational stage of the fetus. The local health department need not comply with this subdivision if the requirements of subsection (3)(a) have already been met.

(b) If a pregnancy is confirmed, ensure that the patient is provided with a completed pregnancy certification form described in subsection (11)(f) at the time the information is provided.

(19) The identity and address of a patient who is provided information or who consents to an abortion pursuant to this section is confidential and is subject to disclosure only with the consent of the patient or by judicial process.

(20) A local health department with a file containing the identity and address of a patient described in subsection (19) who has been assisted by the local health department under this section shall do both of the following:

(a) Only release the identity and address of the patient to a physician or qualified person assisting the physician in order to verify the receipt of the information required under this section.

(b) Destroy the information containing the identity and address of the patient within 30 days after assisting the patient under this section.

name otherwise available for use. If in the judgment of the administrator that name would comply with subsections (1) and (2), those subsections shall not bar the issuance to the foreign limited liability company of a certificate of authority to transact business in this state. The certificate of authority to transact business in this state issued to the foreign limited liability company shall be issued in the name applied for and the foreign limited liability company shall use that name in all its dealings with the administrator and in the transaction of business in this state.

(4) The fact that a limited liability company name complies with this section does not create substantive rights to the use of the name.

450.4207 Maintaining registered office and resident agent; service of process, notice, or demand; appointment of agent; annual statement; service of process by mail.

Sec. 207. (1) Each domestic limited liability company and foreign limited liability company authorized to transact business in this state shall have and continuously maintain in this state both of the following:

(*iv*) A foreign limited liability company authorized to transact business in this state.

(2) The resident agent appointed by a limited liability company is an agent of the company upon whom any process, notice, or demand required or permitted by law to be served upon the company may be served.

(3) A domestic limited liability company or foreign limited liability company authorized to transact business in this state shall file with the administrator an annual statement executed as provided in section 103 containing the name of its resident agent and the address of its registered office in this state. The statement shall be filed not later than February 15 of each year, except that a limited liability company formed after September 30 or a foreign limited liability company authorized to transact business in this state after September 30 need not file a statement on the February 15 immediately succeeding its formation or authorization.

(4) If a limited liability company fails to appoint or maintain an agent for service of process, or the agent for service of process cannot be found or served through the exercise of reasonable diligence, service of process may be made by delivering or mailing by registered mail to the administrator a summons and copy of the complaint.

450.4207a Certificate of good standing.

Sec. 207a. (1) Except as provided in this section, and section 909 for a professional limited liability company, from the effective date of the articles of organization as provided in section 104 until dissolution for a domestic limited liability company, or from the effective date of the certificate of authority to transact business in this state until withdrawal from this state for a foreign limited liability company, a limited liability company is entitled to issuance by the administrator, upon request, of a certificate of good standing. A certificate of good standing issued to a domestic limited liability company shall state

that it has been validly organized as a domestic limited liability company, that it is validly in existence under the laws of this state, and that it has satisfied its annual filing obligations. A certificate of good standing issued to a foreign limited liability company shall state that it has been validly authorized to transact business in this state, that it holds a valid certificate of authority to transact business in this state, and that it has satisfied its annual filing obligations.

(2) If a domestic limited liability company or a foreign limited liability company authorized to transact business in this state fails to file an annual statement required by section 207 for 2 consecutive years, the administrator shall notify the company of the consequences of the failure to file under subsection (3).

(3) If a limited liability company does not file all annual statements it has failed to file, and the applicable fees, within 60 days after the administrator's notice under subsection (2) is sent, the limited liability company is not in good standing. A limited liability company that is not in good standing is not entitled to issuance by the administrator of a certificate of good standing described in subsection (1), the name of the company is available for use by another entity filing with the administrator, and the administrator shall not accept for filing any document submitted by the limited liability company other than a certificate of restoration of good standing provided for in subsection (4). A limited liability company that is not in good standing remains in existence and may continue to transact business in this state.

(4) A domestic limited liability company or a foreign limited liability company authorized to transact business in this state that is not in good standing under subsection (3) may file a certificate of restoration of good standing, accompanied by the annual statements and fees for all of the years for which they were not filed and paid, and the fee for filing the certificate of restoration of good standing. The certificate shall include all of the following:

(a) The name of the limited liability company at the time it ceased to be in good standing. If that name is not available when the certificate of restoration of good standing is filed, the limited liability company shall select a new name that complies with section 204. The new name shall be the name of the domestic limited liability company or the name used in this state by the foreign limited liability company from the date of filing of the certificate.

(b) The name of the limited liability company's current resident agent and the address of the current registered office in this state.

450.4210 Limited liability company; power

Sec. 210. Subject to the limitations provided in this act, any other statute of this state, or its articles of organization, a limited liability company has all powers necessary or convenient to effect any purpose for which the company is formed, including all powers granted to corporations in the business corporation act, 1972 PA 284, MCL 450.1101 to 450.2098.

450.4214 Conflict between articles of organization and operating agreement.

Sec. 214. If there is a conflict between the articles of organization and an operating agreement of a limited liability company, the articles of organization shall control.

450.4215 Operating agreement unenforceable.

Sec. 215. An operating agreement of a limited liability company that has 1 member is not unenforceable because only 1 person is a party to the operating agreement.

450.4301 Members; contribution.

Sec. 301. (1) A contribution of a member to a limited liability company may consist of any tangible or intangible property or benefit to the company, including cash, property, services performed, promissory notes, contracts for services to be performed, or other binding obligation to contribute cash or property or to perform services.

(2) A contribution of an obligation to contribute cash or property or to perform services may be in exchange for a present membership interest or for a future membership interest, including a future profits interest, as provided in an operating agreement.

450.4303 Distribution of assets; allocation; manner; basis.

Sec. 303. (1) Distributions of cash or other assets of a limited liability company shall be allocated among the members and among classes of members in the manner provided in an operating agreement. If an operating agreement does not provide for an allocation, distributions shall be allocated as follows:

(b) On and after July 1, 1997, except as otherwise provided in subsection (2), in equal shares to all members. A membership interest held by 2 or more persons, whether as fiduciaries, members of a partnership, tenants in common, joint tenants, tenants by the entirety, or otherwise, is considered as held by 1 member for an allocation under this subdivision.

(2) If a limited liability company in existence before July 1, 1997 allocated distributions on the basis of subsection (1)(a), the limited liability company shall continue to allocate distributions pursuant to subsection (1)(a) until the allocation is changed by an operating agreement.

450.4304 Distributions; conditions for receiving.

Sec. 304. Except as otherwise provided in this act, a member is entitled to receive distributions from a limited liability company before the withdrawal of the member from the limited liability company and before the dissolution and winding up of the limited liability company to the extent and at the times or upon the happening of the events specified in an operating agreement.

450.4307 Distributions prohibited under certain situations; exceptions; effect of distribution under subsection (1); remedies available; future payments to withdrawing members; effect of subsection (1) on third party; asserting legal or equitable rights.

Sec. 307. (1) Except as otherwise provided in subsection (5), a distribution shall not be made if, after giving the distribution effect, 1 or more of the following situations would occur:

(a) The limited liability company would not be able to pay its debts as they become due in the usual course of business.

(b) The limited liability company's total assets would be less than the sum of its total liabilities plus, unless an operating agreement provides otherwise, the amount that would be needed, if the limited liability company were to be dissolved at the time of the distribution, to satisfy the preferential rights of other members upon dissolution that are superior to the rights of the member or members receiving the distribution.

(2) The limited liability company may base a determination that a distribution is not prohibited under subsection (1) on financial statements prepared on the basis of accounting practices and principles that are reasonable under the circumstances, on a fair valuation, or on another method that is reasonable under the circumstances.

(3) The effect of a distribution under subsection (1) is measured at the following times:

(a) Except as provided in subsection (5), in the case of a distribution to a withdrawing member, as of the earlier of the date money or other property is transferred or debt incurred by the limited liability company, or the date the member ceases to be a member.

(b) In the case of any other distribution of indebtedness, as of the date the indebtedness is authorized if distribution occurs within 120 days after the date of authorization, or the date the indebtedness is distributed if it occurs more than 120 days after the date of authorization.

(c) In all other cases, as of the date the distribution is authorized if the payment occurs within 120 days after the date of authorization, or the date the payment is made if it occurs more than 120 days after the date of authorization.

(4) At the time a member becomes entitled to receive a distribution, the member has the status of, and is entitled to all remedies available to, a creditor of the limited liability company with respect to the distribution. A company's indebtedness to a member incurred by reason of a distribution made in accordance with this section is at parity with the company's indebtedness to its general, unsecured creditors except as otherwise agreed.

(5) If the limited liability company distributes an obligation to make future payments to a withdrawing member, and distribution of the obligation would otherwise be prohibited under subsection (1) at the time it is made, the company may issue the obligation and the following apply:

(a) The portion of the obligation that could have been distributed without violating subsection (1) is indebtedness to the withdrawing member under subsection (4).

(b) All of the following apply to the portion of the obligation that exceeds the amount of the obligation that is indebtedness to the withdrawing member under subdivision (a):

(*i*) At any time prior to the due date of the obligation, payments of principal and interest may be made as a distribution to the extent that a distribution may then be made under this section.

(*ii*) At any time on or after the due date, the obligation to pay principal and interest is considered distributed and treated as indebtedness described in subsection (4) to the extent that a distribution may then be made under this section.

(c) Unless otherwise provided in an agreement with the withdrawing member, the obligation is considered a liability or debt for purposes of determining whether distributions other than payments on the obligation may be made under this section, except for purposes of determining whether distributions may be made to members having preferential rights superior to the rights of the withdrawing member.

(6) The enforceability of a guaranty or other undertaking by a third party relating to a distribution is not affected by the prohibition of the distribution under subsection (1).

(7) If a claim is made to recover a distribution made contrary to subsection (1) or if a violation of subsection (1) is raised as a defense to a claim based upon a distribution, this section does not prevent the person receiving the distribution from asserting a right of rescission or other legal or equitable rights.

450.4403 Managers; selection; vote; removal; notice.

Sec. 403. (1) A vote of a majority in interest of the members entitled to vote in accordance with section 502(1) is required to select managers to fill initial positions or vacancies.

(2) The members may remove 1 or more managers with or without cause unless an operating agreement provides that managers may be removed only for cause.

(3) The members may remove a manager for cause only at a meeting called expressly for that purpose, and that manager shall have reasonable advance notice of the allegations against him or her and an opportunity to be heard at the meeting.

450.4405 Managers; voting requirements.

Sec. 405. (1) Except as otherwise provided in the articles of organization or an operating agreement, voting by managers shall be as provided in this section.

(2) If management of a limited liability company is delegated to managers under section 402 and the limited liability company has more than 1 manager, each manager has 1 vote and the vote of a majority of all managers is required to decide or resolve any difference on any matter connected with carrying on the business of the limited liability company that is within the scope of the managers' authority.

(3) If management of a limited liability company remains in the members, section 502 applies to voting by the members.

450.4406 Manager as agent.

Sec. 406. A manager is an agent of the limited liability company for the purpose of its business, and the act of a manager, including the execution in the limited liability company name of any instrument, that apparently carries on in the usual way the business of the limited liability company of which he or she is a manager binds the limited liability company, unless both of the following apply:

(a) The manager does not have the authority to act for the limited liability company in that particular matter.

(b) The person with whom the manager is dealing has actual knowledge that the manager lacks authority to act or the articles of organization or this act establishes that the manager lacks authority to act.

450.4501 Members; admission; liability for acts, debts, or obligations.

Sec. 501. (1) A person may be admitted as a member of a limited liability company in 1 or more of the following ways:

(a) In connection with the formation of the limited liability company, by signing the initial operating agreement.

(b) After the formation of the limited liability company, in 1 or more of the following ways:

(*i*) In the case of a person acquiring a membership interest directly from the limited liability company, by complying with the provisions of an operating agreement prescribing the requirements for admission or, in the absence of provisions prescribing the require-

ments for admission in an operating agreement, upon the unanimous vote of the members entitled to vote.

(*ii*) In the case of an assignee of a membership interest, as provided in section 506.

(2) A limited liability company may admit a person as a member who does not make a contribution or incur an obligation to make a contribution to the limited liability company.

(3) Unless otherwise provided by law or in an operating agreement, a person who is a member or manager, or both, of a limited liability company is not liable for the acts, debts, or obligations of the limited liability company.

450.4502 Members; voting rights.

Sec. 502. (1) An operating agreement may establish and allocate the voting rights of members and may provide that certain members or groups of members have only limited or no voting rights. If an operating agreement does not address voting rights, votes are allocated as follows:

(a) Prior to July 1, 1997, the members of a limited liability company shall vote in proportion to their shares of distributions of the company, as determined in accordance with section 303.

(b) On and after July 1, 1997, except as otherwise provided in subsection (2), each member of a limited liability company has 1 vote. For purposes of this subdivision, a membership interest held by 2 or more persons, whether as fiduciaries, members of a partnership, tenants in common, joint tenants, tenants by the entirety, or otherwise, is treated as held by 1 member.

(2) If a limited liability company in existence before July 1, 1997 allocated votes on the basis of subsection (1)(a), the company shall continue to allocate votes pursuant to subsection (1)(a) until the allocation is changed by an operating agreement.

(3) If a membership interest that has voting rights is held by 2 or more persons, whether as fiduciaries, members of a partnership, tenants in common, joint tenants, tenants by the entirety, or otherwise, the voting of the interest shall be in accordance with the instrument or order appointing them or creating the relationship if a copy of that instrument or order is furnished to the limited liability company. If an instrument or order is not furnished to the limited liability company, 1 of the following applies to the voting of that membership interest:

(a) If an operating agreement applies to the voting of the membership interest, the vote shall be in accordance with that operating agreement.

(b) If an operating agreement does not apply to the voting of the membership interest and only 1 of the persons who hold the membership interest votes, that person's vote determines the voting of the membership interest.

(c) If an operating agreement does not apply to the voting of the membership interest and 2 or more of the persons who hold the membership interest vote, the vote of a majority determines the voting of the membership interest, and if there is no majority, the voting of the membership interest is divided among those voting.

(4) Only members of a limited liability company, and not its managers, may authorize the following actions:

(a) The dissolution of the limited liability company pursuant to section 801(c).

(b) Merger of the limited liability company pursuant to sections 701 through 706.

(c) An amendment to the articles of organization.

(5) Unless authorized in advance by an operating agreement, a transaction with the limited liability company or a transaction connected with the conduct or winding up of the limited liability company in which a manager of the limited liability company has a direct or indirect interest or a manager's personal use of property of the limited liability company may be authorized or ratified only by a vote of the disinterested members entitled to vote. The manager shall disclose all material facts regarding the transaction and the manager's interest in the transaction or all material facts about the manager's personal use of the limited liability company's property before the members vote on that transaction or use.

(6) Unless otherwise provided in an operating agreement, the sale, exchange, lease, or other transfer of all or substantially all of the assets of a limited liability company, other than in the ordinary course of business, may be authorized only by a vote of the members entitled to vote.

(7) The articles of organization or an operating agreement may provide for additional voting rights of members of the limited liability company.

(8) Unless the vote of a greater percentage of the voting interest of members is required by this act, the articles of organization, or an operating agreement, a vote of a majority in interest of the members entitled to vote is required to approve any matter submitted for a vote by the members.

450.4503 Members; obtaining certain financial statements and tax returns; inspecting and copying records; obtaining other information; formal accounting of company's affairs.

Sec. 503. (1) Upon written request of a member, a limited liability company shall send a copy of its most recent annual financial statement and its most recent federal, state, and local income tax returns and reports to the member by mail or electronic transmission. Upon reasonable request, a member may obtain true and full information regarding the current state of the limited liability company's financial condition.

(2) Upon reasonable written request and during ordinary business hours, a member or his or her designated representative may inspect and copy, at the member's expense, any of the records required to be maintained under section 213, at the location where the records are kept.

(3) Upon reasonable written request, a member may obtain other information regarding the limited liability company's affairs or may inspect, personally or through a representative and during ordinary business hours, other books and records of the limited liability company, as is just and reasonable.

(4) A member may have a formal accounting of the limited liability company's affairs as provided in an operating agreement or whenever circumstances render it just and reasonable.

450.4504 Membership interest as personal property.

Sec. 504. (1) A membership interest is personal property and may be held in any manner in which personal property may be held. A husband and wife may hold a membership interest in joint tenancy in the same manner and subject to the same restrictions, consequences, and conditions that apply to the ownership of real estate held jointly by a husband and wife under the laws of this state, with full right of ownership by survivorship in case of the death of either.

(2) A member has no interest in specific limited liability company property.

450.4506 Assignee of membership interest; conditions for membership; rights and powers; liability for obligations of assignor.

Sec. 506. (1) Unless otherwise provided in an operating agreement, an assignee of a membership interest in a limited liability company having more than 1 member may become a member only upon a unanimous vote of the members entitled to vote. An assignee of a membership interest in a limited liability company having 1 member may become a member in accordance with the terms of the agreement between the member and the assignee.

(2) An assignee who becomes a member has, to the extent assigned, the rights and powers, and is subject to the restrictions and liabilities, of a member under the articles of organization, an operating agreement, and this act. An assignee who becomes a member also is liable for any obligations of his or her assignor to make contributions and to return distributions under sections 302 and 308(3). An assignee is not obligated for liabilities unknown to the assignee when he or she became a member unless the liabilities are shown on the financial records of the limited liability company.

450.4515 Action in circuit court; grounds; order or grant of relief; "willfully unfair and oppressive conduct" defined.

Sec. 515. (1) A member of a limited liability company may bring an action in the circuit court of the county in which the limited liability company's principal place of business or registered office is located to establish that acts of the managers or members in control of the limited liability company are illegal or fraudulent or constitute willfully unfair and oppressive conduct toward the limited liability company or the member. If the member establishes grounds for relief, the circuit court may issue an order or grant relief as it considers appropriate, including, but not limited to, an order providing for any of the following:

(a) The dissolution and liquidation of the assets and business of the limited liability company.

(b) The cancellation or alteration of a provision in the articles of organization or in an operating agreement.

(c) The direction, alteration, or prohibition of an act of the limited liability company, or of members, managers, or other persons party to the action.

(d) The purchase at fair value of the member's interest in the limited liability company, either by the company or by the managers or other members responsible for the wrongful acts.

(e) An award of damages to the limited liability company or to the member. An action seeking an award of damages must be commenced within 3 years after the cause of action under this section has accrued or within 2 years after the member discovers or reasonably should have discovered the cause of action under this section, whichever occurs first.

(2) As used in this section, "willfully unfair and oppressive conduct" means a continuing course of conduct or a significant action or series of actions that substantially interferes with the interests of the member as a member. The term does not include conduct or actions that are permitted by the articles of organization, an operating agreement, another agreement to which the member is a party, or a consistently applied written company policy or procedure.

450.4603 Articles of organization; certificate of amendment; filing; contents.

Sec. 603. The articles of organization are amended by filing a certificate of amendment signed as provided in section 103 that contains all of the following:

(a) The name of the limited liability company.

(b) The date of filing of its original articles of organization.

(c) The entire article or articles being amended, or the section or sections being amended if the article being amended is divided into identified sections.

(d) A statement that the amendment or amendments were approved by the unanimous vote of all of the members entitled to vote or by a majority in interest if an operating agreement authorizes amendment of the articles of organization by majority vote.

450.4705a Definitions; merger of domestic limited liability companies with business organizations.

Sec. 705a. (1) As used in this section:

(a) "Business organization" means a domestic or foreign corporation, limited partnership, general partnership, or any other type of domestic or foreign business enterprise, incorporated or unincorporated, except a domestic limited liability company.

(b) "Entity" means a business organization or a domestic limited liability company.

(c) "Obligated person" means a general partner of a limited partnership, a partner of a general partnership, or a participant in or an owner of an interest in any other type of business enterprise who, under applicable law, is generally liable for the obligations of the business enterprise.

(2) If all of the business organizations in a merger with 1 or more domestic limited liability companies are foreign limited liability companies, the merger shall comply with section 705 and not this section.

(3) Except as otherwise provided in subsection (2), 1 or more domestic limited liability companies may merge with 1 or more business organizations if all of the following requirements are satisfied:

(a) The merger is permitted under the law of the jurisdiction in which each constituent business organization is organized and each constituent business organization complies with that law in effecting the merger.

(b) Each foreign constituent business organization transacting business in this state complies with the applicable laws of this state.

(c) Each domestic limited liability company complies with this section.

(4) If 1 or more domestic limited liability companies propose to merge with 1 or more business organizations, each domestic limited liability company shall prepare a plan of merger that contains all of the following:

(a) The name of each constituent entity, the name of the surviving entity, the street address of the surviving entity's principal place of business, and the type of organization of the surviving entity.

(b) The terms and conditions of the proposed merger, including the manner and basis of converting the shares, partnership interests, membership interests, or other ownership interests of each constituent entity into ownership interests or obligations of the surviving entity, or into cash or other consideration, which may include ownership interests or obligations of an entity not a party to the merger, or into a combination thereof.

(c) If the surviving entity is to be a domestic limited liability company, a statement of the amendments to the articles of organization of the surviving company if the articles are changed by the merger, a restatement of the articles of organization, or a statement that the articles of organization of the surviving domestic limited liability company are unchanged.

(d) Any other provision that the domestic limited liability company considers necessary or desirable.

(5) A constituent domestic limited liability company shall submit a plan of merger to the members for approval. A unanimous vote by the members entitled to vote in the constituent domestic limited liability company is required to approve a plan of merger unless an operating agreement of the constituent domestic limited liability company provides otherwise.

(6) If an operating agreement of a constituent domestic limited liability company provides for approval by less than unanimous vote of members entitled to vote and the merger is approved, a member who voted against the merger may withdraw from the domestic limited liability company and receive, within a reasonable time, the fair value of the member's interest in the domestic limited liability company, based upon the member's share of distributions as determined under section 303.

(7) If a plan of merger is approved, a certificate of merger shall be executed as provided in section 103 and filed on behalf of each constituent domestic limited liability company. The certificate of merger shall contain all of the following:

(a) The information required under subsection (4)(a) and the statement required under subsection (4)(c).

(b) A statement that the plan of merger was approved by the members of each constituent domestic limited liability company in accordance with subsection (5).

(c) A statement of any assumed names of merging entities transferred to the surviving entity in accordance with section 206(6), specifying each transferred assumed name and the name of the entity from which it is transferred. If the surviving entity is a domestic limited liability company or a foreign limited liability company authorized to transact business in this state, the certificate may include a statement of 1 or more names or assumed names of merging entities that are to be treated as new certificates of assumed names of the surviving company under section 206(7).

(d) The effective date of the merger if later than the date the certificate of merger is filed.

(8) A certificate of merger is effective in accordance with section 104.

(9) When a merger is effective under this section, all of the following apply:

(a) Every other constituent entity merges into the surviving entity and the separate existence of every entity except the surviving entity ceases.

(b) The title to all property, real, personal, and mixed, and rights owned by each constituent entity are vested in the surviving entity without reversion or impairment.

(c) A surviving company may use the name and the assumed names of any merging entity if a filing required under section 206(6) or (7) or other applicable statute is made.

(d) The surviving entity has all of the liabilities of each constituent entity. This section does not affect liability, if any, of a person who was an obligated person with respect to a merging entity for acts or omissions that occurred before the merger.

(e) A proceeding pending against any constituent entity may be continued as if the merger did not occur or the surviving entity may be substituted in the proceeding for the entity whose existence ceased.

(f) The articles of organization of a surviving domestic limited liability company are amended to the extent provided in the plan of merger.

(g) The ownership interests of each constituent entity that are to be converted into ownership interests or obligations of the surviving entity or into cash or other property are converted.

(10) If the surviving entity is a foreign business organization, it is subject to the laws of this state pertaining to the transaction of business in this state by a foreign business organization if it transacts business in this state. The surviving entity is liable for, and is subject to service of process in a proceeding in this state for the enforcement of, any obligation of a constituent domestic limited liability company, including an obligation to a member of the constituent domestic limited liability company who has dissented from the merger and withdrawn in accordance with subsection (6).

450.4801 Dissolution and winding up; conditions.

(c) Upon the unanimous vote of all members entitled to vote.

(d) Automatically upon the entry of a decree of judicial dissolution.

450.4804 Certificate of dissolution; filing; contents.

Sec. 804. Upon the dissolution and commencement of winding up of the limited liability company under section 801(b) or (c), a certificate of dissolution shall be signed as provided in section 103 and filed with the administrator. The certificate shall set forth all of the following:

(a) The name of the limited liability company.

(b) The reason for the dissolution.

(c) The effective date of the dissolution if later than the date of filing of the certificate of dissolution.

450.4909 Annual report; filing fee; penalty for late filing.

Sec. 909. (1) In addition to the annual statement required in section 207(3), a professional limited liability company shall file with the administrator an annual report, together with a $50.00 filing fee, listing the names and addresses of all members and managers and certifying that each member and manager is a licensed person in 1 or more of the professional services rendered by the company. The report shall also certify that any member or manager not licensed or otherwise legally authorized to render professional services in this state does not render professional services in this state.

(2) The professional limited liability company shall file the annual report not later than February 15 of each year, and a penalty of $50.00 shall be added to the fee if the annual report is not filed or the fee is not paid by February 15, except that if a professional limited liability company is formed after September 30, it need not file an annual report on the February 15 immediately succeeding its formation.

(3) If a professional limited liability company fails to file an annual report required by this section for 2 consecutive years, the administrator shall notify the company of the consequences of the failure to file under subsection (4).

(4) If a professional limited liability company does not file all annual reports it has failed to file, the applicable fees, and the penalty described in subsection (2) within 60 days after the administrator's notice under subsection (3) is sent, the professional limited liability company is not in good standing. A professional limited liability company that is not in good standing is not entitled to issuance by the administrator of a certificate of good

standing described in section 207a, the name of the company is available for use by another entity filing with the administrator, and the administrator shall not accept for filing any document submitted by the professional limited liability company other than a certificate of restoration of good standing provided for in subsection (5). A professional limited liability company that is not in good standing remains in existence and may continue to transact business in this state.

(5) A professional limited liability company that is not in good standing under subsection (4) may file a certificate of restoration of good standing, accompanied by the annual reports and fees for all of the years for which they were not filed and paid, the penalty described in subsection (2), and the fee for filing the certificate of restoration of good standing. (2) If a foreign limited liability company authorized to transact business in this state is the survivor of a merger permitted by the laws of the jurisdiction of its organization, the foreign limited liability company shall file, not later than 30 days after the merger becomes effective, a certificate issued by the proper officer of the jurisdiction of its organization attesting to the occurrence of the merger. If the merger has changed the name of the foreign limited liability company or has otherwise affected the information set forth in the application, the foreign company shall also comply with subsection (1).

(3) A foreign limited liability company authorized to transact business in this state shall file an annual statement as required by section 207(3), and section 207a applies to the good standing of the company and to failures to file.

450.5101 Filing fees; use; charges for certifying or copying files or records; dishonored checks; payment by credit card.

AN ACT to assert the state's interest in protecting all individuals; and to prescribe responsibilities and procedures in regard to a newborn whose live birth results from an abortion.

The People of the State of Michigan enact:

333.1071 Short title; definitions.

Sec. 1. (1) This act shall be known and may be cited as the "born alive infant protection act".

(2) As used in this act:

(a) "Abortion" means that term as defined in section 17015 of the public health code, 1978 PA 368, MCL 333.17015.

(b) "Live birth" means the complete expulsion or extraction of a product of conception from its mother, regardless of the duration of the pregnancy, that after expulsion or extraction, whether or not the umbilical cord has been cut or the placenta is attached, shows any evidence of life, including, but not limited to, 1 or more of the following:

(*i*) Breathing.

(*ii*) A heartbeat.

(*iii*) Umbilical cord pulsation.

(*iv*) Definite movement of voluntary muscles.

333.1072 Legislative findings.

Sec. 2. The legislature finds all of the following:

(a) The state has a paramount interest in protecting all individuals.

(b) If an abortion results in the live birth of a newborn, the newborn is a legal person for all purposes under the law.

(c) A woman's right to terminate pregnancy ends when the pregnancy is terminated. It is not an infringement on a woman's right to terminate her pregnancy for the state to assert its interest in protecting a newborn whose live birth occurs as the result of an abortion.

333.1073 Abortion resulting in live birth; surrender of newborn to emergency service provider; medical care; report; confidentiality of newborn's mother and father; transmission of information to newborn's mother.

Sec. 3. (1) If an abortion results in a live birth and, after being informed of the newborn's live birth, the newborn's mother expresses a desire not to assume custody and responsibility for the newborn, by refusing to authorize all necessary life sustaining medical treatment for the newborn or releasing the newborn for adoption, the newborn shall be considered a newborn who has been surrendered to an emergency service provider under the safe delivery of newborns law, chapter XII of the probate code of 1939, 1939 PA 288, MCL 712.1 to 712.20. The procedures of the safe delivery of newborns law, chapter XII of the probate code of 1939, 1939 PA 288, MCL 712.1 to 712.20, shall be followed in regard to the custody and care of the newborn.

(2) If an abortion performed in a hospital setting results in a live birth, the physician attending the abortion shall provide immediate medical care to the newborn, inform the

mother of the live birth, and request transfer of the newborn to a resident, on-duty, or emergency room physician who shall provide medical care to the newborn. If an abortion performed in other than a hospital setting results in a live birth, a physician attending the abortion shall provide immediate medical care to the newborn and call 9-1-1 for an emergency transfer of the newborn to a hospital that shall provide medical care to the newborn.

(3) A live birth described in this act shall be reported as required in section 2822 of the public health code, 1978 PA 368, MCL 333.2822.

(4) If a newborn is considered a newborn who has been surrendered to an emergency service provider under the safe delivery of newborns law, chapter XII of the probate code of 1939, 1939 PA 288, MCL 712.1 to 712.20, as provided in subsection (1), the identity of the newborn's mother and father becomes confidential and shall not be revealed, either orally or in writing.

(5) The attending physician who transfers care of a live newborn under this section to another physician or a 9-1-1 emergency responder shall transmit to the mother of the newborn any information provided to the attending physician by the emergency service provider who received custody of the newborn under the safe delivery of newborns law, chapter XII of the probate code of 1939, 1939 PA 288, MCL 712.1 to 712.20, as provided in section 3 of the safe delivery of newborns law, chapter XII of the probate code of 1939, 1939 PA 288, MCL 712.3.

AN ACT to amend 1975 PA 238, entitled "An act to require the reporting of child abuse and neglect by certain persons; to permit the reporting of child abuse and neglect by all persons; to provide for the protection of children who are abused or neglected; to authorize limited detainment in protective custody; to authorize medical examinations; to prescribe the powers and duties of the state department of social services to prevent child abuse and neglect; to prescribe certain powers and duties of local law enforcement agencies; to safeguard and enhance the welfare of children and preserve family life; to provide for the appointment of legal counsel; to provide for the abrogation of privileged communications; to provide civil and criminal immunity for certain persons; to provide rules of evidence in certain cases; to provide for confidentiality of records; to provide for the expungement of certain records; to prescribe penalties; and to repeal certain acts and parts of acts," by amending section 8 (MCL 722.628), as amended by 2000 PA 234.

The People of the State of Michigan enact:

722.628 Referring report or commencing investigation; informing parent or legal guardian of investigation; duties of department; assistance of and cooperation with law enforcement officials; procedures; proceedings by prosecuting attorney; cooperation of school or other institution; information as to disposition of report; exception to reporting requirement.

Sec. 8. (1) Within 24 hours after receiving a report made under this act, the department shall refer the report to the prosecuting attorney if the report meets the requirements of section 3(6) or shall commence an investigation of the child suspected of being abused or neglected. Within 24 hours after receiving a report whether from the reporting person or from the department under section 3(6), the local law enforcement agency shall refer the report to the department if the report meets the requirements of section 3(7) or shall commence an investigation of the child suspected of being abused or neglected. If the child suspected of being abused is not in the physical custody of the

parent or legal guardian and informing the parent or legal guardian would not endanger the child's health or welfare, the agency or the department shall inform the child's parent or legal guardian of the investigation as soon as the agency or the department discovers the identity of the child's parent or legal guardian.

(2) In the course of its investigation, the department shall determine if the child is abused or neglected. The department shall cooperate with law enforcement officials, courts of competent jurisdiction, and appropriate state agencies providing human services in relation to preventing, identifying, and treating child abuse and neglect; shall provide, enlist, and coordinate the necessary services, directly or through the purchase of services from other agencies and professions; and shall take necessary action to prevent further abuses, to safeguard and enhance the child's welfare, and to preserve family life where possible.

(3) In conducting its investigation, the department shall seek the assistance of and cooperate with law enforcement officials within 24 hours after becoming aware that 1 or more of the following conditions exist:

(a) Abuse or neglect is the suspected cause of a child's death.

(b) The child is the victim of suspected sexual abuse or sexual exploitation.

(c) Abuse or neglect resulting in severe physical injury to the child requires medical treatment or hospitalization. For purposes of this subdivision and section 17, "severe physical injury" means brain damage, skull or bone fracture, subdural hemorrhage or hematoma, dislocation, sprains, internal injuries, poisoning, burns, scalds, severe cuts, or any other physical injury that seriously impairs the health or physical well-being of a child.

(d) Law enforcement intervention is necessary for the protection of the child, a department employee, or another person involved in the investigation.

(e) The alleged perpetrator of the child's injury is not a person responsible for the child's health or welfare.

(4) Law enforcement officials shall cooperate with the department in conducting investigations under subsections (1) and (3) and shall comply with sections 5 and 7. The department and law enforcement officials shall conduct investigations in compliance with the protocols adopted and implemented as required by subsection (6).

(5) Involvement of law enforcement officials under this section does not relieve or prevent the department from proceeding with its investigation or treatment if there is reasonable cause to suspect that the child abuse or neglect was committed by a person responsible for the child's health or welfare.

(6) In each county, the prosecuting attorney and the department shall develop and establish procedures for involving law enforcement officials as provided in this section. In each county, the prosecuting attorney and the department shall adopt and implement standard child abuse and neglect investigation and interview protocols using as a model the protocols developed by the governor's task force on children's justice as published in FIA Publication 794 (revised 8-98) and FIA Publication 779 (8-98), or an updated version of those publications.

(7) If there is reasonable cause to suspect that a child in the care of or under the control of a public or private agency, institution, or facility is an abused or neglected child, the agency, institution, or facility shall be investigated by an agency administratively independent of the agency, institution, or facility being investigated. If the investigation produces evidence of a violation of section 145c or sections 520b to 520g of the Michigan penal code, 1931 PA 328, MCL 750.145c and 750.520b to 750.520g, the investigating agency shall transmit a copy of the results of the investigation to the prosecuting attorney of the county in which the agency, institution, or facility is located.

(8) A school or other institution shall cooperate with the department during an investigation of a report of child abuse or neglect. Cooperation includes allowing access to the child without parental consent if access is determined by the department to be necessary to complete the investigation or to prevent abuse or neglect of the child. However, the department shall notify the person responsible for the child's health or welfare about the department's contact with the child at the time or as soon afterward as the person can be reached. The department may delay the notice if the notice would compromise the safety of the child or child's siblings or the integrity of the investigation, but only for the time 1 of those conditions exists.

(9) If the department has contact with a child in a school, all of the following apply:

(a) Before contact with the child, the department investigator shall review with the designated school staff person the department's responsibilities under this act and the investigation procedure.

(b) After contact with the child, the department investigator shall meet with the designated school staff person and the child about the response the department will take as a result of contact with the child. The department may also meet with the designated school staff person without the child present and share additional information the investigator determines may be shared subject to the confidentiality provisions of this act.

(c) Lack of cooperation by the school does not relieve or prevent the department from proceeding with its responsibilities under this act.

(10) A child shall not be subjected to a search at a school that requires the child to remove his or her clothing to expose his buttocks or genitalia or her breasts, buttocks, or genitalia unless the department has obtained an order from a court of competent jurisdiction permitting such a search. If the access occurs within a hospital, the investigation shall be conducted so as not to interfere with the medical treatment of the child or other patients.

(11) The department shall enter each report made under this act that is the subject of a field investigation into the CPSI system. The department shall maintain a report entered on the CPSI system as required by this subsection until the child about whom the investigation is made is 18 years old or until 10 years after the investigation is commenced, whichever is later, or, if the case is classified as a central registry case, until the department receives reliable information that the perpetrator of the abuse or neglect is dead. Unless made public as specified information released under section 7d, a report that is maintained on the CPSI system is confidential and is not subject to the disclosure requirements of the freedom of information act, 1976 PA 442, MCL 15.231 to 15.246.

(12) After completing a field investigation and based on its results, the department shall determine in which single category, prescribed by section 8d, to classify the allegation of child abuse or neglect.

(13) Except as provided in subsection (14), upon completion of the investigation by the local law enforcement agency or the department, the law enforcement agency or department may inform the person who made the report as to the disposition of the report.

(14) If the person who made the report is mandated to report under section 3, upon completion of the investigation by the department, the department shall inform the person in writing as to the disposition of the case and shall include in the information at least all of the following:

(a) What determination the department made under subsection (12) and the rationale for that decision.

(b) Whether legal action was commenced and, if so, the nature of that action.

(c) Notification that the information being conveyed is confidential.

(15) Information sent under subsection (14) shall not include personally identifying information for a person named in a report or record made under this act.

(16) Unless section 5 of chapter XII of the probate code of 1939, 1939 PA 288, MCL 712.5, requires a physician to report to the department, the surrender of a newborn in compliance with chapter XII of the probate code of 1939, 1939 PA 288, MCL 712.1 to 712.20, is not reasonable cause to suspect child abuse or neglect and, therefore, is not subject to the section 3 reporting requirement. This subsection does not apply to circumstances that arise on or after the date that chapter XII of the probate code of 1939, 1939 PA 288, MCL 712.1 to 712.20, is repealed. This subsection applies to a newborn whose birth is described in the born alive infant protection act and who is considered to be a newborn surrendered under the safe delivery of newborns law as provided in section 3 of chapter XII of the probate code of 1939, 1939 PA 288, MCL 712.3.

Conditional effective date.

Enacting section 1. This amendatory act shall not take effect unless House Bill No. 5994 of the 91st Legislature is enacted into law.

Approved December 29, 2002.
Filed with Secretary of State December 30, 2002.

Compiler's note: House Bill No. 5994, referred to in enacting section 1, was filed with the Secretary of State December 30, 2002, and became P.A. 2002, No. 687, Eff. Mar. 31, 2003.

Within 72 hours after making the oral report, the reporting person shall file a written report as required in this act. A notification to the person in charge of a hospital, agency, or school does not relieve the member of the staff of the hospital, agency, or school of the obligation of reporting to the department as required by this section. One report from a hospital, agency, or school shall be considered adequate to meet the reporting requirement. A member of the staff of a hospital, agency, or school shall not be dismissed or otherwise penalized for making a report required by this act or for cooperating in an investigation.

(3) The department shall inform the reporting person of the required contents of the written report at the time the oral report is made by the reporting person.

(4) The written report required in this section shall be mailed or otherwise transmitted to the county family independence agency of the county in which the child suspected of being abused or neglected is found.

(5) Upon receipt of a written report of suspected child abuse or neglect, the department may provide copies to the prosecuting attorney and the probate court of the counties in which the child suspected of being abused or neglected resides and is found.

(6) If an allegation, written report, or subsequent investigation of suspected child abuse or child neglect indicates a violation of sections 136b and 145c or sections 520b to 520g of the Michigan penal code, 1931 PA 328, MCL 750.136b, 750.145c, and 750.520b to 750.520g, has occurred, or if the allegation, written report, or subsequent investigation indicates that the suspected child abuse or child neglect was committed by an individual who is not a person responsible for the child's health or welfare, including, but not limited to, a member of the clergy, a teacher, or a teacher's aide, the department shall transmit a copy of the allegation or written report and the results of any investigation to a law enforcement agency in the county in which the incident occurred. If an allegation, written report, or subsequent investigation indicates that the individual who committed the suspected abuse or neglect is a child care provider and the department believes that the report has basis in fact, the department shall transmit a copy of the written report or the results of the investigation to the child care regulatory agency with authority over the child care provider's child care organization or adult foster care location authorized to care for a child.

(7) If a local law enforcement agency receives an allegation or written report of suspected child abuse or child neglect and the allegation, written report, or subsequent investigation indicates that the child abuse or child neglect was committed by a person responsible for the child's health or welfare, the local law enforcement agency shall refer the allegation or provide a copy of the written report and the results of any investigation to the county family independence agency of the county in which the abused or neglected child is found, as required by subsection (1)(a). If an allegation, written report, or subsequent investigation indicates that the individual who committed the suspected abuse or neglect is a child care provider and the local law enforcement agency believes that the report has basis in fact, the local law enforcement agency shall transmit a copy of the

written report or the results of the investigation to the child care regulatory agency with authority over the child care provider's child care organization or adult foster care location authorized to care for a child. Nothing in this subsection or subsection (1) shall be construed to relieve the department of its responsibilities to investigate reports of suspected child abuse or child neglect under this act.

(8) For purposes of this act, the pregnancy of a child less than 12 years of age or the presence of a venereal disease in a child who is over 1 month of age but less than 12 years of age is reasonable cause to suspect child abuse and neglect have occurred.

722.631 Privileged communications.

Sec. 11. Any legally recognized privileged communication except that between attorney and client or that made to a member of the clergy in his or her professional character in a confession or similarly confidential communication is abrogated and shall not constitute grounds for excusing a report otherwise required to be made or for excluding evidence in a civil child protective proceeding resulting from a report made pursuant to this act. This section does not relieve a member of the clergy from reporting suspected child abuse or child neglect under section 3 if that member of the clergy receives information concerning suspected child abuse or child neglect while acting in any other capacity listed under section 3.

(8) If a juvenile is adjudicated and found not to be within the provisions of section 2(a)(1) of chapter XIIA of the probate code of 1939, 1939 PA 288, MCL 712A.2, or if an accused is found not guilty of an offense for which he or she was fingerprinted under this section, upon final disposition of the charge against the accused or juvenile, the fingerprints and arrest card shall be destroyed by the official holding those items and the clerk of the court entering the disposition shall notify the department of any finding of not guilty or not guilty by reason of insanity, dismissal, or nolle prosequi, if it appears that the accused was initially fingerprinted under this section, or of any finding that a juvenile alleged responsible for a juvenile offense is not within the provisions of section 2(a)(1) of chapter XIIA of the probate code of 1939, 1939 PA 288, MCL 712A.2.

The People of the State of Michigan enact:

500.3135 Tort liability for noneconomic loss; action for damages pursuant to subsection (1); abolition of tort liability; exceptions; action for damages pursuant to subsection (3)(d); commencement of action; removal; costs; decision as res judicata; "serious impairment of body function" defined.

Sec. 3135. (1) A person remains subject to tort liability for noneconomic loss caused by his or her ownership, maintenance, or use of a motor vehicle only if the injured person has suffered death, serious impairment of body function, or permanent serious disfigurement.

(2) For a cause of action for damages pursuant to subsection (1) filed on or after July 26, 1996, all of the following apply:

(a) The issues of whether an injured person has suffered serious impairment of body function or permanent serious disfigurement are questions of law for the court if the court finds either of the following:

(*i*) There is no factual dispute concerning the nature and extent of the person's injuries.

(*ii*) There is a factual dispute concerning the nature and extent of the person's injuries, but the dispute is not material to the determination as to whether the person has suffered a serious impairment of body function or permanent serious disfigurement. However, for a closed-head injury, a question of fact for the jury is created if a licensed allopathic or osteopathic physician who regularly diagnoses or treats closed-head injuries testifies under oath that there may be a serious neurological injury.

(b) Damages shall be assessed on the basis of comparative fault, except that damages shall not be assessed in favor of a party who is more than 50% at fault.

(c) Damages shall not be assessed in favor of a party who was operating his or her own vehicle at the time the injury occurred and did not have in effect for that motor vehicle the security required by section 3101 at the time the injury occurred.

(3) Notwithstanding any other provision of law, tort liability arising from the ownership, maintenance, or use within this state of a motor vehicle with respect to which the security required by section 3101 was in effect is abolished except as to:

(a) Intentionally caused harm to persons or property. Even though a person knows that harm to persons or property is substantially certain to be caused by his or her act or omission, the person does not cause or suffer that harm intentionally if he or she acts or refrains from acting for the purpose of averting injury to any person, including himself or herself, or for the purpose of averting damage to tangible property.

(b) Damages for noneconomic loss as provided and limited in subsections (1) and (2).

(c) Damages for allowable expenses, work loss, and survivor's loss as defined in sections 3107 to 3110 in excess of the daily, monthly, and 3-year limitations contained in those sections. The party liable for damages is entitled to an exemption reducing his or her liability by the amount of taxes that would have been payable on account of income the injured person would have received if he or she had not been injured.

(d) Damages for economic loss by a nonresident in excess of the personal protection insurance benefits provided under section 3163(4). Damages under this subdivision are not recoverable to the extent that benefits covering the same loss are available from other sources, regardless of the nature or number of benefit sources available and regardless of the nature or form of the benefits.

(e) Damages up to $500.00 to motor vehicles, to the extent that the damages are not covered by insurance. An action for damages pursuant to this subdivision shall be conducted in compliance with subsection (4).

(4) In an action for damages pursuant to subsection (3)(e):

(a) Damages shall be assessed on the basis of comparative fault, except that damages shall not be assessed in favor of a party who is more than 50% at fault.

(b) Liability shall not be a component of residual liability, as prescribed in section 3131, for which maintenance of security is required by this act.

(5) Actions under subsection (3)(e) shall be commenced, whenever legally possible, in the small claims division of the district court or the municipal court. If the defendant or plaintiff removes the action to a higher court and does not prevail, the judge may assess costs.

(6) A decision of a court made pursuant to subsection (3)(e) is not res judicata in any proceeding to determine any other liability arising from the same circumstances as gave rise to the action brought pursuant to subsection (3)(e).

(7) As used in this section, "serious impairment of body function" means an objectively manifested impairment of an important body function that affects the person's general ability to lead his or her normal life.

500.3163 Certification by admitted and nonadmitted insurers as to protection of out-of-state resident; rights and immunities of insurer and insureds; benefits to out-of-state resident; limitation.

Sec. 3163. (1) An insurer authorized to transact automobile liability insurance and personal and property protection insurance in this state shall file and maintain a written certification that any accidental bodily injury or property damage occurring in this state

arising from the ownership, operation, maintenance, or use of a motor vehicle as a motor vehicle by an out-of-state resident who is insured under its automobile liability insurance policies, is subject to the personal and property protection insurance system under this act.

(2) A nonadmitted insurer may voluntarily file the certification described in subsection (1).

(3) Except as otherwise provided in subsection (4), if a certification filed under subsection (1) or (2) applies to accidental bodily injury or property damage, the insurer and its insureds with respect to that injury or damage have the rights and immunities under this act for personal and property protection insureds, and claimants have the rights and benefits of personal and property protection insurance claimants, including the right to receive benefits from the electing insurer as if it were an insurer of personal and property protection insurance applicable to the accidental bodily injury or property damage.

(4) If an insurer of an out-of-state resident is required to provide benefits under subsections (1) to (3) to that out-of-state resident for accidental bodily injury for an accident in which the out-of-state resident was not an occupant of a motor vehicle registered in this state, the insurer is only liable for the amount of ultimate loss sustained up to $500,000.00. Benefits under this subsection are not recoverable to the extent that benefits covering the same loss are available from other sources, regardless of the nature or number of benefit sources available and regardless of the nature or form of the benefits.

Applicability of amendatory act.

Enacting section 1. This amendatory act applies to motor vehicle accidents that occur on or after January 1, 2003.

The administrator shall round the adjustment to the nearest $10.00 increment to set the fee every 2 years under this subdivision, but shall carry over and use the absolute value to calculate the next 2-year adjustment. As used in this subdivision, "consumer price index" means the United States consumer price index for all urban consumers, U.S. city average, as defined and reported by the United States department of labor, bureau of labor statistics.

(b) The down payment made by the buyer at the time of or before execution of the contract, indicating whether made in cash, or represented by the agreed value of a trade-in motor vehicle or other goods, or both. (d) The cost of any insurance premium or travel emergency benefits pertaining to the operation of the automobile that the seller agrees to extend credit to the buyer to obtain. The installment sale contract shall set forth the term of the insurance and a concise description of the terms of the insurance policy and the travel emergency benefits. If the precise cost of the insurance is not available at the time the contract is signed, an estimated amount, ascertained from the current published applicable manual of a recognized standard insurance rating bureau, may be set forth in the contract. The seller shall, within 25 days after making the installment contract, mail or cause to be mailed to the buyer at his or her address as shown on the installment contract a certificate or policy of insurance and a statement showing the exact cost of the insurance. Each installment sale contract shall contain the following warning, printed prominently in red ink and in 12-point type or larger, directly preceding the notice provided for in section 12(d), enclosed by a continuous heavy line:

Warning: The insurance afforded hereunder does not cover liability for injury to persons or damage to property of others unless so indicated hereon.

(f) The principal amount financed, which is the total of the amounts described in subdivisions (c), (d), and (e).

(g) The finance charge, which is the consideration in excess of the total of the cash price under subdivision (a), excluding the amounts described in subdivisions (d) and (e).

(h) The time balance, which is the total of the amounts described in subdivisions (f) and (g) and represents the total obligation of the buyer that he or she agrees to pay in 2 or more scheduled payments.

(i) The payment schedule, which shall state the number of payments, the amount of the payments, and the time of the payments required to liquidate the time balance.

(3) An installment sale contract shall state clearly any collateral security taken for the buyer's obligation under the contract.

(4) An installment sale contract shall contain a summary notice of the buyer's principal legal rights respecting prepayment of the contract and rebate of the finance charge and reinstatement of the contract in the event of repossession.

(5) An installment sale contract shall contain specific provisions as to the buyer's liability respecting default charges, repossession, and sale of the motor vehicle in case of default or other breach of contract, and respecting the collateral security, if any.

492.118 Finance charge on installment sale contract; maximum rate; computation.

Sec. 18. (1) A seller licensed under this act may charge the buyer a finance charge on any installment sale contract covering the retail sale of a motor vehicle in this state. The finance charge shall not exceed the rate permitted by the credit reform act, 1995 PA 162, MCL 445.1851 to 445.1864.

(2) The seller shall compute the finance charge on the principal amount financed as determined under section 13(2)(f).

(3) The seller shall compute the finance charge at the annual rates permitted by subsection (1) on installment sale contracts that are payable by installment payments, extending for a period of 1 year. On installment sale contracts providing for installment payments extending for a period that is less than or greater than 1 year, the seller shall compute the finance charge proportionately. If an installment sale contract provides for payment other than in equal successive weekly, semimonthly, or monthly installments, the finance charge may be at a rate that will provide the same annual percentage rate as is permitted on monthly payment contracts considering the schedule of payments in the contract. The seller shall disclose the annual percentage rate of the installment sales contract in accordance with disclosure requirements of the truth in lending act, title I of the consumer credit protection act, Public Law 90-321, 15 U.S.C. 1601 to 1608, 1610 to 1613, 1615, 1631 to 1635, 1637 to 1648, and 1661 to 1667e, and the regulations promulgated under the truth in lending act.

(4) The seller may compute the finance charge on the basis of a full month for a fractional month period in excess of 10 days.

(5) A seller may charge a minimum finance charge of $15.00 on an installment sale contract in which the finance charge, when computed at the rates indicated, results in a total charge of less than $15.00.

(f) Provide for notification to the insured of the results of the insurer's investigation and, if the insurer upholds its prior determination on the grievance, for advising the insured of his or her right to present the grievance to the commissioner for review.

(g) Provide that a final determination will be made in writing by the insurer not later than 45 calendar days after a grievance is submitted in writing by the insured unless the insurer requires an extension of time to obtain additional information to make a determination with respect to the subject of the grievance. The extension may not exceed 45 days from the end of the initial period unless the initial period is extended due to the insured's failure to submit information necessary to decide the claim on appeal. If the extension is due to an insured's failure to submit information, the period for making the determination shall be tolled until the date the insured responds to the request for additional information.

(h) Provide for copies of all grievances and responses to be available at the principal office of the insurer for inspection by the commissioner for 2 years following the year the grievance was filed.

(SB 717)

AN ACT to amend 1972 PA 230, entitled "An act to create a construction code commission and prescribe its functions; to authorize the director to promulgate rules with recommendations from each affected board relating to the construction, alteration, demolition, occupancy, and use of buildings and structures; to prescribe energy conservation standards for the construction of certain buildings; to provide for statewide approval of premanufactured units; to provide for the testing of new devices, materials, and techniques for the construction of buildings and structures; to define the classes of buildings and structures affected by the act; to provide for administration and enforcement of the act; to create a state construction code fund; to prohibit certain conduct; to establish penalties, remedies, and sanctions for violations of the act; to repeal acts and parts of acts; and to provide an appropriation," by amending section 19 (MCL 125.1519).

The People of the State of Michigan enact:

125.1519 Premanufactured units; certificate of acceptability; rules; building permit; fee; objections; hearing.

Sec. 19. (1) The department shall promulgate rules establishing a procedure by which a premanufactured unit intended for use in this state may be issued a certificate of acceptability by the department at its place of manufacture.

(2) The procedure shall require that the manufacturer submit to the department detailed plans and specifications for the premanufactured unit for approval as in compliance with the code. The department may require that the manufacturer submit test results on the premanufactured unit or its components, any material or information the department considers relevant, or 1 or more of the premanufactured units for testing and evaluation by the department.

(3) Each premanufactured unit shall be inspected by the department, or a qualified person approved by the department, to determine that the premanufactured unit has been manufactured in accordance with plans and specifications submitted under subsection (2). The department may issue a certificate of acceptability for a premanufactured unit that bears the approved label of an independent, nationally recognized body having follow-up inspection service satisfactory to the commission, certifying that the premanufactured unit complies with plans and specifications submitted under subsection (2).

(4) Plans and specifications for 1- and 2-family dwelling premanufactured units may be reviewed by the department or by an independent entity approved by the commission under rules promulgated by the department. The department shall establish submission procedures for plans and specifications reviewed by an independent entity approved by the commission.

(5) A local enforcing agency may also inspect a premanufactured unit at its place of manufacture to determine that it has been manufactured in accordance with plans and specifications submitted under subsection (2) and shall advise the state inspector and the commission in writing of any deviations found.

(6) An approved independent entity shall not conduct in-plant inspections of units for which it performed plan reviews. However, the manufacturer may request a variance from the commission if the literal application of the requirements of this section would result in an exceptional, practical difficulty relating to inspection of specific units. For purposes of this subsection, "exceptional, practical difficulty" includes, but is not limited

to, a geographic distance between the manufacturing facility where the units are manufactured and the primary business location of the independent entity that conducts in-plant inspections on behalf of the manufacturer of more than 250 miles and is located in another state.

(7) If an application for a building permit specifying use of a premanufactured unit with a certificate of acceptability is submitted to an enforcing agency, and if the application, except for the part calling for use of a premanufactured unit with a certificate of acceptability, complies with applicable construction regulations, zoning laws, and local ordinances, the enforcing agency shall issue the building permit within the time specified in this act.

(8) At the time of installation, a premanufactured unit with a certificate of acceptability is subject only to the nondestructive tests approved by the department necessary to determine that it has not been damaged in transit or installation, and that it has been installed in accordance with the building permit and construction regulations.

(9) The fees established for a building permit when the application specifies use of a premanufactured unit with a certificate of acceptability, or for inspection of the installation of the premanufactured unit shall bear a reasonable relation to the costs incurred by the enforcing agency in issuing a permit or performing an inspection.

(10) Notwithstanding any other provision of this section, an enforcing agency may object to use of a premanufactured unit with a certificate of acceptability on the basis that the premanufactured unit does not comply with the code. If an enforcing agency on receipt of an application for a building permit specifying the use of a premanufactured unit does object, it may set forth its objections in writing to the department before issuance of a building permit and within 10 business days after receipt of the application. Within 10 business days after receipt of the objections, the commission, or a panel of 3 or more members designated for that purpose by its chairman, shall hold a hearing on the objections in accordance with rules promulgated by the department. After the hearing, the commission, or its panel, within 3 business days shall determine 1 of the following:

(a) The premanufactured unit does not comply with the code and order that the certificate of acceptability be voided.

(b) The premanufactured unit requires additional testing and evaluation in which case the testing and evaluation shall be conducted in accordance with this section.

(c) The objections are not valid and order the enforcing agency to issue the building permit within 3 business days.

(11) A certificate of acceptability issued by the department shall not be used for advertising purposes.

This act is ordered to take immediate effect.

The board shall adopt bylaws, rules, and policies governing the operation and professional work of the hospital and the eligibility and qualifications of its medical staff. Physicians, nurses, attendants, employees, patients, and persons approaching or on the premises of the hospital and furniture, equipment, and other articles used or brought on the premises shall be subject to the bylaws, rules, and policies as the hospital board may adopt or authorize to be adopted. The board may deny or revoke staff membership, or suspend or reduce hospital privileges to a physician who violates a provision of the medical staff bylaws, rules, and policies.

(3) The medical advisory committee, with the approval of the hospital board, shall adopt rules and policies governing the professional work of the hospitals and the eligibility and qualifications of their medical staffs. The rules and policies shall conform, as nearly as practicable, to the applicable standards recommended by the joint commission on accreditation of hospitals.

(4) If an audit completed pursuant to subsection (2) shows that the authority has gross assets, without accounting for any liabilities, of less than $20,000.00, and if the authority is not then directly or indirectly engaged in the operation of a hospital, the board may adopt a resolution stating that the authority has no material assets. The adoption of the resolution shall be made at a public meeting held in compliance with this section and with the open meetings act, 1976 PA 267, MCL 15.261 to 15.275. A board that has adopted such a resolution shall continue to function in compliance with sections 5 and 7 and this section except for the following:

(a) The board need not meet at the regular times established under this section.

(b) The board need not complete an annual budget pursuant to section 7.

(c) The board may take action by a written consent of the board members signed by a number of board members equal to the number of members necessary to approve such action at a meeting at which all the board members attended, but only for the purpose of electing members at large to the board of the authority and not for the purpose of removing members at large. Immediately upon the happening of either event, or at any other time at the discretion of the board, the determination of no material assets shall cease and the board shall resume all of the actions required of it before the determination of no material assets.

(6) Any residual value resulting from an authority's potential right to retake possession of a hospital or other property previously sold or transferred pursuant to section 9 is not included as part of the authority's assets for making a determination of no material assets under subsection (4).

(1) Except as otherwise provided in section 6, by April 1 of each year, the hospital board shall cause a balanced budget to be prepared containing an itemized statement of the estimated current expenses and the expenses for capital outlay, including the amount necessary to pay the principal and interest of any outstanding bonds or other obligations of the authority maturing before the time of the following year's tax collection or which have previously matured and are unpaid, and an estimate of the revenue of the hospital authority from all sources for the ensuing fiscal year. The board shall publish notice of a public hearing on the budget stating the time and place. Notice of hearing shall be furnished the legislative body of each city, village, or township participating in the hospital authority.

(2) After the public hearing, the board shall adopt the budget as shall be considered necessary and shall ascertain what amount is required to be raised by taxation from the several cities, townships, and villages to meet their respective shares of the amount of the budget in excess of the estimated other revenues. The share of each city, village, and township shall be determined on the basis of their respective valuations as finally equalized. The assessed valuation of a township for the purpose shall be exclusive of the property within a village which, as a corporate entity, is a member of the authority, and the assessed valuation of a member village shall be computed pursuant to the township assessment roll so as to afford a uniform assessment basis. A member township containing in whole or in part a member village shall levy taxes under this act only against property located outside the village. The board shall certify to each participating city, township, and village the amount to be raised by them and the respective cities, townships, and villages shall include those amounts in their next ensuing budgets, and shall pay the amount so certified from funds they have available or from the proceeds of a tax which they are authorized to levy, in an amount sufficient therefor, but not exceeding the tax limitation provided in this act exclusive of any amount voted for capital improvements under section 4 or necessary to pay principal and interest on bonds issued under section 8b. A village located in a township that is also a member of the authority, by agreement with the township, may have the township include the village property in a tax assessment under this act, collect the money assessed, and pay it to the village for payment of its share to the authority. Possession and consumption of alcoholic liquor under this section are allowed in portions of the motorsports entertainment complex open to the general public that are also part of the licensed premises of a retail licensee only under both of the following circumstances:

(a) The licensed premises are located within the motorsports entertainment complex.

(b) The retail licensee holds a license for consumption on the licensed premises of the motorsports entertainment complex.

(3) A person holding a license for the sale of alcoholic liquor for consumption on the premises at a motorsports entertainment complex is subject to the civil liability provisions of section 801 if the civil action is brought by or on behalf of an individual who suffers damage or is personally injured by a minor or visibly intoxicated person by reason of the unlawful consumption of alcoholic liquor on the licensed premises by that minor or visibly intoxicated person if the unlawful consumption is proven to be a proximate cause of the damage, injury, or death of the individual, whether the alcoholic liquor was sold or furnished by the licensee or was brought onto the licensed premises under subsection (2).

436.1531 Public licenses and resort licenses; on-premise escrowed licenses; limitations and quotas; additional licenses for certain establishments; license for certain events at public university; economic development factors; exceptions as to certain veterans and airports; special state census of local governmental unit; rules; availability of transferable licenses held in escrow; on-premise escrowed or quota license; issuance of available licenses; report; hotels; definitions.

Sec. 531. (1) A public license shall not be granted for the sale of alcoholic liquor for consumption on the premises in excess of 1 license for each 1,500 of population or major fraction thereof. On-premises escrowed licenses issued under this subsection may be transferred subject to local legislative approval under section 501(2) to an applicant whose proposed operation is located within any local governmental unit in a county with a population of under 500,000 or a county with a population of over 700,000 in which the escrowed license was located. If the local governmental unit within which the former licensee's premises were located spans more than 1 county, an escrowed license is available subject to local legislative approval under section 501(2) to an applicant whose proposed operation is located within any local governmental unit in either county. If an escrowed license is activated within a local governmental unit other than that local governmental unit within which the escrowed license was originally issued, the commission shall count that activated license against the local governmental unit originally issuing the license. This quota does not bar the right of an existing licensee to renew a license or transfer the license and does not bar the right of an on-premise licensee of any class to reclassify to another class of on-premises license in a manner not in violation of law or this act, subject to the consent of the commission. The upgrading of a

license resulting from a request under this subsection shall be approved by the local governmental unit having jurisdiction.

(2) In a resort area, the commission may issue 1 or more licenses for a period not to exceed 12 months without regard to a limitation because of population, but not in excess of 550, and with respect to the resort license the commission, by rule, shall define and classify resort seasons by months and may issue 1 or more licenses for resort seasons without regard to the calendar year or licensing year.

(3) In addition to the resort licenses authorized in subsection (2), the commission may issue not more than 10 additional licenses per year for the years 2003 and 2004 to establishments whose business and operation, as determined by the commission, is designed to attract and accommodate tourists and visitors to the resort area, whose primary purpose is not for the sale of alcoholic liquor, and whose capital investment in real property, leasehold improvement, and fixtures for the premises to be licensed is $75,000.00 or more. Further, the commission shall issue 1 license under this subsection for the years 2003 and 2004 to an applicant located in a rural area that has a poverty rate, as defined by the latest decennial census, greater than the statewide average, or that is located in a rural area that has an unemployment rate higher than the statewide average for 3 of the 5 preceding years. In counties having a population of less than 50,000, as determined by the last federal decennial census or as determined pursuant to subsection (11) and subject to subsection (16) in the case of a class A hotel or a class B hotel, the commission shall not require the establishments to have dining facilities to seat more than 50 persons. The commission may cancel the license if the resort is no longer active or no longer qualifies for the license. Before January 16 of each year the commission shall transmit to the legislature a report giving details as to the number of applications received under this subsection; the number of licenses granted and to whom; the number of applications rejected and the reasons; and the number of the licenses revoked, suspended, or other disciplinary action taken and against whom and the grounds for revocation, suspension, or disciplinary action.

(4) In addition to any licenses for the sale of alcoholic liquor for consumption on the premises that may be available in the local governmental unit under subsection (1) and the resort licenses authorized in subsections (2) and (3), the commission may issue not more than 20 resort economic development licenses per year for the years 2003 and 2004. A person is eligible to apply for a resort economic development license under this subsection upon submitting an application to the commission and demonstrating all of the following:

(a) The establishment's business and operation, as determined by the commission, is designed to attract and accommodate tourists and visitors to the resort area.

(b) The establishment's primary business is not the sale of alcoholic liquor.

(c) The capital investment in real property, leasehold improvement, fixtures, and inventory for the premises to be licensed is in excess of $1,500,000.00.

(d) The establishment does not allow or permit casino gambling on the premises.

(5) In governmental units having a population of 50,000 persons or less, as determined by the last federal decennial census or as determined pursuant to subsection (11), in which the quota of specially designated distributor licenses, as provided by commission rule, has been exhausted, the commission may issue not more than a total of 10 additional specially designated distributor licenses per year for the years 2003 and 2004 to established merchants whose business and operation, as determined by the commission, is designed to attract and accommodate tourists and visitors to the resort area. A specially designated distributor license issued pursuant to this subsection may be issued at a location within 2,640 feet of existing specially designated distributor license locations. A specially

designated distributor license issued pursuant to this subsection shall not bar another specially designated distributor licensee from transferring location to within 2,640 feet of said licensed location. A specially designated distributor license issued pursuant to section 533 may be located within 2,640 feet of a specially designated distributor license issued pursuant to this subsection.

(6) In addition to any licenses for the sale of alcoholic liquor for consumption on the premises that may be available in the local governmental unit under subsection (1), and the resort or resort economic development licenses authorized in subsections (2), (3), and (4), and notwithstanding section 519, the commission may issue not more than 5 additional special purpose licenses in any calendar year for the sale of beer and wine for consumption on the premises. A special purpose license issued pursuant to this subsection shall be issued only for events which are to be held from May 1 to September 30, are artistic in nature, and which are to be held on the campus of a public university with an enrollment of 30,000 or more students. A special purpose license shall be valid for 30 days or for the duration of the event for which it is issued, whichever is less. The fee for a special purpose license shall be $50.00. A special purpose license may be issued only to a corporation which is all of the following:

(b) Has a board of directors constituted of members of whom half are elected by the public university at which the event is scheduled and half are elected by the local governmental unit.

(c) Has been in continuous existence for not less than 6 years.

(7) Notwithstanding the local legislative body approval provision of section 501(2) and notwithstanding the provisions of section 519, the commission may issue, without regard to the quota provisions of subsection (1) and with the approval of the governing board of the university, either a tavern or class C license which may be used only for regularly scheduled events at a public university's established outdoor program or festival at a facility on the campus of a public university having a head count enrollment of 10,000 students or more. A license issued under this subsection may only be issued to the governing board of a public university, a person that is the lessee or concessionaire of the governing board of the university, or both. A license issued under this subsection is not transferable as to ownership or location. A license issued under this subsection may not be issued at an outdoor stadium customarily used for intercollegiate athletic events.

(8) In issuing a resort or resort economic development license under subsection (3), (4), or (5), the commission shall consider economic development factors of the area in the issuance of licenses to establishments designed to stimulate and promote the resort and tourist industry. The commission shall not transfer a resort or resort economic development license issued under subsection (3), (4), or (5) to another location. If the licensee goes out of business the license shall be surrendered to the commission.

(9) The limitations and quotas of this section are not applicable to the issuance of a new license to a veteran of the armed forces of the United States who was honorably discharged or released under honorable conditions from the armed forces of the United States and who had by forced sale disposed of a similar license within 90 days before or after entering or while serving in the armed forces of the United States, as a part of the person's preparation for that service if the application for a new license is made for the same governmental unit in which the previous license was issued and within 60 days after the discharge of the applicant from the armed forces of the United States.

(10) The limitations and quotas of this section shall not be applicable to the issuance of a new license or the renewal of an existing license where the property or establishment

to be licensed is situated in or on land on which an airport owned by a county or in which a county has an interest is situated.

(11) For purposes of implementing this section a special state census of a local governmental unit may be taken at the expense of the local governmental unit by the federal bureau of census or the secretary of state under section 6 of the home rule city act, 1909 PA 279, MCL 117.6. The special census shall be initiated by resolution of the governing body of the local governmental unit involved. The secretary of state may promulgate additional rules necessary for implementing this section pursuant to the administrative procedures act of 1969, 1969 PA 306, MCL 24.201 to 24.328.

(12) Before granting an approval as required in section 501(2) for a license to be issued under subsection (2), (3), or (4), a local legislative body shall disclose the availability of transferable licenses held in escrow for more than 1 licensing year within that respective local governmental unit. Public notice of the meeting to consider the granting of the license by the local governmental unit shall be made 2 weeks before the meeting.

(13) The person signing the application for an on-premise resort or resort economic development license shall state and verify that he or she attempted to secure an on-premise escrowed or quota license and that, to the best of his or her knowledge, an on-premise escrowed or quota license is not readily available within 1 of the following:

(b) In a county not described in subdivision (a), the local governmental unit in which the applicant for the on-premise resort or resort economic development license proposes to operate.

(14) The commission shall not issue an on-premise resort or resort economic development license if the local governmental unit or county, as appropriate, within which the resort or resort economic development license applicant proposes to operate has not issued all on-premise licenses available under subsection (1) or if an on-premise escrowed license exists and is readily available within the local governmental unit in which the applicant for the on-premise resort or resort economic development license proposes to operate. The commission may waive the provisions of this subsection upon a showing of good cause.

(15) The commission shall annually report to the legislature the names of the businesses issued licenses under this section and their locations.

(16) The commission shall not require a class A hotel or a class B hotel licensed pursuant to subsection (2), (3), or (4) to provide food service to registered guests or to the public.

(17) Subject to the limitation and quotas of subsection (1) and to local legislative approval under section 501(2), the commission may approve the transfer of ownership and location of an on-premises escrowed license within the same county to a class G-1 or class G-2 license or may approve the reclassification of an existing on-premises license at the location to be licensed to a class G-1 license or to a class G-2 license, subject to subsection (1). Resort or economic development on-premises licenses created under subsection (3) or (4) may not be issued as, or reclassified to, a class G-1 or class G-2 license.

(18) As used in this section:

Sec. 701. (1) Alcoholic liquor shall not be sold or furnished to a minor. Except as otherwise provided in subsection (2) and subject to subsections (4), (5), and (6), a person who knowingly sells or furnishes alcoholic liquor to a minor, or who fails to make diligent inquiry as to whether the person is a minor, is guilty of a misdemeanor. A retail licensee or a retail licensee's clerk, agent, or employee who violates this subsection shall be punished in the manner provided for licensees in section 909 except that if the violation is the result of an undercover operation in which the minor received alcoholic liquor under the direction of the state police, the commission, or a local police agency as part of an enforcement action, the retail licensee's clerk, agent, or employee is responsible for a state civil infraction and may be ordered to pay a civil fine of not more than $100.00. Except as otherwise provided in subsection (2), a person who is not a retail licensee or a retail licensee's clerk, agent, or employee and who violates this subsection is guilty of a misdemeanor punishable by a fine of not more than $1,000.00 and imprisonment for not more than 60 days for a first offense, a fine of not more than $2,500.00 and imprisonment for not more than 90 days for a second or subsequent offense, and may be ordered to perform community service. A suitable sign describing the content of this section and the penalties for its violation shall be posted in a conspicuous place in each room where alcoholic liquor is sold. The signs shall be approved and furnished by the commission.

(3) If a violation occurs in an establishment that is licensed by the commission for consumption of alcoholic liquor on the licensed premises, a person who is a licensee or the clerk, agent, or employee of a licensee shall not be charged with a violation of subsection (1) or section 801(2) unless the licensee or the clerk, agent, or employee of the licensee knew or should have reasonably known with the exercise of due diligence that a person less than 21 years of age possessed or consumed alcoholic liquor on the licensed premises and the licensee or clerk, agent, or employee of the licensee failed to take immediate corrective action.

(4) If the enforcing agency involved in the violation is the state police or a local police agency, a licensee shall not be charged with a violation of subsection (1) or section 801(2) unless all of the following occur, if applicable:

(a) Enforcement action is taken against the minor who purchased or attempted to purchase, consumed or attempted to consume, or possessed or attempted to possess alcoholic liquor.

(c) Enforcement action under this section is taken against the clerk, agent, or employee who directly sold or furnished alcoholic liquor to the minor.

(5) If the enforcing agency is the commission and an appearance ticket or civil infraction citation has not been issued, then the commission shall recommend to a local law enforcement agency that enforcement action be taken against a violator of this section or section 703 who is not a licensee. However, subsection (4) does not apply if the minor against whom enforcement action is taken under section 703, the clerk, agent, or employee of the licensee who directly sold or furnished alcoholic liquor to the minor, or the person 21 years of age or older who sold or furnished alcoholic liquor to the minor is not alive or is not present in this state at the time the licensee is charged. Subsection (4)(a) does not apply under either of the following circumstances:

(a) The violation of subsection (1) is the result of an undercover operation in which the minor purchased or received alcoholic liquor under the direction of the person's employer and with the prior approval of the local prosecutor's office as part of an employer-sponsored internal enforcement action.

(b) The violation of subsection (1) is the result of an undercover operation in which the minor purchased or received alcoholic liquor under the direction of the state police, the commission, or a local police agency as part of an enforcement action.

(6) Any initial or contemporaneous purchase or receipt of alcoholic liquor by the minor under subsection (5)(a) or (b) must have been under the direction of the state police, the commission, or the local police agency and must have been part of the undercover operation.

(7) If a minor participates in an undercover operation in which the minor is to purchase or receive alcoholic liquor under the supervision of a law enforcement agency, his or her parents or legal guardian shall consent to the participation if that person is less than 18 years of age.

(8) In an action for the violation of this section, proof that the defendant or the defendant's agent or employee demanded and was shown, before furnishing alcoholic liquor to a minor, a motor vehicle operator's or chauffeur's license or a registration certificate issued by the federal selective service, or other bona fide documentary evidence of the age and identity of that person, shall be a defense to an action brought under this section.

(9) The commission shall provide, on an annual basis, a written report to the department of state police as to the number of actions heard by the commission involving violations of this section and section 801(2). The report shall include the disposition of each action and contain figures representing the following categories:

Corrective action includes, but is not limited to, contacting a law enforcement agency and ejecting the minor and any other person suspected of aiding and abetting the minor.

(b) "Diligent inquiry" means a diligent good faith effort to determine the age of a person, which includes at least an examination of an official Michigan operator's or

chauffeur's license, an official Michigan personal identification card, or any other bona fide picture identification which establishes the identity and age of the person.

436.1705 Power of peace officer or law enforcement officer witnessing violation to stop and detain person; issuance of appearance ticket.

Sec. 705. A peace officer or law enforcement officer described under section 201 or an inspector of the commission who witnesses a violation of section 701(1) or 703, or a local ordinance corresponding to section 701(1) or 703, may stop and detain a person and obtain satisfactory identification, seize illegally possessed alcoholic liquor, and issue an appearance ticket as prescribed in section 9c of chapter IV of the code of criminal procedure, 1927 PA 175, MCL 764.9c.

436.1905 Selling or furnishing alcoholic liquor to minor; enforcement actions prohibited; conditions; exception.

Sec. 905. (1) Notwithstanding section 903, if a retail licensee or a retail licensee's clerk, agent, or employee violates this act by selling or furnishing alcoholic liquor to a minor, or by allowing a minor to consume alcoholic liquor or possess alcoholic liquor for personal consumption on the licensed premises, and if the enforcing agency involved in the prosecution of the violation is the state police or a local police agency, the commission shall not take any action under section 903 to suspend or revoke the licensee's license or assess an administrative fine against the licensee unless all of the following occur, if applicable:

(a) Enforcement action is taken against the minor who purchased, consumed, or received the alcoholic liquor from the retail licensee or the retail licensee's clerk, agent, or employee.

(b) Enforcement action is taken under section 701 against the person 21 years of age or older that is not the retail licensee or the retail licensee's clerk, agent, or employee but who sold or furnished the alcoholic liquor to the minor.

(c) Enforcement action is taken under section 701 against the retail licensee's clerk, agent, or employee.

(2) Subsection (1) does not apply if the enforcing agent involved in the prosecution is a commission inspector rather than a police agency.

(3) Subsection (1)(a) does not apply if the prosecution of the violation is the result of an undercover operation in which the minor who purchased, consumed, or received the alcoholic liquor acted under the direction of the state police or a local police agency as part of the enforcement action and such enforcement action is otherwise in compliance with section 701(4), (5), and (6).

436.2021 Purchase or serving of food; removal of liquor from premises; class A or B hotel.

Sec. 1021. (1) A regulation shall not be made requiring the purchase or serving of food with the purchase of alcoholic liquor. The commission shall not require a class A hotel or class B hotel to provide food services to registered guests or to the public.

(2) Alcoholic liquor sold by vendors for consumption on the premises shall not be removed from those premises.

(3) Nothing in this act and rules promulgated under this act shall prevent a class A or B hotel designed to attract and accommodate tourists and visitors in a resort area from allowing its invitees or guests to possess or consume, or both, on or about its premises,

alcoholic liquor purchased by the invitee or guest from an off-premises retailer, and does not prevent a guest or invitee from entering and exiting the licensed premises with alcoholic liquor purchased from an off-premises retailer.

Sec. 38g. (1) Subject to the criteria under this section, an eligible taxpayer may claim a credit against the tax imposed by this act as determined under subsections (20) to (25); and subject to the criteria under this section, a qualified taxpayer that has a preapproval letter issued after December 31, 1999 and before January 1, 2008, provided that the project is completed not more than 5 years after the preapproval letter for the project is issued, or an assignee under subsection (17) or (18) may claim a credit that has been approved under subsection (2) or (3) against the tax imposed by this act equal to either of the following:

(a) If the total of all credits for a project is $1,000,000.00 or less, 10% of the cost of the qualified taxpayer's eligible investment paid or accrued by the qualified taxpayer on an eligible property provided that the project does not exceed the amount stated in the preapproval letter. If eligible investment exceeds the amount of eligible investment in the preapproval letter for that project, the total of all credits for the project shall not exceed the total of all credits on the certificate of completion.

(b) If the total of all credits for a project is more than $1,000,000.00 but $30,000,000.00 or less and, except as provided in subsection (5)(b), the project is located in a qualified local governmental unit, a percentage as determined by the Michigan economic growth authority not to exceed 10% of the cost of the qualified taxpayer's eligible investment as determined under subsection (8) paid or accrued by the qualified taxpayer on an eligible property. If eligible investment exceeds the amount of eligible investment in the preapproval letter for that project, the total of all credits for the project shall not exceed the total of all credits on the certificate of completion.

(2) If the cost of a project will be for $10,000,000.00 or less, a qualified taxpayer shall apply to the department for approval of the project under this subsection. An application under this subsection shall state whether the project is a multiphase project. The state treasurer or a designee of the state treasurer is authorized to approve an application or project under this subsection. Only the state treasurer is authorized to deny an application or project under this subsection. A project shall be approved or denied not more than 45 days after receipt of the application. If the state treasurer or the state treasurer's designee does not approve or deny an application within 45 days after the application is received by the department, the application is considered approved as written. The total of all credits for all projects approved under this subsection shall not exceed $30,000,000.00 in any calendar year. The criteria in subsection (6) shall be used when approving projects under this subsection. When approving projects under this subsection, priority shall be given to projects on a facility. The total of all credits for an approved project under this subsection shall not exceed $1,000,000.00. A taxpayer may apply under this subsection instead of subsection (3) for approval of a project that will be for more than $10,000,000.00 but the total of all credits for that project shall not exceed $1,000,000.00. If the state treasurer or a designee of the state treasurer approves a project under this subsection, the state treasurer or a designee of the state treasurer shall issue a preapproval letter that states that the taxpayer is a qualified taxpayer; the maximum total eligible investment for the project on which credits may be claimed and the maximum total of all credits for the project when the project is completed and a certificate of completion is issued; and the project number assigned by the department. If a project is denied under this subsection, a taxpayer is not prohibited from subsequently applying under this subsection or subsection (3) for the same project or for another project.

(3) If the cost of a project will be for more than $10,000,000.00 and, except as provided in subsection (5)(b), the project is located in a qualified local governmental unit, a qualified taxpayer shall apply to the Michigan economic growth authority for approval of the project. The Michigan economic growth authority shall approve or deny the project not more than 65 days after receipt of the application. A project under this subsection shall not be approved without the concurrence of the state treasurer. If the Michigan economic growth authority does not approve or deny the application within 65 days after it receives the application, the Michigan economic growth authority shall send the application to the state treasurer. The state treasurer shall approve or deny the application within 5 days after receipt of the application. If the state treasurer does not deny the application within the 5 days after receipt of the application, the application is considered approved. The Michigan economic growth authority shall approve a limited number of projects under this subsection during each calendar year as provided in subsection (5). The Michigan economic growth authority shall use the criteria in subsection (6) when approving projects under this subsection, when determining the total amount of eligible investment, and when determining the percentage of eligible investment for the project to be used to calculate a credit. The total of all credits for an approved project under this subsection shall not exceed the amount designated in the preapproval letter for that project. If the Michigan economic growth authority approves a project under this subsection, the Michigan economic growth authority shall issue a preapproval letter that states that the taxpayer is a qualified taxpayer; the percentage of eligible investment for the project determined by the Michigan economic growth authority for purposes of subsection (1)(b); the maximum total eligible investment for the project on which credits may be claimed and the maximum total of all credits for the project when the project is completed and a certificate of completion is issued; and the project number assigned by the Michigan economic growth authority. The Michigan economic growth authority shall send a copy of the preapproval letter to the department. If a project is denied under this subsection, a taxpayer is not prohibited from subsequently applying under this subsection or subsection (2) for the same project or for another project.

(4) If the project is on property that is functionally obsolete, the taxpayer shall include, with the application, an affidavit signed by a level 3 or level 4 assessor, that states that it is the assessor's expert opinion that the property is functionally obsolete and the underlying basis for that opinion.

(5) The Michigan economic growth authority may approve not more than 15 projects each calendar year under subsection (3), and the following limitations apply:

(a) Of the 15 projects allowed under this subsection, the total of all credits for each project may be more than $10,000,000.00 but $30,000,000.00 or less for up to 3 projects.

(b) Of the 15 projects allowed under this subsection, up to 3 projects may be approved for projects that are not in a qualified local governmental unit if the property is a facility for which eligible activities are identified in a brownfield plan. For purposes of this subdivision, a facility includes a building or complex of buildings that was used by a state or federal agency and that is no longer being used for the purpose for which it was used by the state or federal agency.

(c) Of the 3 projects allowed under subdivision (a), 1 may be a project that also qualifies under subdivision (b).

(6) The Michigan economic growth authority shall review all applications for projects under subsection (3) and, if an application is approved, shall determine the maximum total of all credits for that project. Before approving a project for which the total of all credits will be more than $10,000,000.00 but $30,000,000.00 or less only, the Michigan economic

growth authority shall determine that the project would not occur in this state without the tax credit offered under subsection (3), except that the Michigan economic growth authority may approve 1 project the construction of which began after January 1, 2000 and before January 1, 2001 without determining that the eligible investment would not occur in this state without the tax credit offered under this section. The Michigan economic growth authority shall consider the following criteria to the extent reasonably applicable to the type of project proposed when approving a project under subsection (3) and the state treasurer or a designee of the state treasurer shall consider the following criteria to the extent reasonably applicable to the type of project proposed when approving a project under subsection (2) or when considering an amendment to a project under subsection (31):

(a) The overall benefit to the public.

(b) The extent of reuse of vacant buildings and redevelopment of blighted property.

(c) Creation of jobs.

(d) Whether the eligible property is in an area of high unemployment.

(e) The level and extent of contamination alleviated by the qualified taxpayer's eligible activities to the extent known to the qualified taxpayer.

(f) The level of private sector contribution.

(g) The cost gap that exists between the site and a similar greenfield site as determined by the Michigan economic growth authority.

(h) If the qualified taxpayer is moving from another location in this state, whether the move will create a brownfield.

(i) Whether the financial statements of the qualified taxpayer indicate that it is financially sound and that the project is economically sound.

(j) Any other criteria that the Michigan economic growth authority or the state treasurer, as applicable, considers appropriate for the determination of eligibility under subsection (2) or (3).

(7) A qualified taxpayer may apply for projects under subsection (2) or (3) for eligible investment on more than 1 eligible property in a tax year. Each project approved and each project for which a certificate of completion is issued under this section shall be for eligible investment on 1 eligible property.

(8) When a project under subsection (2) or (3) is completed, the taxpayer shall submit documentation that the project is completed, an accounting of the cost of the project, the eligible investment of each taxpayer if there is more than 1 taxpayer eligible for a credit for the project, and, if the taxpayer is not the owner or lessee of the eligible property on which the eligible investment was made at the time the project is completed, that the taxpayer was the owner or lessee of that eligible property when all eligible investment of the taxpayer was made. The state treasurer or a designee of the state treasurer, for projects approved under subsection (2), or the Michigan economic growth authority, for projects approved under subsection (3), shall verify that the project is completed. For projects approved under subsection (3), the Michigan economic growth authority shall conduct an on-site inspection as part of the verification process. When the completion of the project is verified, a certificate of completion shall be issued to each qualified taxpayer that has made eligible investment on that eligible property. The certificate of completion shall state the total amount of all credits for the project and that total shall not exceed the maximum total of all credits listed in the preapproval letter for the project under subsection (2) or (3) as applicable and shall state all of the following:

(a) That the taxpayer is a qualified taxpayer.

(b) The total cost of the project and the eligible investment of each qualified taxpayer.

(c) Each qualified taxpayer's credit amount.

(d) The qualified taxpayer's federal employer identification number or the Michigan treasury number assigned to the taxpayer.

(e) The project number.

(f) For a project approved under subsection (3) for which the total of all credits is more than $10,000,000.00 but $30,000,000.00 or less, the total of all credits and the schedule on which the annual credit amount shall be claimed by the qualified taxpayer.

(g) For a multiphase project under subsection (33), the amount of each credit assigned and the amount of all credits claimed in each tax year before the year in which the project is completed.

(9) Except as otherwise provided in this section, qualified taxpayers shall claim credits under subsections (2) and (3) in the tax year in which the certificate of completion is issued. For a project approved under subsection (3) for which the total of all credits is more than $10,000,000.00 but $30,000,000.00 or less, the qualified taxpayer shall claim 10% of its approved credit each year for 10 years. A credit assigned based on a multiphase project shall be claimed in the year in which the credit is assigned.

(10) The cost of eligible investment for leased machinery, equipment, or fixtures is the cost of that property had the property been purchased minus the lessor's estimate, made at the time the lease is entered into, of the market value the property will have at the end of the lease. A credit for property described in this subsection is allowed only if the cost of that property had the property been purchased and the lessor's estimate of the market value at the end of the lease are provided to the department or the Michigan economic growth authority, as applicable.

(11) For credits under subsections (2) and (3), credits claimed by a lessee of eligible property are subject to the total of all credits limitation under this section.

(12) Each qualified taxpayer and assignee under subsection (17) or (18) that claims a credit under subsection (1)(a) or (b) shall attach a copy of the certificate of completion and, if the credit was assigned, a copy of the assignment form provided for under this section to the annual return filed under this act on which the credit under subsection (2) or (3) is claimed. An assignee of a credit based on a multiphase project shall attach a copy of the assignment form provided for under this section and the component completion certificate provided for in subsection (32) to the annual return filed under this act on which the credit is claimed but is not required to file a copy of a certificate of completion.

(13) Except as otherwise provided in this subsection or subsection (15), (17), (19), or (32), a credit under subsection (2) or (3) shall be claimed in the tax year in which the certificate of completion is issued to the qualified taxpayer. For a project described in subsection (8)(f) for which a schedule for claiming annual credit amounts is designated on the certificate of completion by the Michigan economic growth authority, the annual credit amount shall be claimed in the tax year specified on the certificate of completion.

(14) The credits approved under this section shall be calculated after application of all other credits allowed under this act. The credits under subsections (2) and (3) shall be calculated before the calculation of credits under subsections (20) to (25) and before the credits under sections 37c and 37d.

(15) If the credit allowed under subsection (2) or (3) for the tax year and any unused carryforward of the credit allowed under subsection (2) or (3) exceed the qualified taxpayer's or assignee's tax liability for the tax year, that portion that exceeds the tax liability for the tax year shall not be refunded but may be carried forward to offset tax

liability in subsequent tax years for 10 years or until used up, whichever occurs first. Except as otherwise provided in this subsection, the maximum time allowed under the carryforward provisions under this subsection begins with the tax year in which the certificate of completion is issued to the qualified taxpayer. If the qualified taxpayer assigns all or any portion of its credit approved under subsection (2) or (3), the maximum time allowed under the carryforward provisions for an assignee begins to run with the tax year in which the assignment is made and the assignee first claims a credit, which shall be the same tax year. The maximum time allowed under the carryforward provisions for an annual credit amount for a credit allowed under subsection (3) begins to run in the tax year for which the annual credit amount is designated on the certificate of completion issued under this section.

(16) If a project or credit under subsection (2) or (3) is for the addition of personal property, if the cost of that personal property is used to calculate a credit under subsection (2) or (3), and if the personal property is sold or disposed of or transferred from eligible property to any other location, the qualified taxpayer that sold, disposed of, or transferred the personal property shall add the same percentage as determined pursuant to subsection (1) of the federal basis of the personal property used for determining gain or loss as of the date of the sale, disposition, or transfer to the qualified taxpayer's tax liability after application of all credits under this act for the tax year in which the sale, disposition, or transfer occurs. If a qualified taxpayer has an unused carryforward of a credit under subsection (2) or (3), the amount otherwise added under this subsection to the qualified taxpayer's tax liability may instead be used to reduce the qualified taxpayer's carryforward under subsection (15).

(17) For credits under subsections (2) and (3) and except as otherwise provided in this subsection, if a qualified taxpayer pays or accrues eligible investment on or to an eligible property that is leased for a minimum term of 10 years or sold to another taxpayer for use in a business activity, the qualified taxpayer may assign all or a portion of the credit based on that eligible investment to the lessee or purchaser of that eligible property. A credit assignment under this subsection shall only be made to a taxpayer that when the assignment is complete will be a qualified taxpayer. All credit assignments under this subsection are irrevocable and, except for a credit based on a multiphase project, shall be made in the tax year in which the certificate of completion is issued, unless the assignee is an unknown lessee. If a qualified taxpayer wishes to assign all or a portion of its credit to a lessee but the lessee is unknown in the tax year in which the certificate of completion is issued, the qualified taxpayer may delay claiming and assigning the credit until the first tax year in which the lessee is known. A qualified taxpayer may claim a portion of a credit and assign the remaining credit amount. Except as otherwise provided in this subsection, if the qualified taxpayer both claims and assigns portions of the credit, the qualified taxpayer shall claim the portion it claims in the tax year in which the certificate of completion is issued or for a credit assigned and claimed for a multiphase project before a certificate of completion is issued, the taxpayer shall claim the credit in the year in which the credit is assigned. If a qualified taxpayer assigns all or a portion of the credit and the eligible property is leased to more than 1 taxpayer, the qualified taxpayer shall determine the amount of credit assigned to each lessee. A lessee shall not subsequently assign a credit or any portion of a credit assigned under this subsection. A purchaser may subsequently assign a credit or any portion of a credit assigned to the purchaser under this subsection to a lessee of the eligible property. The credit assignment under this subsection shall be made on a form prescribed by the department. The qualified taxpayer shall send a copy of the completed assignment form to the department in the tax year in which the assignment is made. The assignee shall attach a copy of the completed assign-

ment form to its annual return required to be filed under this act, for the tax year in which the assignment is made and the assignee first claims a credit, which shall be the same tax year. In addition to all other procedures under this subsection, the following apply if the total of all credits for a project is more than $10,000,000.00 but $30,000,000.00 or less:

(a) The credit shall be assigned based on the schedule contained in the certificate of completion.

(b) If the qualified taxpayer assigns all or a portion of the credit amount, the qualified taxpayer shall assign the annual credit amount for each tax year separately.

(c) More than 1 annual credit amount may be assigned to any 1 assignee and the qualified taxpayer may assign all or a portion of each annual credit amount to any assignee.

(d) The qualified taxpayer shall not assign more than the annual credit amount for each tax year.

(18) If a qualified taxpayer is a partnership, limited liability company, or subchapter S corporation, the qualified taxpayer may assign all or a portion of a credit allowed under subsection (2) or (3) to its partners, members, or shareholders, based on their proportionate share of ownership of the partnership, limited liability company, or subchapter S corporation or based on an alternative method approved by the department. A credit assignment under this subsection is irrevocable and, except for a credit assignment based on a multiphase project, shall be made in the tax year in which a certificate of completion is issued. A qualified taxpayer may claim a portion of a credit and assign the remaining credit amount. If the qualified taxpayer both claims and assigns portions of the credit, the qualified taxpayer shall claim the portion it claims in the tax year in which a certificate of completion is issued. A partner, member, or shareholder that is an assignee shall not subsequently assign a credit or any portion of a credit assigned under this subsection. The credit assignment under this subsection shall be made on a form prescribed by the department. The qualified taxpayer shall send a copy of the completed assignment form to the department in the tax year in which the assignment is made. A partner, member, or shareholder who is an assignee shall attach a copy of the completed assignment form to its annual return required under this act, for the tax year in which the assignment is made and the assignee first claims a credit, which shall be the same tax year. In addition to all other procedures under this subsection, the following apply if the total of all credits for a project is more than $10,000,000.00 but $30,000,000.00 or less:

(a) The credit shall be assigned based on the schedule contained in the certificate of completion.

(b) If the qualified taxpayer assigns all or a portion of the credit amount, the qualified taxpayer shall assign the annual credit amount for each tax year separately.

(c) More than 1 annual credit amount may be assigned to any 1 assignee and the qualified taxpayer may assign all or a portion of each annual credit amount to any assignee.

(d) The qualified taxpayer shall not assign more than the annual credit amount for each tax year.

(19) A qualified taxpayer or assignee under subsection (17) or (18) shall not claim a credit under subsection (1)(a) or (b) based on eligible investment on which a credit claimed under section 38d was based.

(20) In addition to the other credits allowed under this section and sections 37c and 37d, for tax years that begin after December 31, 1999 and for a period of time not to exceed 20 years as determined by the Michigan economic growth authority, an eligible taxpayer may

credit against the tax imposed by section 31 the amount certified each year by the Michigan economic growth authority that is 1 of the following:

(a) For an eligible business under section 8(5)(a) of the Michigan economic growth authority act, 1995 PA 24, MCL 207.808, an amount that is not more than 50% of 1 or both of the following as determined by the Michigan economic growth authority:

(*i*) An amount determined under the Michigan economic growth authority act, 1995 PA 24, MCL 207.801 to 207.810, that does not exceed the payroll of the eligible taxpayer attributable to employees who perform retained jobs multiplied by the tax rate for the tax year.

(*ii*) The tax liability attributable to the eligible taxpayer's business activity multiplied by a fraction the numerator of which is the ratio of the value of new capital investment to all of the taxpayer's property located in this state plus the ratio of the taxpayer's payroll attributable to retained jobs to all of the taxpayer's payroll in this state and the denominator of which is 2.

(b) For an eligible business under section 8(5)(b) of the Michigan economic growth authority act, 1995 PA 24, MCL 207.808, an amount that is not more than 1 or both of the following as determined by the Michigan economic growth authority:

(*i*) An amount determined under the Michigan economic growth authority act, 1995 PA 24, MCL 207.801 to 207.810, that does not exceed the payroll of the eligible taxpayer attributable to employees who perform retained jobs multiplied by the tax rate for the tax year.

(*ii*) The tax liability attributable to eligible taxpayer's business multiplied by a fraction the numerator of which is the ratio of the value of capital investment to all of the taxpayer's property located in this state plus the ratio of the taxpayer's payroll attributable to retained jobs to all of the taxpayer's payroll in this state and the denominator of which is 2.

(21) An eligible taxpayer shall not claim a credit under subsection (20) unless the Michigan economic growth authority has issued a certificate under section 9 of the Michigan economic growth authority act, 1995 PA 24, MCL 207.809, to the taxpayer. The eligible taxpayer shall attach the certificate to the return filed under this act on which a credit under subsection (20) is claimed.

(22) An affiliated group as defined in this act, a controlled group of corporations as defined in section 1563 of the internal revenue code and further described in 26 C.F.R. 1.414(b)-1 and 1.414(c)-1 to 1.414(c)-5, or an entity under common control as defined by the internal revenue code shall claim only 1 credit under subsection (20) for each tax year based on each written agreement whether or not a combined or consolidated return is filed.

(23) A credit shall not be claimed by a taxpayer under subsection (20) if the eligible taxpayer's initial certification under section 9 of the Michigan economic growth authority act, 1995 PA 24, MCL 207.809, is issued after December 31, 2003.

(24) If the credit allowed under subsection (20)(a)(*ii*) or (b)(*ii*) for the tax year and any unused carryforward of the credit allowed by subsection (20)(a)(*ii*) or (b)(*ii*) exceed the taxpayer's tax liability for the tax year, that portion that exceeds the tax liability for the tax year shall not be refunded but may be carried forward to offset tax liability in subsequent tax years for 10 years or until used up, whichever occurs first.

(25) If the credit allowed under subsection (20)(a)(*i*) or (b)(*i*) exceeds the tax liability of the eligible taxpayer for the tax year, the excess shall be refunded to the eligible taxpayer.

(26) An eligible taxpayer that claims a credit under subsection (1)(a) or (b) is not prohibited from claiming a credit under subsection (20). However, the eligible taxpayer shall not claim a credit under both subsections (1)(a) or (b) and (20) based on the same costs.

(27) Eligible investment attributable or related to the operation of a professional sports stadium, and eligible investment that is associated or affiliated with the operation of a professional sports stadium, including, but not limited to, the operation of a parking lot or retail store, shall not be used as a basis for a credit under subsection (2) or (3). Professional sports stadium does not include a professional sports stadium that will no longer be used by a professional sports team on and after the date that an application related to that professional sports stadium is filed under subsection (2) or (3).

(28) Eligible investment attributable or related to the operation of a casino, and eligible investment that is associated or affiliated with the operation of a casino, including, but not limited to, the operation of a parking lot, hotel, motel, or retail store, shall not be used as a basis for a credit under subsection (2) or (3). As used in this subsection, "casino" means a casino regulated by this state pursuant to the Michigan gaming control and revenue act, the Initiated Law of 1996, MCL 432.201 to 432.226.

(29) Eligible investment attributable or related to the construction of a new landfill or the expansion of an existing landfill regulated under part 115 of the natural resources and environmental protection act, 1994 PA 451, MCL 324.11501 to 324.11550, shall not be used as a basis for a credit under subsection (2) or (3).

(30) The department annually shall prepare and submit to the house of representatives and senate committees responsible for tax policy and economic development issues a report on the credits under subsection (2). The report shall include, but is not limited to, all of the following:

(a) A listing of the projects under subsection (2) that were approved in the calendar year.

(b) The total amount of eligible investment for projects approved under subsection (2) in the calendar year.

(31) If, after a taxpayer's project has been approved and the taxpayer has received a preapproval letter but before the project is completed, the taxpayer determines that the project cannot be completed as preapproved, the taxpayer may petition the department for projects approved under subsection (2) or the Michigan economic growth authority for projects approved under subsection (3) to amend the project. The total of eligible investment for the project as amended shall not exceed the amount allowed in the preapproval letter for that project.

(32) A project under subsection (2) may be a multiphase project but only if the project is an industrial or manufacturing project. If a project is a multiphase project, when each component of the multiphase project is completed, the taxpayer shall submit documentation that the component is complete, an accounting of the cost of the component, and the eligible investment for the component of each taxpayer eligible for a credit for the project of which the component is a part to the state treasurer or the designee of the state treasurer who shall verify that the component is complete. When the completion of the component is verified, a component completion certificate shall be issued to the qualified taxpayer which shall state that the taxpayer is a qualified taxpayer, the credit amount for the component, the qualified taxpayer's federal employer identification number or the Michigan treasury number assigned to the taxpayer, and the project number. The taxpayer may assign all or part of the credit for a multiphase project as provided in this section after a component completion certificate for a component is issued. The qualified taxpayer may transfer ownership of or lease the completed component and assign a

proportionate share of the credit for the entire project to the qualified taxpayer that is the new owner or lessee. A multiphase project shall not be divided into more than 3 components. A component is considered to be completed when a certificate of occupancy has been issued by the local municipality in which the project is located for all of the buildings or facilities that comprise the completed component and a component completion certificate is issued. A credit assigned based on a multiphase project shall be claimed by the assignee in the tax year in which the assignment is made. The total of all credits for a multiphase project shall not exceed the amount stated in the preapproval letter for the project under subsection (1)(a). If all components of a multiphase project are not completed by 10 years after the date on which the preapproval letter for the project was issued, the qualified taxpayer that received the preapproval letter for the project shall pay to the state treasurer, as a penalty, an amount equal to the sum of all credits claimed and assigned for all components of the multiphase project and no credits based on that multiphase project shall be claimed after that date by the qualified taxpayer or any assignee of the qualified taxpayer. The penalty under this subsection is subject to interest on the amount of the credit claimed or assigned determined individually for each component at the rate in section 23(2) of 1941 PA 122, MCL 205.23 beginning on the date that the credit for that component was claimed or assigned. As used in this subsection, "proportionate share" means the same percentage of the total of all credits for the project that the qualified investment for the completed component is of the total qualified investment stated in the preapproval letter for the entire project.

(33) As used in this section:

(a) "Annual credit amount" means the maximum amount that a qualified taxpayer is eligible to claim each tax year for a project for which the total of all credits is more than $10,000,000.00 but $30,000,000.00 or less, which shall be 10% of the qualified taxpayer's credit amount approved under subsection (3).

(b) "Authority" means a brownfield redevelopment authority created under the brownfield redevelopment financing act, 1996 PA 381, MCL 125.2651 to 125.2672.

(c) "Authorized business", "full-time job", "new capital investment", "retained jobs", and "written agreement" mean those terms as defined in the Michigan economic growth authority act, 1995 PA 24, MCL 207.801 to 207.810.

(d) "Blighted", "brownfield plan", "eligible activities", "eligible property", "facility", "functionally obsolete", and "response activity" mean those terms as defined in the brownfield redevelopment financing act, 1996 PA 381, MCL 125.2651 to 125.2672.

(e) "Eligible investment" means demolition, construction, restoration, alteration, renovation, or improvement of buildings or site improvements on eligible property and the addition of machinery, equipment, and fixtures to eligible property after the date that eligible activities on that eligible property have started pursuant to a brownfield plan under the brownfield redevelopment financing act, 1996 PA 381, MCL 125.2651 to 125.2672, and after the date that the preapproval letter is issued, except that the date that the preapproval letter is issued is not a limitation for 1 project the construction of which began after January 1, 2000 and before January 1, 2001 without the Michigan economic growth authority determining that the project would not occur in this state without the tax credit offered under this section as provided in subsection (7), if the costs of the eligible investment are not otherwise reimbursed to the taxpayer or paid for on behalf of the taxpayer from any source other than the taxpayer. AN ACT to amend 1996 PA 381, entitled "An act to authorize municipalities to create a brownfield redevelopment authority to facilitate the implementation of brownfield plans

relating to the designation and treatment of brownfield redevelopment zones; to promote the revitalization of environmentally distressed areas; to prescribe the powers and duties of brownfield redevelopment authorities; to permit the issuance of bonds and other evidences of indebtedness by an authority; to authorize the acquisition and disposal of certain property; to authorize certain funds; to prescribe certain powers and duties of certain state officers and agencies; and to authorize and permit the use of certain tax increment financing," by amending sections 13 and 15 (MCL 125.2663 and 125.2665), as amended by 2000 PA 145.

The People of the State of Michigan enact:

125.2663 Brownfield plan; provisions.

Sec. 13. (1) Subject to section 15, the board may implement a brownfield plan. The brownfield plan may apply to 1 or more parcels of eligible property whether or not those parcels of eligible property are contiguous and may be amended to apply to additional parcels of eligible property. If more than 1 parcel of eligible property is included within the plan, the tax increment revenues under the plan shall be determined individually for each parcel of eligible property. Each plan or an amendment to a plan shall be approved by the governing body of the municipality and shall contain all of the following:

(a) A description of the costs of the plan intended to be paid for with the tax increment revenues.

(b) A brief summary of the eligible activities that are proposed for each eligible property.

(c) An estimate of the captured taxable value and tax increment revenues for each year of the plan from each parcel of eligible property and in the aggregate. The plan may provide for the use of part or all of the captured taxable value, including deposits in the local site remediation revolving fund, but the portion intended to be used shall be clearly stated in the plan. The plan shall not provide either for an exclusion from captured taxable value of a portion of the captured taxable value or for an exclusion of the tax levy of 1 or more taxing jurisdictions unless the tax levy is excluded from tax increment revenues in section 2(aa), or unless the tax levy is excluded from capture under section 15.

(d) The method by which the costs of the plan will be financed, including a description of any advances made or anticipated to be made for the costs of the plan from the municipality.

(e) The maximum amount of note or bonded indebtedness to be incurred, if any.

(f) The duration of the brownfield plan, which shall not exceed the lesser of the period authorized under subsections (4) and (5) or 30 years.

(g) An estimate of the impact of tax increment financing on the revenues of all taxing jurisdictions in which the eligible property is located.

(h) A legal description of each parcel of eligible property to which the plan applies, a map showing the location and dimensions of each eligible property, a statement of the characteristics that qualify the property as eligible property, and a statement of whether personal property is included as part of the eligible property. If the project is on property that is functionally obsolete, the taxpayer shall include, with the application, an affidavit signed by a level 3 or level 4 assessor, that states that it is the assessor's expert opinion that the property is functionally obsolete and the underlying basis for that opinion.

(i) Estimates of the number of persons residing on each eligible property to which the plan applies and the number of families and individuals to be displaced. If occupied

residences are designated for acquisition and clearance by the authority, the plan shall include a demographic survey of the persons to be displaced, a statistical description of the housing supply in the community, including the number of private and public units in existence or under construction, the condition of those in existence, the number of owner-occupied and renter-occupied units, the annual rate of turnover of the various types of housing and the range of rents and sale prices, an estimate of the total demand for housing in the community, and the estimated capacity of private and public housing available to displaced families and individuals.

(j) A plan for establishing priority for the relocation of persons displaced by implementation of the plan.

(k) Provision for the costs of relocating persons displaced by implementation of the plan, and financial assistance and reimbursement of expenses, including litigation expenses and expenses incident to the transfer of title, in accordance with the standards and provisions of the uniform relocation assistance and real property acquisition policies act of 1970, Public Law 91-646, 84 Stat. 1894.

(*l*) A strategy for compliance with 1972 PA 227, MCL 213.321 to 213.332.

(m) A description of proposed use of the local site remediation revolving fund.

(n) Other material that the authority or governing body considers pertinent.

(2) The percentage of all taxes levied on a parcel of eligible property for school operating expenses that is captured and used under a brownfield plan and all tax increment finance plans under 1975 PA 197, MCL 125.1651 to 125.1681, the tax increment finance authority act, 1980 PA 450, MCL 125.1801 to 125.1830, or the local development financing act, 1986 PA 281, MCL 125.2151 to 125.2174, shall not be greater than the combination of the plans' percentage capture and use of all local taxes levied for purposes other than for the payment of principal of and interest on either obligations approved by the electors or obligations pledging the unlimited taxing power of the local unit of government. This subsection shall apply only when taxes levied for school operating purposes are subject to capture under section 15.

(3) Except as provided in subsections (5), (15), and (16), tax increment revenues related to a brownfield plan shall be used only for costs of eligible activities attributable to the eligible property, the captured taxable value of which produces the tax increment revenues, including the cost of principal of and interest on any obligation issued by the authority to pay the costs of eligible activities attributable to the eligible property, and the reasonable costs of preparing a work plan or remedial action plan for the eligible property, including the actual cost of the review of the work plan or remedial action plan under section 15.

(4) Except as provided in subsection (5), a brownfield plan shall not authorize the capture of tax increment revenue from eligible property after the year in which the total amount of tax increment revenues captured is equal to the sum of the costs of eligible activities attributable to the eligible property including the cost of principal of and interest on any obligation issued by the authority to pay the costs of eligible activities on the eligible property, and the reasonable cost of preparing a work plan or remedial action plan for eligible property, and the actual cost of the department's review of the work plan or remedial action plan.

(5) A brownfield plan may authorize the capture of additional tax increment revenue from an eligible property in excess of the amount authorized under subsection (4) during the time of capture for the purpose of paying the costs of eligible activities under subsection (3), or for not more than 5 years after the time that capture is required for the

purpose of paying the costs of eligible activities under subsection (3), or both. Excess revenues captured under this subsection shall be deposited in the local site remediation revolving fund created under section 8 and used for the purposes authorized in section 8. If tax increment revenues levied for school operating purposes from eligible property are captured by the authority for purposes authorized under subsection (3), the tax increment revenues captured for deposit in the local site remediation revolving fund also may include tax increment revenues levied for school operating purposes in an amount not greater than the tax increment revenues levied for school operating purposes captured from the eligible property by the authority for the purposes authorized under subsection (3). Excess revenues from taxes levied for school operating purposes for eligible activities authorized under subsection (15) by the Michigan economic growth authority shall not be captured for deposit in the local site remediation revolving fund.

(6) An authority shall not expend tax increment revenues to acquire or prepare eligible property, unless the acquisition or preparation is an eligible activity.

(7) Costs of eligible activities attributable to eligible property include all costs that are necessary or related to a release from the eligible property, including eligible activities on properties affected by a release from the eligible property. For purposes of this subsection, "release" means that term as defined in section 20101 of the natural resources and environmental protection act, 1994 PA 451, MCL 324.20101.

(8) Costs of a response activity paid with tax increment revenues that are captured pursuant to subsection (3) may be recovered from a person who is liable for the costs of eligible activities at an eligible property. This state or an authority may undertake cost recovery for tax increment revenue captured. Before an authority or this state may institute a cost recovery action, it must provide the other with 120 days' notice. This state or an authority that recovers costs under this subsection shall apply those recovered costs to the following, in the following order of priority:

(a) The reasonable attorney fees and costs incurred by this state or an authority in obtaining the cost recovery.

(b) One of the following:

(*i*) If an authority undertakes the cost recovery action, the authority shall deposit the remaining recovered funds into the local site remediation fund created pursuant to section 8, if such a fund has been established by the authority. If a local site remediation fund has not been established, the authority shall disburse the remaining recovered funds to the local taxing jurisdictions in the proportion that the local taxing jurisdictions' taxes were captured.

(*ii*) If this state undertakes a cost recovery action, this state shall deposit the remaining recovered funds into the revitalization revolving loan fund established under section 20108a of the natural resources and environmental protection act, 1994 PA 451, MCL 324.20108a.

(*iii*) If this state and an authority each undertake a cost recovery action, undertake a cost recovery action jointly, or 1 on behalf of the other, the amount of any remaining recovered funds shall be deposited pursuant to subparagraphs (*i*) and (*ii*) in the proportion that the tax increment revenues being recovered represent local taxes and taxes levied for school operating purposes, respectively.

(9) Approval of the brownfield plan or an amendment to a brownfield plan shall be in accordance with the notice and approval provisions of this section and section 14.

(10) Before approving a brownfield plan for an eligible property, the governing body shall hold a public hearing on the brownfield plan. Notice of the time and place of the

hearing shall be given by publication twice in a newspaper of general circulation designated by the municipality, the first of which shall be not less than 20 or more than 40 days before the date set for the hearing.

(11) Notice of the time and place of the hearing on a brownfield plan shall contain all of the following:

(a) A description of the property to which the plan applies in relation to existing or proposed highways, streets, streams, or otherwise.

(b) A statement that maps, plats, and a description of the brownfield plan are available for public inspection at a place designated in the notice and that all aspects of the brownfield plan are open for discussion at the public hearing required by this subsection.

(c) Any other information that the governing body considers appropriate.

(12) At the time set for the hearing on the brownfield plan required under subsection (10), the governing body shall provide an opportunity for interested persons to be heard and shall receive and consider communications in writing with reference to the brownfield plan. The governing body shall make and preserve a record of the public hearing, including all data presented at the hearing.

(13) Not less than 20 days before the hearing on the brownfield plan, the governing body shall provide notice of the hearing to the taxing jurisdictions that levy taxes subject to capture under this act. The authority shall fully inform the taxing jurisdictions about the fiscal and economic implications of the proposed brownfield plan. At that hearing, an official from a taxing jurisdiction with millage that would be subject to capture under this act has the right to be heard in regard to the adoption of the brownfield plan.

(14) The authority shall not enter into agreements with the taxing jurisdictions and the governing body of the municipality to share a portion of the captured taxable value of an eligible property. Upon adoption of the plan, the collection and transmission of the amount of tax increment revenues as specified in this act shall be binding on all taxing units levying ad valorem property taxes or specific taxes against property located in the zone.

(15) If a brownfield plan includes the capture of taxes levied for school operating purposes or the use of tax increment revenues related to a brownfield plan for the cost of eligible activities attributable to more than 1 eligible property that is adjacent and contiguous to all other eligible properties covered by the development agreement, whether or not the captured taxes are levied for school operating purposes, approval of a work plan by the Michigan economic growth authority before January 1, 2008 to use school operating taxes and a development agreement between the municipality and an owner or developer of eligible property are required if the revenues will be used for infrastructure improvements that directly benefit eligible property, demolition of structures that is not response activity under part 201 of the natural resources and environmental protection act, 1994 PA 451, MCL 324.20101 to 324.20142, lead or asbestos abatement, or site preparation that is not response activity under section 201 of the natural resources and environmental protection act, 1994 PA 451, MCL 324.20101. The eligible activities to be conducted described in this subsection shall be consistent with the work plan submitted by the authority to the Michigan economic growth authority. The department's approval is not required for the capture of taxes levied for school operating purposes for eligible activities described in this subsection.

(16) A brownfield authority may reimburse reasonable and actual administrative and operating expenses that include, but are not limited to, baseline environmental assessments, due care activities, and additional response activities, related directly to work conducted

by the authority on prospective eligible properties prior to approval of the brownfield plan and on eligible properties and for eligible activities after the approval of the brownfield plan, only from captured local taxes not to exceed $75,000.00 for each authority in each fiscal year. Reasonable and actual administrative and operating expenses do not include reasonable costs of preparing a work plan or remedial action plan or the cost of the review of a work plan for which taxes may be used under section 13(3).

125.2665 Prohibited conduct; work plan or remedial action plan; documents to be submitted for approval; factors to be considered in plan review; written request pertaining to baseline environmental assessment activities or due care activities; additional response activities; reimbursement of costs to review work plan or remedial action plan; report; distribution of remaining funds.

Sec. 15. (1) An authority shall not do any of the following:

(a) For eligible activities not described in section 13(15), use taxes levied for school operating purposes captured from eligible property unless the eligible activities to be conducted on the eligible property are eligible activities under part 201 of the natural resources and environmental protection act, 1994 PA 451, MCL 324.20101 to 324.20142, consistent with a work plan or remedial action plan approved by the department after July 24, 1996 and before January 1, 2008.

(b) For eligible activities not described in section 13(15), use funds from a local site remediation revolving fund that are derived from taxes levied for school operating purposes unless the eligible activities to be conducted are eligible activities under part 201 of the natural resources and environmental protection act, 1994 PA 451, MCL 324.20101 to 324.20142, consistent with a work plan or remedial action plan that has been approved by the department after July 24, 1996.

(c) Use funds from a local site remediation revolving fund created pursuant to section 8 that are derived from taxes levied for school operating purposes for the eligible activities described in section 13(15) unless the eligible activities to be conducted are consistent with a work plan approved by the Michigan economic growth authority.

(d) Use taxes captured from eligible property to pay for eligible activities conducted before approval of the brownfield plan except for costs described in section 13(16).

(e) Use taxes levied for school operating purposes captured from eligible property for response activities that benefit a party liable under section 20126 of the natural resources and environmental protection act, 1994 PA 451, MCL 324.20126.

(f) Use taxes captured from eligible property to pay for administrative and operating activities of the authority or the municipality on behalf of the authority except for costs described in section 13(16) and for the reasonable costs for preparing a work plan or remedial action plan for the eligible property, including the actual cost of the review of the work plan or remedial action plan under this section.

(2) To seek department approval of a work plan under subsection (1)(a) or (b) or remedial action plan, the authority shall submit all of the following for each eligible property:

(a) A copy of the brownfield plan.

(b) Current ownership information for each eligible property and a summary of available information on proposed future ownership, including the amount of any delinquent taxes, interest, and penalties that may be due.

(c) A summary of available information on the historical and current use of each eligible property, including a brief summary of site conditions and what is known about

environmental contamination as that term is defined in section 20101 of the natural resources and environmental protection act, 1994 PA 451, MCL 324.20101.

(d) Existing and proposed future zoning for each eligible property.

(e) A brief summary of the proposed redevelopment and future use for each eligible property.

(f) A separate work plan or remedial action plan, or part of a work plan or remedial action plan, for each eligible activity to be undertaken.

(3) Upon receipt of a request for approval of a work plan or remedial action plan under subsection (2) that pertains to baseline environmental assessment activities or due care activities, or both, or a portion of a work plan or remedial action plan that pertains to only baseline environmental assessment activities or due care activities, or both, the department shall provide 1 of the following written responses to the requesting authority within 60 days:

(a) An unconditional approval.

(b) A conditional approval that delineates specific necessary modifications to the work plan or remedial action plan, including, but not limited to, individual activities to be added or deleted from the work plan or remedial action plan and revision of costs.

(c) If the work plan or remedial action plan lacks sufficient information for the department to respond under subdivision (a) or (b), a letter stating with specificity the necessary additions or changes to the work plan or remedial action plan to be submitted before a plan will be considered by the department.

(4) In its review of a work plan or remedial action plan, the department shall consider all of the following:

(a) Whether the individual activities included in the work plan or remedial action plan are sufficient to complete the eligible activity.

(b) Whether each individual activity included in the work plan or remedial action plan is required to complete the eligible activity.

(c) Whether the cost for each individual activity is reasonable.

(5) If the department fails to provide a written response under subsection (3) within 60 days after receipt of a request for approval of a work plan or remedial action plan that pertains to baseline environmental assessment activities or due care activities, or both, the authority may proceed with the baseline environmental assessment activities or due care activities, or both, as outlined in the work plan or remedial action plan as submitted for approval. Except as provided in subsection (6), baseline environmental assessment activities or due care activities, or both, conducted pursuant to a work plan or remedial action plan that was submitted to the department for approval but for which the department failed to provide a written response under subsection (3) shall be considered approved for the purposes of subsection (1).

(6) The department may issue a written response to a work plan or remedial action plan that pertains to baseline environmental assessment activities or due care activities, or both, more than 60 days but less than 6 months after receipt of a request for approval. If the department issues a written response under this subsection, the authority is not required to conduct individual activities that are in addition to the individual activities included in the work plan or remedial action plan as it was submitted for approval and failure to conduct these additional activities shall not affect the authority's ability to capture taxes under subsection (1) for the eligible activities described in the work plan or remedial action plan initially submitted under subsection (5). In addition, at the option of

the authority, these additional individual activities shall be considered part of the work plan or remedial action plan of the authority and approved for purposes of subsection (1). However, any response by the department under this subsection that identifies additional individual activities that must be carried out to satisfy the baseline environmental assessment or due care requirements, or both, of part 201 of the natural resources and environmental protection act, 1994 PA 451, MCL 324.20101 to 324.20142, must be satisfactorily completed for the baseline environmental assessment or due care activities, or both, to be considered acceptable for the purposes of compliance with part 201 of the natural resources and environmental protection act, 1994 PA 451, MCL 324.20101 to 324.20142.

(7) If the department issues a written response under subsection (6) to a work plan or remedial action plan that pertains to baseline environmental assessment activities or due care activities, or both, and if the department's written response modifies an individual activity proposed by the work plan or remedial action plan of the authority in a manner that reduces or eliminates a proposed response activity, the authority must complete those individual activities included in the baseline environmental assessment or due care activities, or both, in accordance with the department's response in order for that portion of the work plan or remedial action plan to be considered approved for purposes of subsection (1), unless 1 or more of the following conditions apply:

(a) Obligations for the individual activity have been issued by the authority, or by a municipality on behalf of the authority, to fund the individual activity prior to issuance of the department's response.

(b) The individual activity has commenced or payment for the work has been irrevocably obligated prior to issuance of the department's response.

(8) It shall be in the sole discretion of an authority to propose to undertake additional response activities at an eligible property under a brownfield plan. The department shall not require a work plan or remedial action plan for either baseline environmental assessment activities or due care activities, or both, to include additional response activities.

(9) The department may reject the portion of a work plan or remedial action plan that includes additional response activities and may consider the level of risk reduction that will be accomplished by the additional response activities in determining whether to approve or reject the work plan or remedial action plan or a portion of a plan.

(10) The department's approval or rejection of a work plan under subsection (1)(a) or (b) or remedial action plan for additional response activities is final.

(11) The authority shall reimburse the department for the actual cost incurred by the department or a contractor of the department to review a work plan under subsection (1)(a) or (b) or remedial action plan under this section. Funds paid to the department under this subsection shall be deposited in the cost recovery subaccount of the cleanup and redevelopment fund created under section 20108 of the natural resources and environmental protection act, 1994 PA 451, MCL 324.20108.

(c) The amount of revenue each local governmental unit would have received if taxes levied for school operating purposes had not been captured under this section for the previous calendar year.

(13) To seek Michigan economic growth authority approval of a work plan under subsection (1)(c) or section 13(15), the authority shall submit all of the following for each eligible property:

(c) A summary of available information on the historical and current use of each eligible property.

(d) Existing and proposed future zoning for each eligible property.

(e) A brief summary of the proposed redevelopment and future use for each eligible property.

(f) A separate work plan, or part of a work plan, for each eligible activity described in section 13(15) to be undertaken.

(g) A copy of the development agreement required under section 13(15), which shall include, but is not limited to, a detailed summary of any and all ownership interests, monetary considerations, fees, revenue and cost sharing, charges, or other financial arrangements or other consideration between the parties.

(a) An unconditional approval that includes an enumeration of eligible activities and a maximum allowable capture amount.

(b) A conditional approval that delineates specific necessary modifications to the work plan, including, but not limited to, individual activities to be added or deleted from the work plan and revision of costs.

(c) A denial and a letter stating with specificity the reason for the denial. If a work plan is denied under this subsection, the work plan may be subsequently resubmitted.

(15) In its review of a work plan under subsection (1)(c) or section 13(15), the Michigan economic growth authority shall consider the following criteria to the extent reasonably applicable to the type of activities proposed as part of that work plan when approving or denying a work plan:

(a) Whether the individual activities included in the work plan are sufficient to complete the eligible activity.

(b) Whether each individual activity included in the work plan is required to complete the eligible activity.

(c) Whether the cost for each individual activity is reasonable.

(d) The overall benefit to the public.

(e) The extent of reuse of vacant buildings and redevelopment of blighted property.

(f) Creation of jobs.

(g) Whether the eligible property is in an area of high unemployment.

(h) The level and extent of contamination alleviated by or in connection with the eligible activities.

(i) The level of private sector contribution.

(j) The cost gap that exists between the site and a similar greenfield site as determined by the Michigan economic growth authority.

(k) If the developer or projected occupant of the new development is moving from another location in this state, whether the move will create a brownfield.

(*l*) Whether the financial statements of the developer, landowner, or corporate entity indicate that the developer, landowner, or corporate entity is financially sound and that the project of the developer, landowner, or corporate entity that is included in the work plan is economically sound.

(m) Other state and local incentives available to the developer, landowner, or corporate entity for the project of the developer, landowner, or corporate entity that is included in the work plan.

(n) Any other criteria that the Michigan economic growth authority considers appropriate for the determination of eligibility or for approval of the work plan.

(16) If the Michigan economic growth authority fails to provide a written response under subsection (14) within 65 days after receipt of a request for approval of a work plan, the eligible activities shall be considered approved and the authority may proceed with the eligible activities described in section 13(15) as outlined in the work plan as submitted for approval.

(17) The Michigan economic growth authority's approval of a work plan under section 13(15) is final.

(18) The authority shall reimburse the Michigan economic growth authority for the actual cost incurred by the Michigan economic growth authority or a contractor of the Michigan economic growth authority to review a work plan under this section.

(19) The Michigan economic growth authority shall submit a report each year on or before March 1 to each member of the legislature that contains all of the following:

38.1140h Applicable law; actuarial valuation; supplemental actuarial analysis; "proposed pension benefit change" defined.

Sec. 20h. (1) In addition to the provisions of this act, a system is subject to the applicable accounting and reporting requirements contained in the following acts and parts of acts:

(a) 1919 PA 71, MCL 21.41 to 21.55.

(b) The uniform budgeting and accounting act, 1968 PA 2, MCL 141.121 to 141.440a.

(c) Section 91 of the executive organization act of 1965, 1965 PA 380, MCL 16.191.

(2) Except as otherwise provided in subsection (4), a system shall have an annual actuarial valuation with assets valued on a market-related basis. A system shall prepare and issue a summary annual report. The system shall make the summary annual report available to the plan participants and beneficiaries and the citizens of the political subdivision sponsoring the system. The summary annual report shall include all of the following information:

(a) The name of the system.

(b) The names of the system's investment fiduciaries.

(c) The system's assets and liabilities.

(d) The system's funded ratio.

(e) The system's investment performance.

(f) The system's expenses.

(3) A system shall provide a supplemental actuarial analysis before adoption of pension benefit changes. The supplemental actuarial analysis shall be provided by the system's actuary and shall include an analysis of the long-term costs associated with any proposed pension benefit change. The supplemental actuarial analysis shall be provided to the board of the particular system and to the decision-making body that will approve the proposed pension benefit change at least 7 days before the proposed pension benefit change is adopted. For purposes of this subsection, "proposed pension benefit change" means a proposal to change the amount of pension benefits received by persons entitled to pension benefits under a system. Proposed pension benefit change does not include a proposed change to a health care plan or health benefits.

(4) A system that has assets of less than $20,000,000.00 is only required to have the actuarial valuation required under subsection (2) done every other year.

38.1140m Employer contribution.

Sec. 20m. The governing board vested with the general administration, management, and operation of a system or other decision-making body that is responsible for implementation and supervision of any system shall confirm in the annual actuarial valuation and the summary annual report required under section 20h(2) that each plan under this act provides for the payment of the required employer contribution as provided

in this section and shall confirm in the summary annual report that the system has received the required employer contribution for the year covered in the summary annual report. The required employer contribution is the actuarially determined contribution amount. An annual required employer contribution in a plan under this act shall consist of a current service cost payment and a payment of at least the annual accrued amortized interest on any unfunded actuarial liability and the payment of the annual accrued amortized portion of the unfunded principal liability. For fiscal years that begin before January 1, 2006, the required employer contribution shall not be determined using an amortization period greater than 40 years. For years that begin after December 31, 2005, the required employer contribution shall not be determined using an amortization period greater than 30 years. In a plan year, any current service cost payment may be offset by a credit for amortization of accrued assets, if any, in excess of actuarial accrued liability. A required employer contribution for a plan administered under this act shall allocate the actuarial present value of future plan benefits between the current service costs to be paid in the future and the actuarial accrued liability. The governing board vested with the general administration, management, and operation of a system or other decision-making body of a system shall act upon the recommendation of an actuary and the board and the actuary shall take into account the standards of practice of the actuarial standards board of the American academy of actuaries in making the determination of the required employer contribution.

This act is ordered to take immediate effect.

The People of the State of Michigan enact:

141.424 Annual financial report; contents; filing; extension; unauthorized investments prohibited; "pension" defined.

Sec. 4. (1) The chief administrative officer of each local unit shall make an annual financial report (local unit fiscal report) which shall be uniform for all local units of the same class.

(2) The annual financial report shall contain for each fiscal year, all of the following:

(a) An accurate statement in summarized form, showing the amount of all revenues from all sources, the amount of expenditures for each purpose, the amount of indebtedness, the fund balances at the close of each fiscal year, and any other information as may be required by law.

(b) A statement indicating whether there are derivative instruments or products in the local unit's nonpension investment portfolio at fiscal year end.

(c) If the statement under subdivision (b) is affirmative, an accurate schedule reporting the cost and fiscal year end market value of derivative instruments or products in the local unit's nonpension investment portfolio at fiscal year end. The information required under this subdivision shall be reported both on an aggregate basis and itemized by issuer and type of derivative instrument or product.

(d) A statement indicating whether there are derivative instruments or products in the local unit's pension investment portfolio at fiscal year end. Investments of defined contribution plans and deferred compensation plans that are chosen by the employee participating in the plan shall be excluded from the information reported under this subdivision.

(e) If the statement under subdivision (d) is affirmative, an accurate schedule reporting the cost and fiscal year end market value of derivative instruments or products in the local unit's pension investment portfolio at fiscal year end. The information required under this subdivision shall be reported both on an aggregate basis and itemized by issuer and type of derivative instrument or product. Investments of defined contribution plans and deferred compensation plans that are chosen by the employee participating in the plan shall be excluded from the information reported under this subdivision.

The state treasurer shall prescribe the forms to be used by local units for preparation of the financial reports. The state treasurer may require that an annual financial report by the pension system for any defined benefit plan of the local unit be submitted in electronic format after timely notice by the state treasurer. The chief administrative officer of a local unit may request an extension of the filing date from the state treasurer, and the state treasurer may grant the request for reasonable cause. If the local unit of government requests an extension of the filing deadline, then the local unit of government must provide to the department of treasury the unadjusted year end trial balance reports, in a form and manner as prescribed by the department of treasury, to the department of treasury at the time the local unit of government requests the extension. The department of treasury shall post these unadjusted year end trial reports on the department's internet website if the extension is granted.

(4) This section does not authorize a local unit to make investments not otherwise authorized by law.

AN ACT to amend 1851 PA 156, entitled "An act to define the powers and duties of the county boards of commissioners of the several counties, and to confer upon them certain local, administrative and legislative powers; and to prescribe penalties for the

violation of the provisions of this act," by amending section 12a (MCL 46.12a), as amended by 1998 PA 502.

The People of the State of Michigan enact:

46.12a Insurance; pension or retirement plan; effect of collective bargaining agreement; reemployment of retirant; adjusted pension or retirement benefit; payment of benefits subject to eligible domestic relations order; effect of divorce from spouse named as retirant's survivor beneficiary on election of reduced retirement allowance; employee of credit union as member of plan; written policy.

Sec. 12a. (1) A county board of commissioners at a lawfully held meeting may do 1 or more of the following:

(a) Provide group life, health, accident and hospitalization, and disability coverage for a county employee, retired employee, or an employee of an office, board, or department of the county, including the board of county road commissioners, and a dependent of an employee, either with or without cost participation by the employee, and appropriate the necessary funds for the insurance. For a county with 100 employees or more, self-insure for health, accident and hospitalization, and group disability coverage for a county employee, retired employee, or an employee of an office, board, or department of the county, including the board of county road commissioners, and a dependent of an employee, either with or without cost participation by the employee, and appropriate the necessary funds.

(b) Adopt and establish a plan by which the county purchases or participates in the cost of an endowment policy or retirement annuity for a county employee or an employee of an office, board, or department of the county, including the board of county road commissioners, to provide monthly pension or retirement benefits for each employee 60 years of age or older in an amount not to exceed $150.00 per month or 2% of the average monthly earnings of the employee for 5 years immediately before retirement times the years of service of the employee, whichever is the lesser sum. As an option, a county board of commissioners may adopt and establish a plan by which the county pays pension or retirement benefits to a county employee or an employee of an office, board, or department of the county, including the board of county road commissioners, who has been employed for not less than 25 years, or who is 60 years of age or older and has been employed for not less than 5 years, in monthly payments not to exceed 2.5% of the employee's highest average monthly compensation or earnings received from the county or county road fund for 5 years of service times the total number of years of service of the employee, including a fraction of a year, not to exceed 3/4 of the average final compensation of the employee. A plan may also pay early retirement benefits at 55 years of age or older to the extent of actuarially equivalent benefits not increasing the costs of the plan. Except as provided in subsection (27), endowment policies, retirement benefits, pensions, or annuity retirement benefits in excess of the amounts stipulated in this subdivision may be provided for by a plan of employee participation to cover the cost of the excess. If the employment or the pension or retirement benefits of an employee who participated in the cost of pension or retirement benefits are terminated before the employee receives pension or retirement benefits equal to the total amount of the employee's participation, the balance of the total participation shall be refunded to the employee at the time of termination, if living, or if deceased, to the employee's heir, estate, legal representative, or designated beneficiary as provided in the plan adopted and

established by the county board of commissioners. If a terminated employee is subsequently rehired by the county, the employee may repay the amount of participation refunded to the employee upon the employee's termination, together with compound interest from the date of refund to the dates of repayment at the rates provided in the plan. As conditions for repayment, the plan may require return to employment for a period not to exceed 3 years and may require that repayment be completed within a period of not less than 1 year following return to employment. A plan adopted for the payment of retirement benefits or a pension shall grant benefits to an employee eligible for pension or retirement benefits according to a uniform scale for all persons in the same general class or classification. An employee shall not be denied benefits by termination of his or her employment after the employee becomes eligible for benefits under the plan and this section. An endowment policy or annuity purchased pursuant to this section shall be purchased from an insurer authorized to write endowment policies or annuities in this state.

(2) In a plan adopted under this section, at least 60% of the total pension or retirement benefit granted to an employee from county funds shall consist of a percentage not to exceed 2.5% of the employee's average final compensation times the employee's years of service and shall be granted to each employee eligible for retirement under the plan uniformly and without restriction or limitation other than those prescribed in this section. As used in this section:

(a) "Average final compensation" means the annual average of the highest actual compensation received by a county employee, other than a county employee who is a judge of a municipal court of record subject to subsection (20) or a judge subject to subsection (23), during a period of 5 consecutive years of service contained within the employee's 10 years of service immediately before the employee's retirement or a period of 5 years of service as specified in the plan. In a county that adopts a plan for granting longevity pay, the county board of commissioners may exclude this longevity pay from average final compensation for the purpose of computing the rate of employee contribution and the amount of benefits payable to an employee upon retirement.

(b) "Longevity pay" means increments of compensation payable at annual or semiannual intervals and based upon years of service to the county, exclusive of compensation provided for a given class of positions.

(3) A circuit court stenographer is eligible for membership in, and the benefits of, a pension or retirement benefit under a plan established pursuant to this section, or a social security plan established by the county or 1 of the counties that pays a portion of the compensation of a circuit court stenographer.

(4) If the employment of a county employee eligible to receive a pension or retirement benefit under a plan established pursuant to this section is terminated after the employee has completed 8 or more years of service in county employment, the employee shall receive the amount of pension or retirement benefit to which the employee's service would have entitled the employee under the plan established, if the employee waives the employee's right to a refund of the employee's total participation upon the termination of employment. The payment of pension or retirement benefits shall begin, as provided in the plan, after the employee would have become eligible for retirement under the plan had the employee's employment not been terminated, but not later than 90 days after the employee becomes 65 years of age. The payment of pension or retirement benefits shall not begin until the employee has applied for pension or retirement benefits in the manner prescribed in the plan established.

(5) A plan established under this section may provide for pension or retirement benefits for a county employee who becomes totally disabled for work in the county service from any cause, after not less than 10 years of county employment, to the extent of the limitations provided in this section. A plan may also provide for pension or retirement benefits to the extent of the limitations provided in this section or $400.00 per month, whichever is the greater sum, for an employee who becomes totally disabled for work in the county service from causes that are the direct and proximate result of county employment, to continue for the duration of the disability or until the employee becomes eligible for retirement pursuant to other provisions of the plan authorized by this section. A plan may also provide for pension or retirement benefits, to the extent of the limitations provided in this section, for the actual dependents of a county employee who dies while still employed by the county after not less than 10 years of county employment, or who dies after leaving county employment with not less than the number of years of service required to vest in the plan but before becoming eligible to receive a pension or retirement benefit. A plan may also provide for pension or retirement benefits to the extent of the limitations provided in this section or $400.00 per month, whichever is greater, for the actual dependents of a deceased county employee whose death is the direct and proximate result of county employment. The plan may provide that the period from the end of the deceased or disabled employee's period of service to the date that employee would have become eligible for retirement be used as service for the sole purpose of computing the amount of disability or death pension.

(6) As used in this section, "county employee" includes a bailiff of the district court in the thirty-sixth district who serves pursuant to section 8322 of the revised judicature act of 1961, 1961 PA 236, MCL 600.8322, and a person who receives more than 50% of all compensation for personal services, rendered to governmental units, from a county fund or county road fund, except a person, other than a bailiff of the district court in the thirty-sixth district, engaged for special services on a contract or fee basis. Until December 31, 1979, a plan adopted under this section may include as a county employee a person on leave of absence from county employment who is not a member of another retirement system except as a retirant and who pays or arranges payment of contributions equal to the contributions that would have been required to be paid under the plan by both the county and the employee, based upon the compensation the employee would have received from the county, if the employee had not taken a leave of absence or a person who complies with the requirements of such a provision approved for inclusion in a plan by the county board of commissioners before January 1, 1976, who shall be considered to be a county employee during the period of compliance. A plan adopted under this section may exclude a person who is employed on a temporary basis and a person employed in a position normally requiring less than 1,000 hours, or some lesser specified number of hours, work per year. A bailiff serving in the district court in the thirty-sixth district is eligible to receive benefits under this section if a plan has been established by law by which the cost of benefits is payable from sources including charges on all legal instruments in which the service of process by a bailiff is required and earmarked by law for benefits, and contributions made by the city of Detroit and each bailiff pursuant to section 8322(6) of the revised judicature act of 1961, 1961 PA 236, MCL 600.8322. The plan shall include provisions by which a bailiff or former bailiff who served as bailiff as of January 1, 1967, may retire after 25 years of service regardless of age, with maximum benefits to be computed as follows: starting as of January 1, 1969, the average of any 5 years of earnings of the previous 10 years served in succession before retirement multiplied by 1.9% times the years of service; starting as of June 1, 1975, the average of any 5 years of earnings multiplied by 2% times the years of service. As used in this subsection, "earnings" means the salary and fees, other than mileage, received by a bailiff pursuant to section 8322(5) of the revised judicature act of 1961, 1961 PA 236, MCL 600.8322. The plan shall include provisions by which health, accident, and hospitalization

insurance premiums may be paid out of the earnings of this fund. These payments shall be made at the discretion of the pension board of trustees. A county that has a retirement fund for bailiffs under this section shall annually review the retirement fund and shall ensure that the fund is maintained in an actuarially sound condition. Copies of the actuarial reports shall be provided to the employer designated under section 8274(2) or (3) of the revised judicature act of 1961, 1961 PA 236, MCL 600.8274, and to the state court administrator.

(7) An employee while receiving a pension or retirement benefit because of disability, pursuant to this section, may be considered as employed in the county service for the purpose of retirement under this section.

(8) A county employee who is included by law in another pension or retirement system by reason of the compensation the employee receives from the county may be excluded from a plan established under this section or included only to the extent of the difference between benefits granted under this section and the other pension or retirement system.

(9) The county board of commissioners, upon the request of a county employee, by not less than a 3/5 vote may credit that county employee with the amount of government service resulting from employment with the United States government, except military service, employment with a state, or employment with any of their political subdivisions under the following conditions:

(a) Employment by the county occurred within 15 years following the county employee's separation from service of the last unit of government by which the county employee was employed.

(b) Service rendered before the last break in service of more than 15 years shall not be credited.

(c) Service that is recognized for the purpose of a deferred retirement allowance under a retirement system or other employer-funded retirement benefit plan, except for a retirement benefit plan under the social security act, chapter 531, 49 Stat. 620, of the United States government, a state, or a political subdivision of a state shall not be credited if the county employee retired under a retirement system of the United States government, a state, or any of their political subdivisions or until the county employee irrevocably forfeits the right to the deferred retirement allowance.

(d) The county employee deposits in the plan established under this section an amount equal to the aggregate amount of contributions the county employee would have made had the service been acquired in the employ of the county, plus interest from the dates the contributions would have been made to the date of deposit, at rates determined by the county board of commissioners. If records are insufficient or unavailable to compute the exact amount of required deposit, the county board of commissioners may estimate the amount.

(e) The county employee has 8 or more years of credited service in county employment, has legal vesting in the county plan, and deposits in the county employees' retirement system an amount equal to the aggregate amount of contributions the employer would have made had the government service being credited under this section been acquired in the employ of the county.

(10) A plan adopted under this section may provide for annual or less frequent postretirement redetermination of a pension. The redetermined amount of pension shall be not greater than the amount of pension otherwise payable multiplied by the sum of 100% and the percentage the county board of commissioners determines appropriate for each full year, excluding a fraction of a year, in the period from the effective date of payments of the pension and the date as of which the redetermination is being made. The redetermined amount shall not be less than the amount of pension otherwise payable. A provision of this section that limits the amount of a pension shall not apply to the

operation of this subsection redetermining the amount of a pension. As used in this subsection, "the amount of pension otherwise payable" means the amount of pension that would be payable without regard to this subsection. The application of a provision redetermining pension amounts may be restricted to pensions that have an effective date of payment either before or after a specified date.

(11) The cost of pension or retirement benefits for a county employee under this section may be paid from the same fund from which the employee receives compensation, and the county board of commissioners may appropriate the necessary funds to carry out the purposes of this section. If a county establishes a plan by which the county pays pension or retirement benefits to an employee pursuant to this section, the county, pursuant to provisions for pension or retirement benefits that are incorporated in the plan, shall establish and maintain reserves on an actuarial basis in the manner provided in this subsection sufficient to finance the pension and retirement and death benefit liabilities under the plan and sufficient to pay the pension and retirement and death benefits as they become due. A county that adopts a retirement plan under this section and establishes reserves on an actuarial basis shall maintain the reserves as provided in this subsection. The reserves shall be determined by an actuarial valuation and established and maintained by yearly appropriations by the county and contributions by employees. The reserves shall be established, maintained, and funded to cover the pension and other benefits provided for in the plan in the same manner and within the same limits as to time as is provided for Benefit Program B in the municipal employees retirement system described in former section 14 of the municipal employees retirement act of 1984, 1984 PA 427. These reserves are trust funds and shall not be used for any other purpose than the payment of pension, retirement, and other benefits and refunds of employee contributions pursuant to the plan established in a county. An employee's contributions shall be kept and accumulated in a separate fund and used only for the payment of annuities and refunds to employees. This subsection does not apply to a county that adopted a retirement plan under this section and did not establish reserves on an actuarial basis before October 11, 1947.

(12) If a county establishes a plan for the payment of pension and retirement benefits to its employees pursuant to this section, the county board of commissioners may provide for a board of trustees to administer the plan and for the manner of election or appointment of the members of the board of trustees. The county board of commissioners may grant authority to the board of trustees to fully administer and operate the plan and to deposit, invest, and reinvest the funds and reserves of the plan within the limitations prescribed by the county board of commissioners in the plan. The county board of commissioners may authorize the investment of funds of a county retirement plan established under this section in anything in which the funds of the state employees' retirement system or the funds of the municipal employees retirement system may be invested, pursuant to the state employees' retirement act, 1943 PA 240, MCL 38.1 to 38.69, and the municipal employees retirement act of 1984, 1984 PA 427, MCL 38.1501 to 38.1555. A county retirement plan established under this section may provide for financing, funding, and the payment of benefits in the same manner and to the same extent as is provided for in the state employees' retirement act, 1943 PA 240, MCL 38.1 to 38.69, and the municipal employees retirement act of 1984, 1984 PA 427, MCL 38.1501 to 38.1555, may provide for and require contributions by county employees, and may permit additional employee contributions on a voluntary basis.

(13) Upon the approval of the county board of commissioners, a member who entered the armed service of the United States before June 1, 1980 or who entered the armed service of the United States on or after June 1, 1980 during a time of war or emergency condition as described in section 1 of 1965 PA 190, MCL 35.61, may elect to receive credited service for not more than 5 years of active military service. Credit for military

service shall be given upon request and payment to the retirement system of an amount equal to 5% of the member's full-time or equated full-time annual compensation for the year in which payment is made multiplied by the number of years, and fraction of a year, of credited service that the member elects to purchase up to the maximum. Service shall not be credited if the service is or would be credited under any other federal, state, or local publicly supported retirement system, except for service that is or would be credited under the federal government for services in the reserve. Service shall not be credited under this subsection until the member has the number of years of credited service needed to vest under the plan. Only completed years and months of armed service shall be credited under this subsection.

(14) A member who enters or entered any armed service of the United States may purchase credited service for periods of continuous active duty lasting 30 days or more, subject to the following conditions:

(a) The county board of commissioners authorizes the purchase of credited service under this subsection by an affirmative vote of a majority of the members of the county board of commissioners. The county board of commissioners shall establish a written policy to implement the provisions of this subsection in order to provide uniform application of this subsection to all members of the plan.

(b) The member has at least the number of years of credited service needed to vest under the plan, not including any credited service purchased under this subsection and subsection (13).

(c) The member pays the plan 5% of the member's annual compensation multiplied by the period of credited service being purchased. As used in this subdivision, "annual compensation" means the aggregate amount of compensation paid the member during the 4 most recent calendar quarters for each of which the member was credited 3/12 of a year of credited service.

(d) Fractional months of armed service shall not be recognized for the purposes of this subsection.

(e) Armed service credited a member under subsection (13) shall not be the basis of credited service under this section.

(f) Armed service credited a member under this subsection shall not exceed either 5 years or the difference between 5 years and the armed service credited the member under subsection (13).

(g) Credited service shall not be granted for periods of armed service that are or could be used for obtaining or increasing a benefit from another retirement system, except for service that is or would be credited under the federal government for services in the reserve.

(15) As used in this subsection, "transitional public employment program" means a public service employment program in the area of environmental quality, health care, education, public safety, crime prevention and control, prison rehabilitation, transportation, recreation, maintenance of parks, streets, and other public facilities, solid waste removal, pollution control, housing and neighborhood improvements, rural development, conservation, beautification, veterans' outreach, or any other area of human betterment and community improvement as part of a program of comprehensive manpower services authorized, undertaken, and financed pursuant to the former comprehensive employment and training act of 1973, Public Law 93-203. A person participating in a transitional public employment program shall not be eligible for membership in a retirement system or pension plan established under this section. If the person later becomes a member of a retirement system or pension plan established under this section within 12 months after the date of termination as a participant in a transitional public employment program, service credit shall be given for employment in the transitional public employment

program for purposes of determining a retirement allowance upon the payment by the person and the person's employer under the transitional public employment program from funds provided under the former comprehensive employment and training act of 1973, Public Law 93-203, as funds permit, to the retirement system of the contributions, plus regular interest, the person and the employer would have paid had the employment been rendered in a position covered by this section. During the person's employment in the transitional public employment program, the person's employer shall provide an opportunity by payroll deduction for the person to make his or her employee contribution to the applicable pension system. To provide for the eventual payment of the employer's contribution, the person's employer shall during this same period place in reserve a reasonable but not necessarily an actuarially determined amount equal to the contributions that the employer would have paid to the retirement system for those employees in the transitional public employment program as if they were members under this section, but only for that number of employees that the employer determined would transfer from the transitional public employment program into positions covered by this section. If the funds provided under the former comprehensive employment and training act of 1973, Public Law 93-203, are insufficient, the remainder of the employer contributions shall be paid by the person's current employer.

(16) Subsection (15) does not exclude the participant in a transitional public employment program from the accident, disability, or other benefits available to members of the retirement system covered by this section.

(17) If a probate judge who is a member of a plan established under this section contributes for 20 years or more, the county board of commissioners may allow the probate judge to cease further contributions.

(18) An employee of the circuit court in the third judicial circuit, the common pleas court of the city of Detroit, or the recorder's court of the city of Detroit who became an employee of the state judicial council on September 1, 1981, and who was 44 years of age or older as of that date, and who will have accumulated 25 or more years of service credit by September 1, 1987, shall continue to be eligible for membership in, and the benefits of, a pension or retirement benefit plan established pursuant to this section in the same manner as the employee was eligible before September 1, 1981. A person who was an employee of the circuit court in the third judicial circuit, the common pleas court of the city of Detroit, or the recorder's court of the city of Detroit on August 31, 1981, who last entered county employment before November 2, 1956, who became an employee of the state judicial council on September 1, 1981, and who accumulated not less than 24 years of service credit by August 31, 1981, shall continue to be eligible for membership in, and the benefits of, a pension or retirement benefit plan established pursuant to this section in the same manner as the employee was eligible before September 1, 1981. An election to continue to be a member of a pension or retirement benefit plan established pursuant to this section as authorized by section 594(2) of the revised judicature act of 1961, 1961 PA 236, MCL 600.594, as that section read on February 8, 1985, or former section 36(2) of 1919 PA 369, is not effective unless the employee has made the election in the manner prescribed by those sections and has made the payments required by those sections.

(19) A plan adopted under this section may provide that an employee of the circuit court in the third judicial circuit, the common pleas court of the city of Detroit, or the recorder's court of the city of Detroit who is a member of the Wayne county employees' retirement system on August 31, 1981, who becomes an employee of the state judicial council and a member of the state employees' retirement system on September 1, 1981, receive a benefit based on the annual average of the highest actual compensation received by the employee during a period of 5 years of county or state service.

If the election of a reduced retirement allowance form of payment is considered void by the retirement system under this subsection, the retirant's retirement allowance shall revert to a straight life retirement allowance, including postretirement adjustments, if any, subject to an award or order of the court. The retirement allowance shall revert to a straight life retirement allowance under this subsection effective the first of the month after the date the retirement system receives a certified copy of the judgment of divorce or award or order of the court. This subsection does not supersede a judgment of divorce or award or order of the court in effect on July 18, 1991. This subsection does not require the retirement system to distribute or pay retirement assets on behalf of a retirant in an amount that exceeds the actuarially determined amount that would otherwise become payable if a judgment of divorce had not been rendered.

(10) A person who violates the confidentiality provisions of this section is guilty of a misdemeanor.

(11) A fatality review team, any member of a fatality review team, any individual providing information to a fatality review team, or any other person or agency acting within the scope of this section is immune from all civil liability resulting from an act or omission arising out of and in the course of the team's, member's, individual's, person's, or agency's performance of that activity, unless the act or omission was the result of gross negligence or willful misconduct. The People of the State of Michigan enact:

380.1231 Hiring of teachers; teachers' contracts generally.

Sec. 1231. (1) The board of a school district shall hire and contract with qualified teachers. Contracts with teachers shall be in writing and signed on behalf of the school district by a majority of the board, by the president and secretary of the board, or by the superintendent of schools or an authorized representative of the board. The contracts shall specify the wages agreed upon.

(2) A teacher's contract shall be filed with the secretary of the board and a duplicate copy of the contract shall be furnished to the teacher.

(3) Except as otherwise provided under this act, a contract with a teacher is not valid unless the person holds a valid teaching certificate at the time the contractual period begins. A contract shall terminate if the certificate expires by limitation and is not renewed immediately or if it is suspended or revoked by proper legal authority.

(4) The board of a school district, after a teacher has been employed at least 2 consecutive years by the board, may enter into a continuing contract with a certificated teacher.

(5) As used in this section, "teacher" does not include a substitute teacher.

380.1236 Substitute teachers; leave time, salary, and privileges; applicability of subsections (1) and (2); contract; "day" defined.

Sec. 1236. (1) Subject to subsection (3), if a teacher is employed as a substitute teacher with an assignment to 1 specific teaching position, then after 60 days of service in that assignment the teacher shall be granted for the duration of that assignment leave time and other privileges granted to regular teachers by the school district, including a salary not less than the minimum salary on the current salary schedule for that district.

(2) Subject to subsections (3) and (4), a teacher employed as a substitute teacher for 150 days or more during a legal school year of not less than 180 days, or employed as a substitute teacher for 180 days or more by an intermediate school district that operates any program for 220 days or more as required by administrative rule, shall be given during the balance of the school year or during the next succeeding legal school year only the first opportunity to accept or reject a contract for which the substitute teacher is certified, after all other teachers of the school district are reemployed in conformance with the terms of a master contract of an authorized bargaining unit and the employer.

(3) Subsections (1) and (2) do not apply to a substitute teacher who is contracted or employed by a person or entity that contracts with a school district or intermediate school district pursuant to section 1236a.

(4) Subsection (2) does not apply to a substitute teacher who is fulfilling the teaching duties of a teacher who is unable to teach due to a terminal illness.

(5) As used in this section, "day" means the working day of the regular, full-time teacher for whom the substitute teacher substitutes. A quarter-day, half-day, or other fractional day of substitute service shall be counted only as that fraction. However, a fraction of a day that is acknowledged by the school district and paid as a full day shall be counted as a full day for purposes of this section.

380.1236a Person or entity furnishing substitute teachers; contract; "entity" defined.

Sec. 1236a. (1) The board of a school district or intermediate school district may enter into a contract with a person or entity to furnish substitute teachers to the school district or intermediate school district as necessary to carry out the operations of the school district or intermediate school district.

(2) A contract entered into under this section shall include the following provisions:

(a) Assurance that the person or entity will furnish the school district or intermediate school district with qualified teachers in accordance with this act and rules promulgated under this act.

(d) A description of the type and amounts of insurance coverage to be secured and maintained by the person or entity and the school district or intermediate school district under the contract.

(e) Assurance that the person or entity, before assigning an individual to serve as a substitute teacher in the school district or intermediate school district, will comply with sections 1230 and 1230a with respect to that individual to the same extent as if the person or entity were a school district employing the individual as a substitute teacher and will provide the board of the school district or intermediate school district with the criminal history record information obtained under section 1230 and with the results of the criminal records check under section 1230a. The department of state police shall provide information to a person or entity requesting information under this subdivision to the same extent as if the person or entity were a school district making the request under section 1230 or 1230a.

(3) A school district or intermediate school district that contracts with a person or entity to furnish substitute teachers under this section may purchase liability insurance to indemnify and protect the school district or intermediate school district and the person or entity against losses or liabilities incurred by the school district or intermediate school district and person or entity arising out of any claim for personal injury or property damage caused by the school district or intermediate school district, its officers, employees, or agents. A school district or intermediate school district may pay premiums for the insurance out of its operating funds. The existence of any policy of insurance indemnifying the school district or intermediate school district and person or entity against liability for damages is not a waiver of any defense otherwise available to the school district or intermediate school district in the defense of the claim.

(b) The student graduated from high school or passed the general educational development (GED) test or other graduate equivalency examination approved by the state board within 1 of the following time periods:

(*i*) If the student graduated from high school or passed the test or examination before March 1, 2002, within the 7-year period preceding the student's application to receive his or her Michigan merit award scholarship money.

(*ii*) If the student graduated on or after March 1, 2002, within the 4-year period preceding the date of the student's application to receive his or her Michigan merit award scholarship money, or if the student becomes a member of the United States armed forces or peace corps during this 4-year period and serves for 4 years or less, the 4-year period is extended by a period equal to the number of days the student served as a member of the United States armed forces or peace corps. The board may also extend the 4-year period if the board determines that an extension is warranted because of an illness or disability of the student or in the student's immediate family or another family emergency.

(c) The student is enrolled in an approved postsecondary educational institution. For students who qualify under subsection (2)(c), the student is enrolled in a vocational or technical education program at an approved postsecondary educational institution.

(d) The student has not been convicted of a felony involving an assault, physical injury, or death.

(e) The student satisfies any additional eligibility requirements established by the board.

(5) In any fiscal year, the board may adjust the amount of a Michigan merit award scholarship available to students eligible under 1 or more of subsections (2), (3), and (9), based upon its determination of available resources and amounts appropriated, but the board shall not increase an amount by more than 5% in any fiscal year. The board shall notify the governor, the speaker of the house of representatives, and the majority leader of the senate in writing at least 30 days before an adjustment under this subsection.

(6) For assessment tests administered after January 1, 2000, the board shall not use the assessment test to determine eligibility for a Michigan merit award scholarship under this section for a particular year unless the board has reviewed and approved the assessment test before it was administered for that year.

(7) The board shall provide each student written notice of whether or not the student is eligible for the award of 1 or more Michigan merit award scholarships described in this section. If the student is eligible, the written notice shall also contain the Michigan merit award scholarship amount for which the student is eligible, how the student applies for payment of Michigan merit award scholarship, and any other information the board considers necessary regarding qualification requirements or conditions relating to the use of the Michigan merit award scholarship.

(8) It is the intent of the legislature that the level of student performance required to achieve qualifying results in a subject area of an assessment test remains approximately the same, and that the board not reduce the required level of student performance as a means of increasing the number of Michigan merit award scholarships awarded.

(9) If a student who has previously received a $1,000.00 Michigan merit award scholarship as a student enrolled in an approved postsecondary educational institution outside of this state other than a service academy enrolls in an approved postsecondary educational institution in this state and meets the requirements of subsection (4), and subject to adjustment under subsection (5), the student is eligible for the award of an additional $1,500.00 Michigan merit award scholarship.

(10) A pupil who does not initially receive qualifying results shall be extended an opportunity to achieve the requisite qualifying results by taking a subsequent assessment test.

(11) A nonpublic school student or home school student may take, and the board shall administer if requested, an assessment test at a site designated by the board.

390.1458 Scholarship; use; payment; installments; consideration in determining financial aid program; certification or affirmation by student; request or application for payment.

Sec. 8. (1) A Michigan merit award scholarship shall be used only to pay for eligible costs. The board shall determine the manner and form of application for payment of a Michigan merit award scholarship by a student eligible under section 7 and the procedure for payment to the student or to the approved postsecondary educational institution on the student's behalf. As determined by the board, upon the request of a student or parent or legal guardian of a minor student, the board may pay a Michigan merit award scholarship in 2 consecutive annual installments rather than 1 lump sum for a student who

graduates from high school or passes the general educational development (GED) test or approved graduate equivalency examination before March 1, 2003. For each student who graduates from high school or passes the general educational development (GED) test or approved graduate equivalency examination on or after March 1, 2003, the board shall pay a Michigan merit award scholarship in 2 consecutive annual installments, beginning in the state fiscal year for which the student is otherwise eligible under section 7. The first installment shall not exceed 50% of the award amount, and the second installment shall consist of the remaining award amount. Verification that the student has met the enrollment criteria under section 7(4)(c) is required prior to issuance of the second installment.

(2) An approved postsecondary educational institution shall not consider a Michigan merit award scholarship in determining a student's eligibility for a financial aid program administered by this state. It is the intent of the legislature that an approved postsecondary educational institution not reduce institutionally-funded student aid because of the Michigan merit award scholarship program.

(3) Before payment of a Michigan merit award scholarship to a student or approved postsecondary educational institution, the student shall certify or affirm in writing to the board each of the following:

(a) That the student is enrolled at an approved postsecondary educational institution.

(b) The name of the approved postsecondary educational institution in which the student is enrolled.

(c) That the student agrees to use the Michigan merit award scholarship only for eligible costs.

(d) That the student has not been convicted of a felony involving an assault, physical injury, or death.

(e) That the student graduated from high school or passed the general educational development (GED) test or approved graduate equivalency examination within 1 of the following time periods:

(*i*) If the student graduated from high school or passed the test or examination before March 1, 2002, within the 7-year period preceding the date of the student's application to receive his or her Michigan merit award scholarship.

(*ii*) If the student graduated on or after March 1, 2002, within the 4-year period preceding the date of the student's application to receive his or her Michigan merit award scholarship, or within a period equal to 4 years plus the number of days the student served as a member of the United States armed forces or peace corps if the student became a member of the United States armed forces or peace corps during this 4-year period and served for 4 years or less. The board may also extend the 4-year period if the board determines that an extension is warranted because of an illness or disability of the student or in the student's immediate family or another family emergency.

(4) The board shall not begin disbursing funds for a Michigan merit award scholarship to a student or an approved postsecondary educational institution on behalf of the student unless it receives the request or application for payment, including the written certification or affirmation described in this section, from the student on or before January 15 in the 2002-2003 academic year, and September 15 in any other academic year, for disbursement in that academic year.

This act is ordered to take immediate effect.

Sec. 151e. (1) The money in the juror compensation reimbursement fund shall be distributed each year as provided in this section.

(2) Each court funding unit shall submit a report semiannually to the state court administrator, for each court for which it is a funding unit, giving the total amount of the expense incurred during the fiscal year by that funding unit due to the increase in the statutory minimum compensation rate for jurors that took effect October 1, 2003, pursuant to section 1344. (4) Each court funding unit is entitled to receive reimbursement from the fund for the expense amount reported under subsection (2) for the preceding 6 months, excluding any juror compensation in excess of the statutory minimum.

(5) Payments from the fund shall be made every 6 months. Reimbursement for each 6-month period beginning with the quarter that ends March 31, 2004 shall be made from the fund not later than 2 months after the end of the 6-month period.

(6) In addition to the amounts to be paid out under subsection (5) for the 6-month period ending March 31, 2004 and for the 6-month period ending September 30, 2004, the state court administrator shall pay an additional sum equal to 14% of the payment due under subsection (5) to each court funding unit. These 2 extra payments are intended to offset expenses incurred by court funding units for costs in adapting to the changes in the statutory minimum rate for juror compensation as implemented by the 2002 amendatory act that amended section 1344.

Sec. 11. (1) There is created the employees' savings fund, employer's accumulation fund, annuity reserve fund, pension reserve fund, income fund, expense fund, and health insurance reserve fund.

(2) The employees' savings fund is the fund in which shall be accumulated at regular interest the contributions to the retirement system deducted from the compensation of members. The retirement board shall provide for the maintenance of an individual account for each member that shows the amount of the member's contributions together with interest on those contributions. The accumulated contributions of a member returned to the member upon his or her withdrawal from service, or paid to the member's estate or designated beneficiary in the event of the member's death, as provided in this act, shall be paid from the employees' savings fund. Any accumulated contributions not claimed by a member or the member's legal representative as provided in this act within 5 years after the member's separation from state service shall be transferred from the employees' savings fund to the income fund. The accumulated contributions of a member, upon the member's retirement, shall be transferred from the employees' savings fund to the pension reserve fund.

(3) The employer's accumulation fund is the fund in which shall be accumulated the reserves derived from money provided by this state for the payment of all retirement allowances to be payable to retirants and beneficiaries as provided in this act. The amounts paid by this state shall be credited to the employer's accumulation fund. Upon the retirement of a member, or upon the member's death, if a beneficiary is entitled to a retirement allowance payable from funds of the retirement system, the difference between the reserve for the retirement allowance to be paid on account of the member's retirement or death and the member's accumulated contributions standing to his or her credit in the employees' savings fund at the time of his or her retirement or death shall be transferred from the employer's accumulation fund to the pension reserve fund. If, in any year, the pension reserve fund is insufficient to cover the reserves for retirement allowances and other benefits being paid from the fund, the amount or amounts of the insufficiency or insufficiencies shall be transferred from the employer's accumulation fund to the pension reserve fund.

(4) The annuity reserve fund is the fund from which shall be paid all annuities, or benefits in lieu of annuities, because of which reserves have been transferred from the employees' savings fund to the annuity reserve fund. Upon the adoption of this act, the balance in the annuity reserve fund shall be transferred to the pension reserve fund, and the annuities heretofore payable from the annuity reserve fund shall thereafter become payable from the pension reserve fund.

(5) The pension reserve fund is the fund from which shall be paid all retirement allowances and benefits in lieu of pensions, as provided in this act. For a disability retirant returned to active service with this state, his or her pension reserve, computed as of the date of return, shall be transferred from the pension reserve fund to the employees' savings fund and the employer's accumulation fund in the proportion that this reserve, as of the date of his or her retirement, was transferred to the pension reserve fund from the employees' savings fund and from the employer's accumulation fund. The amounts

transferred to the employees' savings fund under this section shall be credited to the member's individual account in the fund.

(6) An income fund is created for the purpose of crediting regular interest on the amounts in the various other funds of the retirement system with the exception of the expense fund, and to provide a contingent fund out of which special requirements of any of the other funds may be covered. Transfers for special requirements shall be made only when the amount in the income fund exceeds the ordinary requirements of the fund as evidenced by a resolution of the retirement board recorded in its minutes. The retirement board shall annually allow regular interest for the preceding year to each of the funds enumerated in subsections (2), (3), (4), (5), and (8), and the amount allowed under this subsection shall be due and payable to each of these funds and shall be annually credited to the funds by the retirement board and paid from the income fund. However, interest on contributions from members within a calendar year shall begin on the first day of the next calendar year, and shall be credited at the end of the calendar year. Except as provided in this subsection, income, interest, and dividends derived from the deposits and investments authorized by this act shall be paid into the income fund. The retirement system shall determine the share of income, interest, and dividends attributable to the balance in the health advance funding subaccount created under subsection (9) and the share of income, interest, and dividends attributable to the health advance funding subaccount balance shall be paid into the health advance funding subaccount. The retirement board is authorized to accept gifts and bequests. Any funds that come into the possession of the retirement system as a gift or bequest, or any funds that may be transferred from the employees' savings fund by reason of lack of claimant, or because of a surplus in any fund created by this act, or any other money the disposition of which is not otherwise provided for in this act shall be credited to the income fund.

(7) The expense fund is the fund from which shall be paid the expenses of the administration of this act, exclusive of amounts payable as retirement allowances and other benefits provided for in this act. The legislature shall appropriate the funds necessary to defray and cover the expenses of administering this act.

(8) The health insurance reserve fund is the fund into which appropriations made by the legislature, subscriber co-payments, and payments by the retirement system under section 68 for health, dental, and vision insurance premiums are paid. Health, dental, and vision insurance premiums payable pursuant to sections 20d and 68 shall be paid from the health insurance reserve fund. The assets and any earnings on the assets contained in the health insurance reserve fund and the health advance funding subaccount described in subsection (9) are not to be treated as pension assets for any purpose.

(9) The health advance funding subaccount is the account to which amounts transferred pursuant to sections 20d, 38(6), and 52 are credited. Any amounts received in the health advance funding subaccount and accumulated earnings on those amounts shall not be expended until the actuarial accrued liability for health benefits under section 20d is at least 100% funded. The department may expend funds or transfer funds to another account to expend for health benefits under section 20d if the actuarial accrued liability for health benefits under section 20d is at least 100% funded. For each fiscal year after the fiscal year in which the actuarial accrued liability for health benefits under section 20d is at least 100% funded by the health advance funding subaccount, amounts received in the health advance funding subaccount and accumulated earnings on those amounts may be expended or credited to fund health benefits under section 20d as provided in section 38(3). For the fiscal year ending on September 30, 2003 only, the general fund portion of all amounts received in the health advance funding subaccount as of October 1, 2002 and accumulated earnings on those amounts shall be transferred to the general fund. Notwith-

standing any other provision of this section, the department may transfer amounts from the health advance funding subaccount to the employer's accumulation fund created under this section if the department does both of the following:

(a) At least 45 days before the intended transfer, submits a request to the chairs of the senate and house appropriations committees and, at least 15 days before the intended transfer, obtains the approval of both the senate and house appropriations committees.

(b) Ensures that the request submitted to the senate and house appropriations committees contains an actuarial valuation prepared pursuant to section 38 that demonstrates that as of the beginning of a fiscal year, and after all credits and transfers required by this act for the previous fiscal year have been made, the sum of the actuarial value of assets and the actuarial present value of future normal cost contributions does not exceed the actuarial present value of benefits.

(10) The description of the various funds in this section shall be interpreted to refer to the accounting records of the retirement system and not to the segregation of assets credited to the various funds of the retirement system.

38.13 Membership in retirement system.

Sec. 13. (1) Except as otherwise provided in this act, membership in the retirement system consists of state employees occupying permanent positions in the state civil service. All state employees except those specifically excluded by law and those who are members or eligible to be members of other statutory retirement systems in this state, shall become members of the retirement system. The employees may use service previously performed as an employee of this state in meeting the service requirements for the retirement allowances and death benefits provided by the retirement system. However, the prior service shall not be used in computing the amount of a retirement allowance to be paid by the retirement system unless the employee pays to the retirement system the amount the employee's contributions would have been had the employee become a member immediately upon employment by the state with interest compounded annually at the regular rate from a date 1 year after the date of employment by this state to the date of payment. A person who draws compensation as a state employee of a political subdivision of this state is eligible for the benefits provided by this act to the extent of the person's compensation paid by this state. An individual who meets the requirements of section 44a is a member of the retirement system.

(2) Elected or appointed state officials may elect not to become or continue as members of the retirement system by filing written notice with the retirement board. An appointed state official who is a member of a state board, commission, or council and who receives a per diem rate in his or her capacity as a member of the board, commission, or council is excluded from membership in the retirement system for the service rendered in his or her capacity as a member of the board, commission, or council. Service performed by an elected or appointed official during the time the official elects not to participate shall not be used in meeting the service requirement or in computing the amount of retirement allowance to be paid by the retirement system. A member who elects not to participate shall be refunded all contributions made before the election.

(3) Membership in the retirement system does not include any of the following:

(a) A person who is a contributing member in the public school employees' retirement system provided for in the public school employees retirement act of 1979, 1980 PA 300, MCL 38.1301 to 38.1408.

(b) A person who is a contributing member in the Michigan judges retirement system provided for in the judges retirement act of 1992, 1992 PA 234, MCL 38.2101 to 38.2670.

(c) A person who comes within the Michigan state police retirement system provided for in the state police retirement act of 1986, 1986 PA 182, MCL 38.1601 to 38.1648.

(d) An individual who is first employed and entered upon the payroll on or after March 31, 1997 for employment for which the individual would have been eligible for membership under this section before March 31, 1997. An individual described in this subdivision is eligible to be a qualified participant in Tier 2 subject to sections 50 to 69.

(e) Except as provided in section 19g, an individual who elects to terminate membership under section 50 and who, but for that election, would otherwise be eligible for membership in Tier 1 under this section.

(f) A retirant who again becomes employed by the state and is entered upon the payroll on or after December 1, 2002, for employment for which the retirant would have been eligible for membership under this section before December 1, 2002. A retirant described in this subdivision shall be a qualified participant in Tier 2 subject to sections 50 to 69.

(4) A person who is hired in state classified or unclassified service after June 30, 1974, who is first employed and entered upon the payroll before March 31, 1997, and who possesses a Michigan teaching certificate shall be a member of this retirement system. After June 30, 1974, but before March 31, 1997, a person who returns to state employment in the classified or unclassified service who previously was a contributing member of the Michigan public school employees' retirement system shall have the person's accumulated contributions and service transferred to this retirement system, or having withdrawn the contributions, may pay into the retirement system the amount withdrawn together with regular interest and have credit restored as provided for in section 16. On and after March 31, 1997, an individual described in this subsection who returns to state service shall make an irrevocable election to remain in Tier 1 or to become a qualified participant of Tier 2 in the manner prescribed in section 50.

(5) A person, not regularly employed by this state, who is employed through participation in 1 or more of the following programs, shall not be a member of the retirement system and shall not receive service credit for the employment:

(a) A program authorized, undertaken, and financed pursuant to the comprehensive employment and training act of 1973, former Public Law 93-203, 87 Stat. 839.

(b) A summer youth employment program established pursuant to the Michigan youth corps act, 1983 PA 69, MCL 409.221 to 409.229.

(c) A program established pursuant to the job training partnership act, Public Law 97-300, 96 Stat. 1322.

(d) A program established pursuant to the Michigan opportunity and skills training program, first established under sections 12 to 23 of 1983 PA 259.

(e) A program established pursuant to the Michigan community service corps program, first established under sections 25 to 35 of 1983 PA 259.

(6) A person, not regularly employed by this state, who is employed to administer a program described in subsection (5) shall not be a member of the retirement system and shall not receive service credit for the employment.

(7) If a person described in subsection (5)(a) later becomes a member of this retirement system within 12 months after the date of termination as a participant in a transitional public employment program, service credit shall be given for employment which is excluded in subsection (5) for purposes of determining a retirement allowance upon the payment by the person's employer under subsection (5) from funds provided under the comprehensive employment and training act of 1973, former Public Law 93-203, 87 Stat. 839, as funds permit, to the retirement system of the contributions, plus regular interest, the

employer would have paid had the employment been rendered in a position covered by this act. During the person's employment in the transitional public employment program, the person's employer shall place in reserve a reasonable but not necessarily an actuarially determined amount equal to the contributions that the employer would have paid to the retirement system for those employees in the transitional public employment program as if they were members under this act, but only for that number of employees that the employer determined would move from the transitional public employment program into positions covered by this act. If the funds provided under the comprehensive employment and training act of 1973, former Public Law 93-203, 87 Stat. 839, are insufficient, the remainder of the employer contributions shall be paid by the person's current employer.

(8) For purposes of section 19g, a former member shall be considered a member and shall be considered to have satisfied the requirements of section 19g(1)(c) and (2)(c) if the former member was employed by the department formerly known as the department of mental health on January 1, 1996 and went on layoff status before January 1, 1997.

38.19i Retirement allowance; computation; accumulated sick leave; purchase of service credit; hiring under contract; limitation.

Sec. 19i. (1) Notwithstanding section 19, a member may retire and receive a retirement allowance computed under this section if the member meets all of the following requirements:

(a) On or before December 31, 2002, or on the effective date of his or her retirement, whichever is earlier, the member's combined age and length of credited service is equal to or greater than 75 years, or, if the member has at least 20 years of service credit, the member's combined age and length of credited service is equal to or greater than 65 years.

(b) The member is an employee of the legislature, is an employee of the office of governor, is an employee of the judicial system, or is an unclassified employee within the state civil service.

(c) The member was employed by this state or the legislature for the 30-month period ending on December 1, 2002. A member who is on layoff status from state employment is considered to have met the employment requirement of this subdivision.

(d) The member executes and files a written application with the retirement board, on or after December 1, 2002, but not later than December 31, 2002, stating a date on or after January 1, 2003, but not later than February 1, 2003, on which he or she desires to retire. A member may withdraw a written application on or before January 15, 2003. A written application submitted by a member and not withdrawn on or before January 15, 2003 is irrevocable.

(e) The member is not employed in a covered position as defined in section 45.

(f) The member is not a conservation officer as described in section 48.

(2) If a member meets all of the requirements of subsection (1) except the requirement in subsection (1)(c), the member may retire and receive a retirement allowance equal to the member's number of years and fraction of a year of credited service multiplied by 1-1/2% of his or her final average compensation. Except for the calculation provided in this subsection, the member's retirement allowance is subject to section 20. The member's retirement allowance is not subject to reduction pursuant to section 19(2).

(3) Any amount that a member retiring under this section would otherwise be entitled to receive in a lump sum at retirement on account of accumulated sick leave shall be paid in 60 consecutive equal monthly installments beginning on or after February 1, 2003.

Payments received under this subsection may not be used to purchase service credit under this act. These payments for accumulated sick leave are to be paid from funds appropriated to the appointing authority and not from funds of the retirement system. These payments shall be considered taxable income under the income tax act of 1967, 1967 PA 281, MCL 206.1 to 206.532.

(4) Upon his or her retirement as provided in this section, a member who did not make an election under section 50 to terminate membership in Tier 1 and become a qualified participant in Tier 2 shall receive a retirement allowance equal to the member's number of years and fraction of a year of credited service multiplied by 1-3/4% of his or her final average compensation. Except for the calculation provided in this subsection, the member's retirement allowance is subject to section 20. The member's retirement allowance is not subject to reduction pursuant to section 19(2).

(5) Upon his or her retirement as provided in this section, a former member who made an election under section 50 to terminate membership in Tier 1 and become a qualified participant in Tier 2 shall receive a retirement allowance equal to the member's number of years and fraction of a year of credited service multiplied by 1/4% of his or her final average compensation. Except for the calculation provided in this subsection, the former member's retirement allowance is subject to section 20. The former member's retirement allowance is not subject to reduction pursuant to section 19(2).

(6) For purposes of this section, an individual who elected to terminate membership under section 50 and who, but for that election, would otherwise be eligible for membership in Tier 1 under section 13, shall be considered a member of Tier 1 for the limited purpose of receiving a retirement allowance calculated under this section and paid by the retirement system.

(7) An employee who retires under this section shall not be hired under contract by the state for a period of 2 years after the date of separation.

(SB 1203)

AN ACT to amend 1893 PA 206, entitled "An act to provide for the assessment of rights and interests, including leasehold interests, in property and the levy and collection of taxes on property, and for the collection of taxes levied; making those taxes a lien on the property taxed, establishing and continuing the lien, providing for the sale or forfeiture and conveyance of property delinquent for taxes, and for the inspection and disposition of lands bid off to the state and not redeemed or purchased; to provide for the establishment of a delinquent tax revolving fund and the borrowing of money by counties and the issuance of notes; to define and limit the jurisdiction of the courts in proceedings in connection with property delinquent for taxes; to limit the time within which actions may be brought; to prescribe certain limitations with respect to rates of taxation; to prescribe certain powers and duties of certain officers, departments, agencies, and political subdivisions of this state; to provide for certain reimbursements of certain expenses incurred by units of local government; to provide penalties for the violation of this act; and to repeal acts and parts of acts," by amending section 27 (MCL 211.27), as amended by 1994 PA 415.

The People of the State of Michigan enact:

211.27 "True cash value" defined; considerations in determining value; indicating exclusions from true cash value on assessment roll; subsection (2) applicable only to residential property; repairs considered normal maintenance; exclusions from real estate sales data; "present economic income" defined; applicability of subsection (4); value of transferred property; "purchase price" defined.

Sec. 27. (1) As used in this act, "true cash value" means the usual selling price at the place where the property to which the term is applied is at the time of assessment, being

the price that could be obtained for the property at private sale, and not at auction sale except as otherwise provided in this section, or at forced sale. The usual selling price may include sales at public auction held by a nongovernmental agency or person if those sales have become a common method of acquisition in the jurisdiction for the class of property being valued. The usual selling price does not include sales at public auction if the sale is part of a liquidation of the seller's assets in a bankruptcy proceeding or if the seller is unable to use common marketing techniques to obtain the usual selling price for the property. A sale or other disposition by this state or an agency or political subdivision of this state of land acquired for delinquent taxes or an appraisal made in connection with the sale or other disposition or the value attributed to the property of regulated public utilities by a governmental regulatory agency for rate-making purposes is not controlling evidence of true cash value for assessment purposes. In determining the true cash value, the assessor shall also consider the advantages and disadvantages of location; quality of soil; zoning; existing use; present economic income of structures, including farm structures; present economic income of land if the land is being farmed or otherwise put to income producing use; quantity and value of standing timber; water power and privileges; and mines, minerals, quarries, or other valuable deposits known to be available in the land and their value. In determining the true cash value of personal property owned by an electric utility cooperative, the assessor shall consider the number of kilowatt hours of electricity sold per mile of distribution line compared to the average number of kilowatt hours of electricity sold per mile of distribution line for all electric utilities.

(2) The assessor shall not consider the increase in true cash value that is a result of expenditures for normal repairs, replacement, and maintenance in determining the true cash value of property for assessment purposes until the property is sold. For the purpose of implementing this subsection, the assessor shall not increase the construction quality classification or reduce the effective age for depreciation purposes, except if the appraisal of the property was erroneous before nonconsideration of the normal repair, replacement, or maintenance, and shall not assign an economic condition factor to the property that differs from the economic condition factor assigned to similar properties as defined by appraisal procedures applied in the jurisdiction. The increase in value attributable to the items included in subdivisions (a) to (o) that is known to the assessor and excluded from true cash value shall be indicated on the assessment roll. This subsection applies only to residential property. The following repairs are considered normal maintenance if they are not part of a structural addition or completion:

(a) Outside painting.

(b) Repairing or replacing siding, roof, porches, steps, sidewalks, or drives.

(c) Repainting, repairing, or replacing existing masonry.

(d) Replacing awnings.

(e) Adding or replacing gutters and downspouts.

(f) Replacing storm windows or doors.

(g) Insulating or weatherstripping.

(h) Complete rewiring.

(i) Replacing plumbing and light fixtures.

(j) Replacing a furnace with a new furnace of the same type or replacing an oil or gas burner.

(k) Repairing plaster, inside painting, or other redecorating.

(*l*) New ceiling, wall, or floor surfacing.

(m) Removing partitions to enlarge rooms.

(n) Replacing an automatic hot water heater.

(o) Replacing dated interior woodwork.

(3) A city or township assessor, a county equalization department, or the state tax commission before utilizing real estate sales data on real property purchases, including purchases by land contract, to determine assessments or in making sales ratio studies to assess property or equalize assessments shall exclude from the sales data the following amounts allowed by subdivisions (a), (b), and (c) to the extent that the amounts are included in the real property purchase price and are so identified in the real estate sales data or certified to the assessor as provided in subdivision (d):

(a) Amounts paid for obtaining financing of the purchase price of the property or the last conveyance of the property.

(b) Amounts attributable to personal property that were included in the purchase price of the property in the last conveyance of the property.

(c) Amounts paid for surveying the property pursuant to the last conveyance of the property. The legislature may require local units of government, including school districts, to submit reports of revenue lost under subdivisions (a) and (b) and this subdivision so that the state may reimburse those units for that lost revenue.

(d) The purchaser of real property, including a purchaser by land contract, may file with the assessor of the city or township in which the property is located 2 copies of the purchase agreement or of an affidavit that identifies the amount, if any, for each item listed in subdivisions (a) to (c). One copy shall be forwarded by the assessor to the county equalization department. The affidavit shall be prescribed by the state tax commission.

(4) As used in subsection (1), "present economic income" means for leased or rented property the ordinary, general, and usual economic return realized from the lease or rental of property negotiated under current, contemporary conditions between parties equally knowledgeable and familiar with real estate values. The actual income generated by the lease or rental of property is not the controlling indicator of its true cash value in all cases. This subsection does not apply to property subject to a lease entered into before January 1, 1984 for which the terms of the lease governing the rental rate or tax liability have not been renegotiated after December 31, 1983. This subsection does not apply to a nonprofit housing cooperative subject to regulatory agreements between the state or federal government entered into before January 1, 1984. As used in this subsection, "nonprofit cooperative housing corporation" means a nonprofit cooperative housing corporation that is engaged in providing housing services to its stockholders and members and that does not pay dividends or interest upon stock or membership investment but that does distribute all earnings to its stockholders or members.

(5) Beginning December 31, 1994, the purchase price paid in a transfer of property is not the presumptive true cash value of the property transferred. In determining the true cash value of transferred property, an assessing officer shall assess that property using the same valuation method used to value all other property of that same classification in the assessing jurisdiction. As used in this subsection, "purchase price" means the total consideration agreed to in an arms-length transaction and not at a forced sale paid by the purchaser of the property, stated in dollars, whether or not paid in dollars.

This act is ordered to take immediate effect.

(b) Total expenditures for these services shall not exceed the level of total payments made during fiscal year 2001-02, after adjusting for Medicare copayments and deductibles and for changes in utilization.

(2) To ensure that total expenditures stay within the spending constraints of subsection (1)(b), the department shall develop a utilization adjustor for the basic 2-tier payment methodology. The adjustor shall be based on a good faith estimate by the department as to what the expected utilization of emergency room services will be during fiscal year 2002-03, given changes in the number and category of Medicaid recipients. If expenditure and utilization data indicate that the amount and/or type of emergency physician professional services are exceeding the department's estimate, the utilization adjustor shall be applied to the 2-tier reimbursement methodology in such a manner as to reduce aggregate expenditures to the fiscal year 2001-02 adjusted expenditure target.

(3) If federal law, regulation, or judicial ruling finds that this 2-tier reimbursement methodology is not Health Insurance Portability and Accountability Act (HIPAA) compliant prior to the end of fiscal year 2002-03, the department shall immediately provide the chairpersons of the senate and house appropriations subcommittees on community health and their respective fiscal agencies, with the proposed modifications necessary to bring this methodology into compliance.

(4) The proposal specified in subsection (3) should be as consistent as possible with the intent of the methodology specified in this section and must be provided to the subcommittee chairpersons and respective fiscal agencies, no less than 30 days before the effective date of the proposal.

The People of the State of Michigan enact:

474.65a Rail infrastructure loan fund.

Sec. 15a. (1) The rail infrastructure loan fund is created to implement the rail infrastructure loan program in the state transportation department. Subject to the maximum established by this section, the legislature shall appropriate an amount not to exceed $3,000,000.00 each year to the rail infrastructure loan fund until the maximum in subsection (5) is met. Interest earned and repayments received and any penalties assessed and received for failure to repay loans on time shall be credited to the fund. The rail infrastructure loan fund is a self-sustaining revolving loan fund to finance construction and improvements that are designed for improvements to freight railroad infrastructure for the purposes of preserving, rebuilding, rehabilitating, or constructing facilities or improvements on railroad operating property or property adjacent to railroad operating property, in this state. Construction is limited to those facilities or improvements required to continue rail service on a particular line or to improve the efficiency and safety of existing rail service. If the department determines that the public interest requires, a loan may be made to eligible applicants provided by subsection (2) to acquire rail property for the purpose of preserving freight rail service or improving the efficiency of existing freight rail service. An eligible applicant described in subsection (2) may apply for a loan from the

fund for the purposes described in this section or for use as nonfederal match for any federal rail infrastructure loan program.

(2) The fund shall provide noninterest bearing loans for the purposes described in this section. The department shall evaluate loan applications according to the relative merit of the project in conjunction with program goals and make recommendations to the state transportation commission regarding each loan application. The state transportation commission shall approve or deny the loans and establish loan disbursement and payment schedules based on the needs of the work in progress. A loan shall fund not more than 90% of the rail portion of project costs, and the loan repayment period shall not exceed 10 years. A county, city, township, village, economic development corporation, and railroad and current or potential users of freight railroad services are eligible applicants.

(3) At the end of each fiscal year, unexpended funds shall remain in the rail infrastructure loan fund and shall be available for the purposes of the program in the succeeding fiscal year. Amounts in the fund may be combined by the state treasurer with other amounts in the state treasury for purposes of cash management. The earnings from the investment of the fund shall accrue to the fund. The fund shall be accounted for separately from other funds of the state. The fund may receive gifts or grants for the purposes of the fund. Any penalties assessed and received for failure to repay a loan on time and money that is received by this state as repayment for rail infrastructure loans made pursuant to this program shall remain within the rail infrastructure loan fund and shall only be used for the purposes of rail infrastructure loans as provided in this section.

(4) By December 31 each year, the department shall report to the house and senate appropriations subcommittees on transportation and the house and senate fiscal agencies the following information, as appropriate, regarding this section and on a separate report the rail freight fund under section 17:
